

Richard Jaimes

Speaker | Futurist | Strategist

Conferences, Speeches, Training, Consulting, Seminars

With more than 18 years of professional experience within transnational corporations in different industries, Richard has had the opportunity to lead people and organizations, investigate future topics, create strategies and innovations, consult senior management and translate insights into business advantages. Some have used the words to describe him as a: futurist, pioneer, strategist, inspirational, forward thinker, innovator and coach.

As a speaker and trainer, he has the ability to bring people into the subject with a very authentic, competent and charming way, grasping their imagination, inspiring people and challenging their conceptions of the status quo. Together with excellent stage presence, outstanding communication skills and a strong professional and academic background; Richard excels at simplifying complex topics and making them accessible for the viewer.

As a consultant, he is highly customer focused, having the clients needs and situation in focus in order to guide and achieve results to best meet their particular circumstances.

Richard goes the extra mile to research the topics and combine it with his experience and knowledge; overall, you get high-end tailor-made speeches and results.

PORTFOLIO OFFER

Speeches

Keynote speeches,
Conferences,
Panel discussions,
Round tables,
Seminars,
Talks.

Content is prepared for each customer in order to meet their particular needs. Topics are researched and combined with Richard's personal experience and knowledge; overall, you get high-end tailor-made speeches which are cleverly made to reach the spectator.

Consulting

Projects,
Workshops,
Research.

With a very strong background in multidimensional projects and the combination of future oriented methods, Richard has been developing consulting projects for different clients who seek to develop towards the long run; may it be in strategy, products, portfolio or "simply" developing their future opportunities. The basis of the consulting services is the total focus of the customer's needs, by actively seeking to understand the situation, background, expectations and needs of the client, to provide excellent results.

Training

Learning,
Seminars.

This type of training has been created as a guideline and practical approach for organizations and individuals wishing to strengthen their foresight, strategy and innovation efforts for the long run. Traditionally, foresight is a highly theoretical discipline; Richard is transforming this into a hands on approach for managers and leaders, to plan and understand future developments with the use of interactive methods that can be applied as soon the participant gets back into the office.
