Illinois State Budget

Governor Bruce Rauner

Fiscal Year 2016
July 1, 2015 – June 30, 2016

This page intentionally left blank.

NOTICE
For Release at 12:00 Noon, Wednesday,
February 18, 2015

There is a total embargo on the budget for fiscal year 2016 until 12:00 noon, Wednesday, February 18, 2015. This prohibition includes references to any and all material in the *Illinois State Budget, Fiscal Year 2016*. There must be no premature release of this document, nor should any of its contents be paraphrased, alluded to, or commented upon prior to 12:00 noon, February 18, 2015.

Tim Nuding, Director
Governor's Office of Management and Budget

Office of the Governor
207 State Capitol, Springfield, Illinois 62706

February 18, 2015

To the Honorable Members of the General Assembly and the People of the State of Illinois:

I respectfully submit to you the Fiscal Year 2016 Operating Budget. What is presented today is a turnaround budget proposal. It turns away from massive debt and deficits and away from the unsustainable trajectory of ever high spending absent significant economic growth.

To move forward as a state, we must ensure taxpayers are getting value for their money. We have billions in unpaid bills for state employee costs—pensions, health insurance, and salaries—because we made promises taxpayers cannot afford. As a result, programs were knowingly underfunded, causing agencies to push bills off year after year.

We must relieve taxpayers from these costs as quickly as possible. This budget includes \$500 million to pay down our backlog of unpaid bills and restructures the core costs of state government that are holding us back.

It curbs the most expensive pension plan so that all employees are treated equally and it brings health care benefits in line with those received by the taxpayers paying for them.

The pension reform plan in this budget will protect every dollar of benefits earned to date, and retirees can keep everything they were promised. Moving forward, with the exception of police officers and firefighters, all future work will be under the Tier 2 pension plan.

This budget also gives workers hired before 2011 a choice to take a buyout option – a lump sum payment and a defined contribution plan – in return for a voluntary reduction in cost-of-living adjustments. It's time to empower our workforce and address one of the biggest fiscal challenges in the nation.

Together, these reforms will yield more than \$2 billion in savings in the first year alone.

This budget also makes education our top priority again. It increases education funding by \$328 million, helping every school district in the state, but especially those that most need our support. We still have more work to do to make our schools among the best in the nation, but I'm proud of the commitment we are making in this budget.

The budget presented is the budget Illinois can afford. It lives within our means – without raising taxes or relying on irresponsible borrowing – and puts us on a fiscally-sustainable path.

While this budget reduces spending, it finds ways to fund core government services. This budget improves public safety, provides care for our most vulnerable and boosts funding for education.

I look forward to working with you on our Illinois Turnaround Plan in the year ahead.

Sincerely,

A handwritten signature in black ink, reading "Bruce Rauner".

Bruce Rauner
Governor, State of Illinois

Governor's Office of Management and Budget
401 South Spring, Springfield, Illinois 62706

February 18, 2015

To the Honorable Members of the General Assembly and the People of the State of Illinois:

Illinois is a state with many economic advantages. It's a wonderfully diverse state, with people of many ethnicities, cultures and backgrounds. It's a state with great cities and great rural communities.

Illinois is a national transportation hub, located advantageously in the middle of the nation. We have an extensive network of roads, waterways and rail. Illinois is home to some of the busiest airports in the world. Our state is positioned on vital waterways such as the Mississippi and Ohio Rivers and Lake Michigan, giving our state a huge advantage in interstate and international commerce.

Illinois is a leader in energy production with an abundance of coal, nuclear, wind and natural gas resources. Illinois has tremendous agricultural assets and is home to some of the most fertile farmland on the planet. Human resources are one of our strengths and our labor force is ready, willing and able to work. Illinois has all the tools to be successful.

Unfortunately, Illinois' government has not been living up to its potential and the people of Illinois know it. Our government is universally viewed in a negative way and this hurts our opportunities to attract and retain businesses and is a barrier to economic growth. Our government's reputation hurts all Illinoisans as employers look to move elsewhere, curtail expansion plans or look to other states for expansion opportunities.

The morale of our citizens is low, and many Illinoisans are down on Illinois. A 2014 Gallup poll found that 1 in 4 Illinois citizens believe our state is the worst state to live in – by far the highest percentage of any other state in the country. Only 3 percent of Illinoisans said ours was the best state in which to live – the lowest of any state.

About half of Illinoisans say they would leave Illinois if they could – that's the highest percentage of any other state. United Van Lines' 2014 National Movers Study lists Illinois as the third highest outbound state, meaning that more people are moving out of Illinois than out of 47 other states. In addition, Illinois has ranked in the top 5 outbound states for the last six years.

Illinoisans have the lowest trust in their state government, with only 28 percent of respondents saying they trust their government while the national figure is almost 60 percent. Gallup notes that "trust in government is a key commodity for a democratic government to function well."

Financially, Illinois has experienced budget deficit after budget deficit. Our pension systems are the worst-funded in the nation, burdening our citizens with crushing unpaid obligations for decades into the future. Our government has racked up billions in unpaid bills. The credit rating agencies now rank Illinois with the lowest credit ratings of any state in the country.

It is against this backdrop that Governor Rauner's Fiscal Year 2016 State Budget is offered. This plan, coupled with Governor Rauner's bold Turnaround agenda to make Illinois competitive, improve the state's economy and restore faith in Illinois government, is designed to turn the corner and put us on a path toward Illinois achieving her unrealized potential to be the greatest state in our nation.

A handwritten signature in black ink, reading "Timothy C. Nuding".

Fiscal Year 2016 Illinois State Budget Reader's Guide

A Reader's Guide To The Fiscal Year 2016 Illinois State Budget

Introduction

The Illinois budget process is driven by state constitutional and statutory requirements, a wide array of general guidelines and technical considerations. This Reader's Guide is designed to help readers understand the structure and content of the operating budget. It includes the following sections:

- A description of the budget documents
- An explanation of how the fiscal year 2016 budget document is organized
- An organization chart of state government
- An explanation of the basis of budgeting
- A guide to reading and understanding agency budget submissions, including narratives and budget tables
- A description of the various fund types in the Illinois accounting system

Budget Operations

This document presents the *Fiscal Year 2016 Illinois State Budget*. It sets forth the governor's operating budget recommendations for the period July 1, 2015 through June 30, 2016.

The state's operating and capital budgets are subject to the same procedures. However, the *Fiscal Year 2016 State of Illinois Capital Budget* is presented in a separate document for the reader's convenience. Both documents are available at www.budget.illinois.gov.

Budget Document Organization

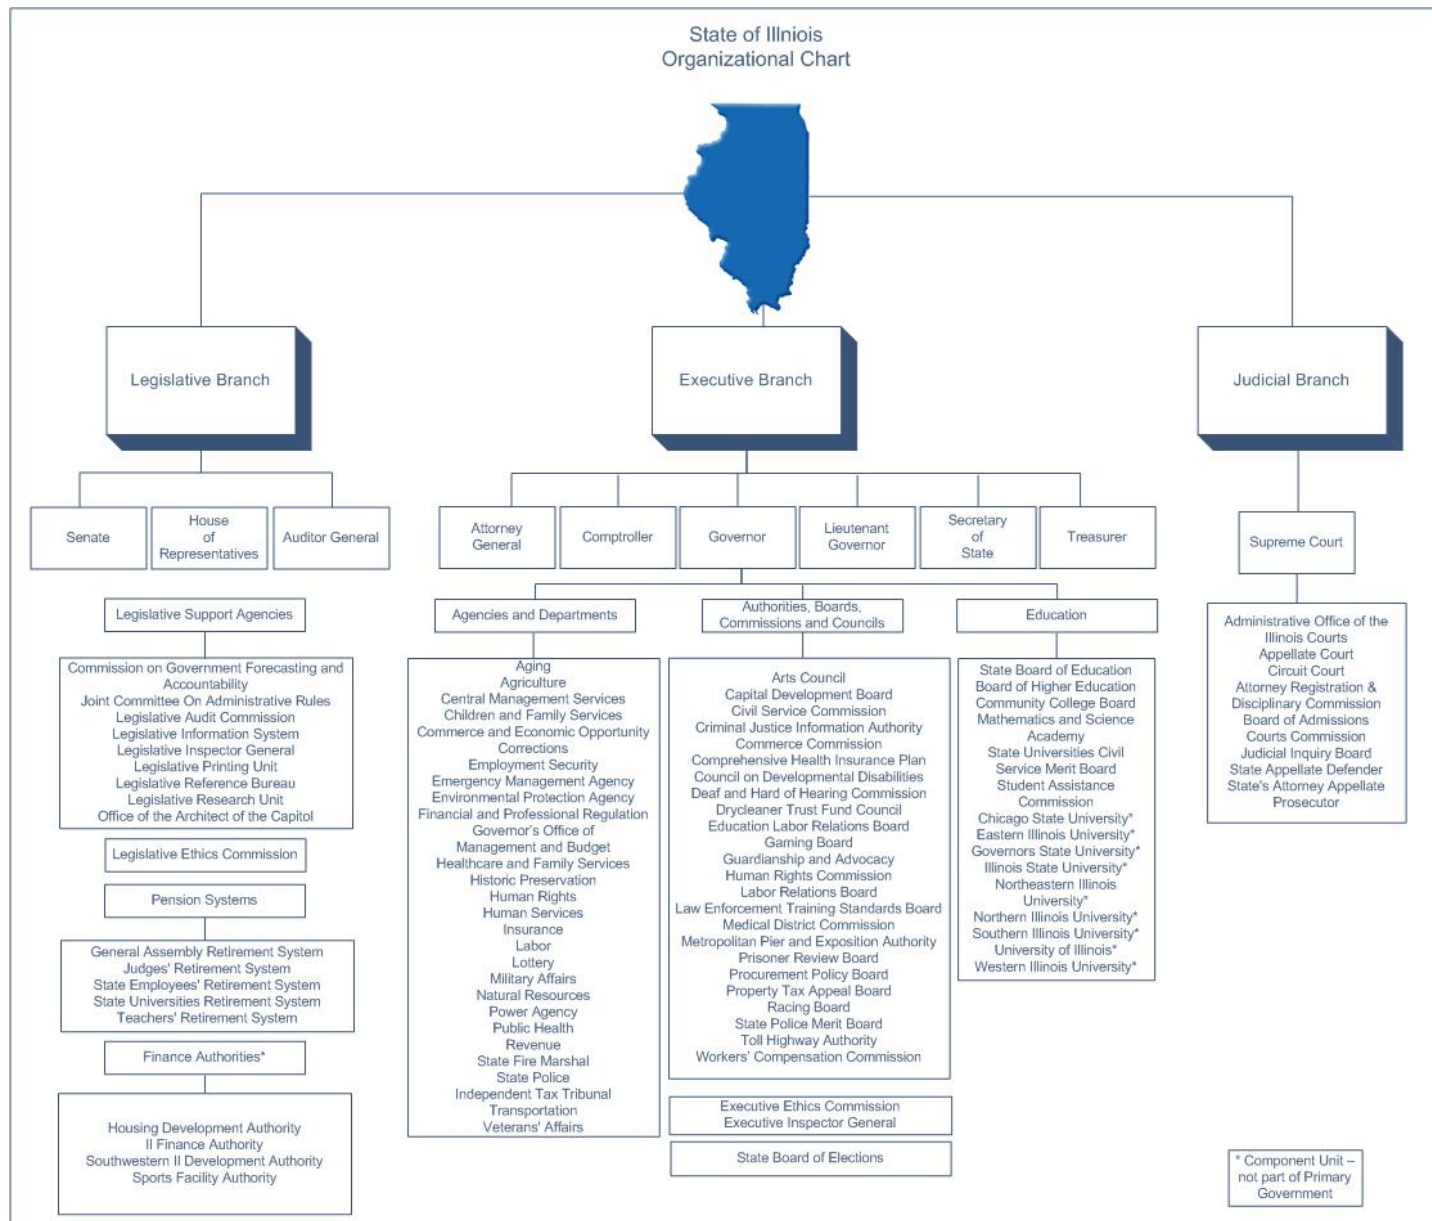

The *Fiscal Year 2016 Illinois State Budget* is organized as follows:

- **The Governor's Letter of Transmittal** to the General Assembly and the residents of Illinois.
- **Table of Contents.**
- **Chapter 1:** The *Reader's Guide*.
- **Chapter 2:** The *Budget Summary* of the state's current fiscal plan. This chapter presents the governor's budget priorities and key recommendations and his budget reform initiatives.
- **Chapter 3:** The *Fiscal Summary* highlights key financial issues and includes several tables that summarize appropriations, expenditures,

revenues and funds. It also presents the fiscal year 2016 budget categorized by statewide Result Area. Chapter 3 concludes with the following *Summary Tables*:

- Table 1-A: Appropriations by Agency.
- Table 1-B: Operating Appropriations by Programs and Outcomes – All Funds
- Table 1-C: Supplemental Appropriations for Fiscal Year 2015.
- Table 1-D: General Funds Transfers Out by fund
- Table II-A: All Appropriated Funds Revenues by Source.
- Table II-B: General Funds Revenue by Source.
- Table II-C: General Funds Revenue - Modified Accrual Basis.
- Table II-D: General Funds Expenditures - Modified Accrual Basis.
- Table III-A: Road Fund.
- Table III-B: Motor Fuel Tax Fund - State Funds.
- Table IV-A: Appropriated Operating Funds by Fund Group for Fiscal Year 2016. This is a presentation of the projected operating cash flow for each fund group.
- Table IV-B: Appropriated Operating Funds by Fund for Fiscal Year 2016. This table presents the fund balance for each fund in the Illinois accounting system. The end of year cash balance is equal to the beginning of year cash balance, plus receipts, minus disbursements.
- **Chapter 4: Illinois' Economic Outlook and Revenue Forecast.** This chapter describes Illinois' economy within the context of the national economy. Details are also provided on revenue sources and revenue forecasting methodology used by the state.
- **Chapter 5:** A report on the state's **Public Retirement Systems**.
- **Chapter 6: Agency Budget Detail.** Covers the budget recommendations for each agency and other branches of government, including elected officials. The agencies are grouped by Table I-A order.
- **Chapter 7:** The **Debt Management** report describes the state's debt affordability model, borrowing activities and financing schedule.
- **Chapter 8: Demographic Information** on the Illinois population.
- **Chapter 9:** A **Glossary** of special terms.

Fiscal Year 2016 Illinois State Budget Reader's Guide

Fiscal Year 2016 Illinois State Budget Reader's Guide

Basis Of Budgeting

The Illinois Constitution requires the governor to prepare and submit a state budget to the General Assembly for the upcoming fiscal year. The budget sets forth the estimated balance of funds available for appropriation at the beginning of the fiscal year, the estimated receipts, and a plan for expenditures during the fiscal year. The Illinois Constitution requires the governor to submit a balanced budget.

Public Act 90-479, enacted in 1999, amended the Civil Administrative Code (state budget law) to provide guidance to the governor on balanced budget requirements as he proposes the budget, and to the General Assembly as it makes appropriations. Public Act 90-479 applies only to six funds, defined as budgeted funds: general revenue, common school, education assistance, road, motor fuel tax and agricultural premium.

For the budgeted funds, revenue estimates include the beginning fund balance, revenues to be received during the budgeted year and revenues to be collected in the two-month lapse period following the budgeted year.

Public Act 90-479 also requires the use of the "modified accrual" basis of budgeting. Revenues are accounted for in the year they are due, not when they are received. However, the amounts due to the state in one fiscal year, but actually received in the following fiscal year, are typically small and consistent over time, and are due to the normal payment cycles set forth in law. For instance, final monthly sales tax payments are due to the state on the 20th day of the month following the sale. Consequently, final sales tax payments for June sales are received in July, the first month of the ensuing fiscal year.

Likewise, revenue estimates include only those revenues due to the state during the fiscal year, July 1 through June 30. They do not include revenues collected in the lapse period of the budgeted fiscal year (through August 31), which were due to the state as of June 30 of that year.

Expenditure estimates for budgeted funds take into account the costs to be incurred in the budgeted fiscal year, including those to be paid from future fiscal year appropriations.

Expenditure estimates in Table II-D do not include costs paid in the budgeted fiscal year that were incurred in the prior fiscal year.

Of the budgeted funds, only the General Revenue Fund has expenditures pursuant to Section 25 of the State Finance Act. Thus, expenditure estimates for the other funds are unaffected by Public Act 90-479.

Revenue and expenditure estimates also include transfers between funds that are based on revenues received or costs incurred during the budgeted year.

All other funds must be balanced so that proposed expenditures and appropriations do not exceed funds estimated to be available.

In addition, Public Acts 96-958 and 96-1529 require that all revenue estimates for the coming fiscal year be based on revenues established in current law or passed by the legislature and signed by the Governor at the time the budget is presented. Furthermore, these acts require that "amounts recommended by the Governor for Appropriation shall take into account each state agency's effectiveness in achieving its prioritized goals for the previous fiscal year." This provides the statutory basis for the Governor's Budgeting for Results initiative.

A Guide To Understanding Agency Budget Submissions

The budget recommendations of the *Fiscal Year 2016 Illinois State Budget* include a narrative of each agency's operations and summary tables of its budget.

Agency Budget Detail

The narrative for each agency includes the following sections:

- **About the Agency:** Provides the agency address, phone number and a link to the agency web page.
- **Recommendations:** A table summarizing the change from fiscal year 2015 enacted appropriations to fiscal year 2016 recommended appropriations. The table shows the enacted and recommend

Fiscal Year 2016 Illinois State Budget Reader's Guide

appropriation for the agency by General Revenue Fund, Other State Funds and Federal Funds. The table shows changes from fiscal year 2015 enacted appropriations to fiscal year 2015 maintenance appropriations, and fiscal year 2016 maintenance. Any reductions or increases in agency appropriations necessary to reach the fiscal year 2016 recommended appropriations amount are also displayed.

- **FY15 Maintenance Budget** - The 2015 enacted budget, after adjusting for anticipated spending pressures and/or other necessary budget reallocations, to identify the amount needed to sustain a state agency's core mission and programs for fiscal year 2015.
- **FY16 Maintenance Budget** - The budget amount sufficient to fund a state agency's core mission and programs for fiscal year 2016 after annualizing costs from the prior year's budget, adjusting for rate/price changes, and removing one-time costs.
- Any budgetary reductions or increases necessary to adjust the budget from the fiscal year 2016 maintenance level to the fiscal year 2016 recommended budget level are classified into the following general categories:

- *Operational Efficiencies* - these adjustments are any internal agency management practices, personnel utilization, compensation adjustments or infrastructure improvements meant to support core agency missions and achieve long-term cost savings.
- *Special Fund Consolidation* - these adjustments reflect the consolidation of special state funds, to achieve greater efficiency in cash flow and decreased administrative time and expense.
- *Technical Adjustments* - these changes reflect instances where appropriations have been right-sized to more accurately reflect the level of appropriation relative to actual spending.
- *Legislative Add-Ons* - these changes more accurately reflect the level of appropriation relative to actual spending.

An example of the Agency Recommendations table is shown below.

RECOMMENDATIONS				
(\$ thousands)	General Funds	Other State Funds	Federal Funds	Total
FY 2015 Budget Enacted	10,109.3	0.0	1,000.0	11,109.3
Needed to complete FY 2015	0.0	0.0	0.0	0.0
FY 2015 Maintenance Budget	10,109.3	0.0	1,000.0	11,109.3
Needed to maintain in FY 2016				
Operations			0.0	9.2
Total			0.0	9.2
FY 2016 Maintenance Budget	10,118.5	0.0	1,000.0	11,118.5
Eliminations and Reductions in FY 2016				
Operational Efficiencies	-2,031.1	0.0	0.0	-2,031.1
Total	-2,031.1	0.0	0.0	-2,031.1
FY 2016 Recommended Budget	8,087.4	0.0	1,000.0	9,087.4
Reduction From FY 2016 Maintenance	20.1%	0.0%	0.0%	18.3%

Fiscal Year 2016 Illinois State Budget Reader's Guide

- **Resources by Fund:** A table summarizing funding sources, recommended appropriations and two-year history of actual appropriations. Also included is a two-year headcount history and target headcount for the next year.
- **Resources by Result/Outcome/Program:** A new table showing the programs by which the agency contributes to statewide outcomes and results. A complete presentation of appropriations by agency program, outcome, and result is found in Chapter 2, Summary Tables.
- **Performance Measures by Program:** A table that captures the contribution of agency programs to progress in key areas that relate to meeting statewide outcome(s). Instances where data is not available for a particular fiscal year are denoted by "N/A".

Agency Budget Tables

The budget tables provide summary detail on each agency's budget. The budget tables list each agency's appropriations and expenditures by major fund group, by fund and by division, as well as the agency's headcount by division. Personnel detail forms, which list the agency's staff by division and position title, are available in a separate volume. Note that tables may not add due to rounding.

Appropriations by Major Fund Category/ Major Object

- The appropriations recommendations requiring General Assembly action are shown by type of expenditure for each of three major fund groups: general funds, other state funds and federal funds.
- Within each fund group, the appropriations and expenditures are further subdivided into major categories such as personal services and fringe benefits, contractual services, other operations and refunds, designated purposes, and grants. Each appropriation for designated purposes and grants is listed individually.

Appropriations by Fund

- The agency's resources are shown in total for each fund requiring appropriations by the General Assembly.

Appropriations by Division

- The agency's new appropriations and reappropriations requiring General Assembly action are shown by division, as classified by the comptroller.

Headcount by Division

- The agency's headcount, by division, is presented showing actual headcount at the end of fiscal year 2014, estimated headcount for fiscal year 2015, and target headcount for fiscal year 2016.

Column Descriptions

- The fiscal year 2014 enacted appropriations column reports all original and supplemental appropriations and reappropriations enacted by the General Assembly and signed into law by the governor for fiscal year 2014. The amounts also reflect approved 2 percent transfers and executive orders issued by the governor.
- Fiscal year 2014 actual expenditures include those incurred from July 1, 2013, through June 30, 2014, and received during the two-month lapse period ending August 31, 2014. During the lapse period, outstanding fiscal year 2014 remaining state obligations were liquidated. Due to a large backlog of payments owed to service providers and vendors, an Act of the General Assembly, signed by the governor, extended the lapse period through December 31, 2014, for payment of vouchers only. This was done in order to provide time to pay as many of the bills incurred in fiscal year 2013 as possible.
- Fiscal year 2015 appropriations reflect all original and supplemental appropriations for fiscal year 2015, through January 31, 2015, enacted by the General Assembly and signed by the governor. This column also reports changes due to approved 2 percent transfers and executive orders issued by the governor.
- Fiscal year 2015 estimated expenditures reflect the expenditures projected to be incurred through the fiscal year, including the lapse period, and also account for anticipated 2 percent transfers. These expenditures do not include the anticipated

Fiscal Year 2016 Illinois State Budget Reader's Guide

fiscal year 2015 supplemental appropriations shown in Table I-C.

An example of the Budget Table is shown below.

- Fiscal year 2016 appropriations show the Governor's Proposed budget.

Appropriations Requiring General Assembly Action (\$ thousands)	FY 2014		FY 2015		FY 2016
	Enacted Appropriation	Actual Expenditure	Enacted Appropriation	Estimated Expenditure	Recommended Appropriation
GENERAL FUNDS					
Designated Purposes

Fiscal Year 2016 Illinois State Budget Reader's Guide

Budgeting For Results Table

The fiscal year 2016 budget continues the practice established in 2013 of presenting a Budgeting for Results (BFR) summary table, Table I-B, in the front of the budget book displaying prior year and proposed appropriations by agency programs and statewide Result and Outcome areas.

For its fiscal year 2016 budget, GOMB is continuing the practice established in 2014 of electronically publishing a data file of all the information contained in the budget available to the public, available at data.illinois.gov immediately following the Governor's budget address.

Table I-B - Operating Appropriations by Program					
Appropriation Requiring General Assembly Action (\$ thousands)	Fiscal Year 2014		Fiscal Year 2015		Fiscal Year 2016
	Enacted Appropriation	Actual Expenditure	Enacted Appropriation	Estimated Expenditure	Governor's Proposed
Education					
Improve School Readiness and Student Success for All					
Department Of Military Affairs					
Lincoln's Challenge Academy	0.0		10,565.2	9,715.2	12,565.2

Fiscal Year 2016 Illinois State Budget Reader's Guide

Description Of Funds

- The funds in the Illinois accounting system are classified into two broad categories: appropriated and non-appropriated funds.
- Appropriated funds are further classified into eight fund groups: general, highway, special state, bond financed, debt service, federal trust, revolving and state trust funds.

- Non-Appropriated funds are composed primarily of federal and state trust funds, and include a few special state funds.

The following chart describes the major appropriated fund types, as well as the sources and uses of those funds.

STATE OF ILLINOIS MAJOR FUND GROUP

Fund Group	Sources	Purposes/Uses
General Funds	State income taxes, sales taxes, other taxes and fees	Support the regular operating and administrative expenses of most state agencies. Include General Revenue Fund, Education Assistance Fund, Common School Fund and General Revenue-Common School Special Account Fund.
Highway Funds	Motor fuel taxes, vehicle registrations, licenses and fees	Receive and distribute special assessments related to transportation. Support transportation-related activities at the state and local levels.
Special State Funds	Taxes and fees	Represent accounts restricted to the revenues and expenditures of a specific source. Support such diverse activities as medical assistance, children's services, environmental cleanup, financial regulation and health insurance. They are designated in Section 5 of the State Finance Act (30 ILCS 105/5) as special funds in the State Treasury and not elsewhere classified.
Bond Financed Funds	Build Illinois and General Obligation (GO) bonds	Receive and administer the proceeds of various state bond issues. Pay for capital improvements to local schools, state facilities, higher education facilities; and for development of coal-burning power plants, local water and wastewater treatment facilities, public transportation, airports, environmental programs and economic development projects.
Debt Service Funds	Transfers in from other funds	Account for the resources obtained and accumulated to pay interest and principal on debt obligations. Provide for debt service payments on state bonds.
Federal Trust Funds	Federal grants	Support grants and contracts between state agencies and the federal government. Administered for specific purposes established by terms of grants and contracts. Support a variety of programs including education, healthcare, human services, community development, transportation and energy.
Revolving Funds	Repayments on project loans	Finance the operations of state agencies that render services to other state agencies on a cost reimbursement basis; support local capital projects. Appropriation of these funds depends upon intra-governmental service requirements and appropriation of other state agencies.
State Trust Funds	Various	Hold funds on behalf of other entities or individuals (such as pensions). Established by statute, or under statutory authority, for specific purposes.

Budget Solutions by Agency

The Government We Can Afford: The Problem

The Governor Inherited a Budget Deficit When He Was Inaugurated

Illinois' current year budget took effect more than six months before Governor Rauner's inauguration, and was signed into law by the previous governor. That budget has been out of balance since it was signed.

Faced with a budget deficit for the current fiscal year, Governor Rauner issued an Executive Order in January that gave his Office of Management and Budget tools to manage as much of the deficit as possible without additional borrowing or tax increases. His Executive Order limits travel and purchases, and halts state agency grants and contracts for operations that are not essential or required by law. State agencies are directed to take all necessary actions to manage with available resources.

In addition, the Governor has asked the General Assembly for the ability to reallocate funds within existing state resources in order to balance the budget without raising taxes. The state cannot continue to rely on irresponsible borrowing or adding to the state's nearly \$6 billion bill backlog.

The current fiscal year is in deficit for three reasons. The budget passed and signed into law last year was out of balance by \$1.618 billion: \$556 million due to the deliberate underfunding of essential state programs; \$412 million downward revision in revenue estimates; and \$650 million in borrowing that would have needed to be repaid.

Budget Deficit in Fiscal Year 2015 (ending June 30, 2015)	
Underfunding of Programs	(\$556 million)
Reduction in Revenue Estimates	(\$412 million)
Repayment of Inter-fund Borrowing	(\$650 million)
<hr/>	
Fiscal Year 2015 Budget Deficit	(\$1.618 billion)

Underfunding of Programs	(\$556 million)
Reduction in Revenue Estimates	(\$412 million)
Repayment of Inter-fund Borrowing	(\$650 million)
<hr/>	
Fiscal Year 2015 Budget Deficit	(\$1.618 billion)

Because of the Governor's actions to eliminate this deficit, the current year deficit will be solved, and not carried forward into the next budget year. Even with the fiscal year 15 budget problem solved, the state faces a significant budget deficit for fiscal year 2016.

The Government We Can Afford: The Problem

Illinois Taxpayers Are Paying For More Government Than They Receive

The cost of past fiscal neglect is overwhelming the state budget.

Illinois' budget deficit is the result of irresponsible budget management, not the expiration of temporary tax increases.

Illinois' pension system is famously underfunded. Previous legislatures and governors did not make responsible payments into the system, draining it of funds year after year. Additionally, pension benefits have been sweetened periodically over the last several decades. Over the years obligations grew to exceed assets by over \$111 billion, resulting in the largest unfunded pension costs in the nation. This adds \$5.3 billion in debt costs to the budget for next year – on top of the normal annual payment required to pay retirees.

Instead of making payments into the pension system in 2003, 2010 and 2011, the state issued bonds with interest payment obligations, adding to unfunded obligations. As of January 1, 2015, the state owed \$14 billion in principal and \$7 billion in interest on those bonds, adding over \$1.4 billion in borrowing costs for fiscal year 2016.

Unlike other states, Illinois law currently allows state agencies to contract for services if they don't have sufficient funds to pay the entire bill. This practice has contributed greatly to the backlog of unpaid bills. This backlog is projected to total nearly \$5.4 billion dollars by the time the budget for fiscal year 2016 goes into effect—15.4 percent of the general revenue fund budget for the current fiscal year. Illinois' health insurance program for state workers and retirees has historically been overly generous and underfunded, accumulating \$1.3 billion in unpaid bills. These unpaid bills generated an annual interest penalty of \$160 million in fiscal year 2014.

This fiscal neglect – pension underfunding, pension bond debt service and interest on unpaid bills – will cost Illinois taxpayers \$6.9 billion in 2016.

If not for these unpaid bills from the past, Illinois would not be facing a budget deficit.

Cost of Fiscal Neglect in Fiscal Year 2016 (ending June 30, 2016)	
Pension Underfunding	\$5.3 billion
Pension Bond Debt Service	\$1.4 billion
Interest on Unpaid Bills	\$160 million
<hr/>	
Cost of Fiscal Neglect in FY16	\$6.9 billion

Pension Underfunding	\$5.3 billion
Pension Bond Debt Service	\$1.4 billion
Interest on Unpaid Bills	\$160 million
<hr/>	
Cost of Fiscal Neglect in FY16	\$6.9 billion

The Government We Can Afford: The Problem

Tax dollars going to pay old bills do not educate students or pave roads

Illinois has billions in unpaid bills for state employee costs, pensions, health insurance and salaries. Political leaders made promises for which they could not pay, and because programs were underfunded, agencies annually left unpaid bills.

Illinois taxpayers have paid over \$30 billion over the last five years for this fiscal neglect. The cost of fiscal neglect in next year's budget exceeds the individual budgets for education, human services and public safety.

Because of the cost of fiscal neglect, our return on tax dollars is diminishing. Five years ago the state's accumulated cost of fiscal neglect was \$2.9 billion, leaving only 91 percent of tax dollars to be spent on services to the public. Five years later, the state return on tax dollars has shrunk to less than 82 percent: nearly \$1 of every \$5 in the fiscal year 2016 budget will be spent on the cost of fiscal neglect.

The Government We Can Afford: The Problem

Pension debt is overwhelming the budget

Of all the fiscal problems facing Illinois, none looms larger than our pension debt and the growing payments to the state's retirement systems. Unless pension reforms are enacted, the State must pay \$6.6 billion from general funds to the five state-sponsored systems in fiscal year 2016. Under current law, this fiscal year 2016 payment represents a 10 percent or \$580 million increase over the fiscal year 2015 general funds payment. Illinois' pension payments, combined with payments due on pension bonds, already consume almost one quarter of the entire general funds budget.

Reform is needed to ensure the long-term viability of the systems, so that already accrued benefits are paid in full and on-time. The June 30, 2014 valuations of the systems show that they have \$72 billion in assets to cover an accrued liability of \$183 billion (meaning liability for benefits already earned).

On June 30, 2014, the systems were underfunded by more than \$111 billion, a dangerous situation that has since only increased in severity. The combined funded ratio of the systems based on the actuarial value of assets is only 39 percent, the worst in the nation. This means that the retirement systems have the cash and investments to pay only 39 percent of the value of benefits already earned.

If every retirement system member were to start collecting benefits today, each would receive only 39 cents for every dollar promised in benefits.

Illinois now has two unequal benefit plans: one very expensive set of benefits for employees hired before 2011, and a more affordable plan for newer employees. Many employees also boost their pension benefits with overtime pay and salary spiking.

Absent reform, our payments will continue to balloon, leaving less and less for education and other critical government services. Reform is needed to ensure the long-term viability of the systems and provide greater certainty for the systems' employees and retirees, so that benefits are paid in full and on-time.

The Government We Can Afford: The Problem

State employee wages are growing faster than living costs

Since 2003, state employee payroll has grown 18 percent more than it would have if salaries had grown at the rate of inflation.

In recent years, the percentage of state employees in unions has grown, with pay increases that typically exceed inflation. Today, 93 percent of state employees are unionized, which is among the highest of any state. The unions represent over 45,000 state employees, along with those employees, managers, attorneys, accountants, economists, and actuaries – jobs typically not subject to collective bargaining.

The Government We Can Afford: The Problem

The rising cost of the government employee health insurance program has imposed an enormous burden to Illinois taxpayers

The state group health insurance program is one of the most expensive programs in the country and is growing at an unsustainable rate. The total cost of the program has more than doubled in the past 15 years. The government employee health insurance program covers state and university employees, as well as their dependents and retirees.

The per-employee premium cost in Illinois is higher than many of our neighboring states and the national average. Of the states bordering Illinois, only Wisconsin has a more expensive program per employee.

Source: Pew Charitable Trusts and MacArthur Foundation

The cost of employee health insurance has grown by 55 percent over inflation – fiscal year 2014 approximately \$946 million since fiscal year 2001.

55% cost growth above inflation in cost of medical care

Inflation adjustment using Bureau of Labor Statistics, Consumer Price Index – Medical Care

The Government We Can Afford: The Problem

The health insurance cost of retirees and their dependents has increased to \$862.8 million in fiscal year 2014 from \$282.3 million in fiscal year 2001, of which the state pays approximately 90 percent.

The Government We Can Afford: The Problem

Illinois' backlog of unpaid bills diverts taxpayer resources from core services

If we do not take action now to fix the budget, Illinois will have nearly \$12 billion in unpaid bills at the end of fiscal year 2016. Kicking the can down the road by ignoring bills and pension obligation, and purposely underfunding expensive programs, is no longer an option.

Illinois has paid almost \$1 billion dollars in interest on unpaid bills since fiscal year 2003.

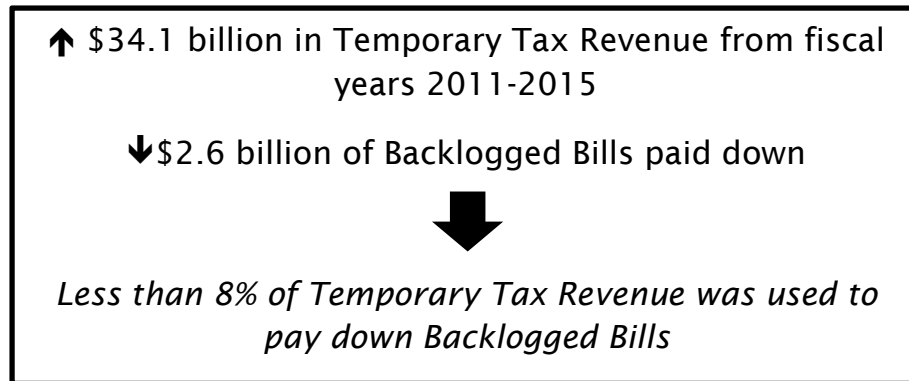

Bill Backlog Interest Cost			
	Private Providers	Health Insurance	Total

* Year to date

The Government We Can Afford: The Problem

Temporary Tax Increases Did Not Solve the Budget Problem

Faced with growing deficits and backlog of bills, in 2011 the state passed a temporary income tax increase on individuals and corporations. Illinois political leaders said the goal of this tax hike was to pay off the state's backlog of bills, stabilize the state's pension crisis and strengthen its economy. None of these goals were achieved. The 2011 67 percent income tax increase resulted in taxpayers paying an additional \$34.1 billion in taxes over the four years in which it was in effect. It did little to pay down overdue bills.

Today Illinois still has a large backlog of unpaid bills, the worst-funded pension systems in the nation, and a multi-billion dollar budget deficit. Additionally, since this tax increase, Illinois' credit rating has been downgraded five times and Illinois now has the worst credit rating of any state in the nation.

Faced with a growing gap between revenue and expenditure growth, our only short-term solution is to reduce spending to a level Illinois' economy can afford. Raising taxes in order to spend more will make the budget problem worse over time, as evidenced by the recent tax increase.

Raising taxes did not work. It did not solve Illinois' problems.

The Government We Can Afford: The Problem

Illinois' Economy Lags the Nation

Turning around Illinois' economy is the best long-term solution for the fiscal condition of our state, allowing businesses to create more jobs for our citizens.

Illinois lags the nation in many economic indicators. Illinois has established a widely accepted reputation as being a poor state in which to do business. Illinois' economy, as measured by Gross State Product, is growing more slowly than other states' and the country's as a whole.

Source: US Department of Commerce

Other states' governors have recruited our businesses to relocate to their states. We are losing the critically important competition for jobs. Domestic migration is a measure of U.S. citizens who move in and out of each state. Illinois has been losing population to other states every year.

Source: US Census Bureau

The Government We Can Afford: The Problem

Illinois' employment growth is anemic and is dramatically worse than many states, including many of our neighboring states.

Illinois' Weak Employment Growth				
	Employment, Nov 1996	Employment, Nov 2014	Job Growth	Total Percentage Growth
Texas	8,389,700	11,737,600	3,347,900	40%
Arizona	1,932,200	2,599,400	667,200	35%
Florida	6,239,100	7,898,500	1,659,400	27%
Georgia	3,584,000	4,166,700	582,700	16%
Iowa	1,392,700	1,558,500	165,800	12%
Kentucky	1,689,400	1,879,100	189,700	11%

Illinois	5,727,000	5,863,200	136,200	2%
Ohio	5,324,800	5,325,300	500	0%
Michigan	4,397,500	4,165,700	-231,800	-5%

Source: Bureau of Labor Statistics

The benefits of job growth are many. Working people with good-paying jobs buy goods and services which helps the economy to grow. They pay taxes, and require fewer services from the government, both of which have a positive impact on the state budget. If actions are not taken to turn around Illinois' economy, make our state more competitive and create more good jobs for our citizens, solving our fiscal problems will be a much more difficult task.

Governor Rauner has a plan to improve the Illinois economy.

Governor Rauner's Comprehensive Reforms to Make Illinois More Compassionate and Competitive

1. Economic Growth and Jobs Package

- Pass a phased-in minimum wage increase of 25 cents every year for seven years.
- Implement true workers' compensation reform legislation that: updates how injuries are apportioned to ensure employers pay for injuries that occur on the job; clarifies the definition of "traveling employees" to ensure a reasonable standard that excludes risks that would impact the general public; and implements American Medical Association guidelines when determining impairment.
- Enact lawsuit reforms to prevent unreasonable trial lawyer venue shopping, address unfair joint and several liability requirements and provide a balanced approach to medical malpractice cases to keep doctors in Illinois.
- Pass a constitutional amendment to cap unreasonable judgments (2018 ballot).
- Make Illinois unemployment insurance fair for beneficiaries and employers, including legislation that cracks down on benefit fraud by those who voluntarily leave employment but receive benefits, and provides a more fair definition of misconduct in the workplace.
- Create a Minority Enterprise Small Business Investment Program to assist minority entrepreneurs in startups throughout Illinois.
- Require unions that contract with the state to have their apprenticeship programs reflect the demographics of Illinois communities, and to have their membership on public construction projects reflect the diversity in the surrounding area.

2. Student and Career Success Package

- Increase state support for preK-12 education, especially for low-income families.
- Expand high-quality early childhood education access and make programs easier to navigate for families.
- Consolidate and refocus all state boards, agencies and programs to manage an integrated comprehensive cradle-to-career statewide system of education and vocational training.
- Launch an effort to increase parent participation in the classroom.
Initiate a statewide task force to analyze the challenges of teenage pregnancy and loss of two-parent families.
- Give local school boards the ability to modify overly burdensome unfunded mandates.
- Lift the arbitrary cap on public charter schools, reduce funding disparities for public charter schools and provide more high-quality educational options to students through tax credit scholarships.
- Reform teacher tenure and incentivize local school districts to reward high-performing administrators and educators.
- Improve teacher recruitment, ensure a diverse educator base and streamline licensure requirements to bring the best and brightest teachers to Illinois.
- Eliminate unnecessary testing and institute a rigorous K-12 student growth measure, using ACT and other national metrics.
- Expand vocational and technical program resources and grow partnerships among employers, high schools and community colleges.

3. Taxpayer Empowerment and Government Reform Package

- Lower income taxes making us more competitive with other states.
- Freeze property taxes for two years by amending Illinois' Property Tax Extension Limitation Law. The total property tax extension could not increase above the 2015 levy year, except for new construction or property in a TIF district. Voters would still be allowed to override the freeze via referendum.
- Modernize the sales tax to include taxes on services that keep us competitive with neighboring states.
- Preserve a fair and flat income tax by protecting low-income families with an increase in the Earned Income Tax Credit, and provide additional exemption relief to working families.
- Restructure the motor fuel tax to appropriately invest in infrastructure.
- Implement true competitive bidding in public works projects, limit prevailing wage requirements and eliminate project-labor agreements.
- Create local employee empowerment zones. Let voters in a county, municipality or other local unit of government decide via referendum whether or not business employees should be forced to join a union or pay dues as a condition of employment.
- Launch a government consolidation and unfunded mandate taskforce chaired by Lt. Governor Sanguinetti to reduce the number of Illinois' more than 7,000 units of government and provide more flexibility to local communities.
- Extend bankruptcy protections to municipalities to help turn around struggling communities.
- Pass a constitutional amendment implementing 8-year term limits for statewide elected officials and members of the General Assembly.
- Protect historically accrued state pension benefits for retirees and current workers, while moving all Tier 1 employees into the Tier 2 pension plan and/or 401(k) for their future work. Police and firefighters should receive separate special consideration.
- Pursue permanent pension relief through a constitutional amendment.
- Codify Executive Order 15-09 prohibiting the revolving door from state government to lobbying, and extend revolving door restrictions to the General Assembly.
- Empower government employees to decide for themselves whether or not to join a union.
- Empower local voters to control collective bargaining issues in their local governments and take more direct responsibility for their employees' benefits.
- Extend the prohibition on political contributions by businesses with state contracts to all organizations with a state collective bargaining agreement, and organizations funded by entities receiving state Medicaid funds.
- Prohibit trial lawyer donations to elected judges to address conflicts of interest in the courts.
- Pass a constitutional amendment to create merit-based judicial selection as supported by the American Bar Association (2018 ballot).
- Reward state workers with performance pay and incentivize employee-inspired cost-saving measures.
- Pass a constitutional amendment merging the offices of the Comptroller and Treasurer, returning \$12 million in annual savings to taxpayers.
- Require more vigorous enforcement of minority contracting guidelines and hiring in state government.
- Pass a binding Balanced Budget Amendment to the Illinois Constitution that prohibits the carry-over of past-due bills (2018 ballot).
- Reform the Criminal Code to ensure sentences are commensurate with the severity of the crime, and reduce penalties for non-violent offenses.
- Launch a bipartisan Criminal Justice Reform Commission with a goal to improve public safety and reduce prison population by 25 percent in 10 years.
- Provide additional investment in community-based re-entry and diversion programs for persons reentering the community from the penal system.
- Hire 473 new correctional officers to improve officer and inmate safety at the Department of Corrections' facilities.

Turning Around Our Pension Burden

To address our enormous pension challenges within the framework of the Illinois Constitution, a major structural change must take place in the pension systems. Governor Rauner proposes several benefit and funding formula changes to turn around our pension debt and payment burdens. His reforms will reduce the State's general funds payments by an estimated \$2.2 billion in FY16 and more than \$100 billion over 30 years.

Reforms to New Benefits

The State currently offers two levels of pension benefits – one plan for those first hired before 2011 and another, more affordable plan for more recent hires. The Governor proposes legislation to put in a “freeze” on the level of benefits that employees hired before 2011 have earned as of July 1, 2015. For work after July 1, 2015, these employees' newly earned benefits will be based on the plan that now applies to employees and officials first hired or elected after 2010. Going forward, benefits will be fair and equal among all employees.

- **Lower COLA:** The key change in newly earned benefits will be moving to a lower cost-of-living adjustment (COLA). COLAs on benefits earned before July 1, 2015 would continue to be paid in retirement at 3 percent a year compounded. COLAs on newly earned benefits would be the lesser of 3 percent or half of inflation, non-compounding, and would begin later.
- **Retirement Age:** Benefits earned before July 1, 2015 could be obtained at the retirement ages now in law, but payment of newly earned benefits could not commence until age 67.
- **Cap on High-Salaried Pensions:** A cap on the final average salary used to calculate benefits will be placed on newly earned benefits. This cap increases annually.
- **End Salary Spiking:** To prevent late-career teacher salary spikes that drive up decades of benefits, the end-of-career salary cap will be changed from the current 6 percent a year to the prior year's increase in the consumer price index. Any pension costs caused by salary increases above inflation will be paid by the local employer.
- **Overtime Pay:** Going forward, overtime pay will not be counted in final average salary. This reform also prevents expensive lifelong benefits triggered by short-term salary spiking.
- **Lower Interest:** Going forward, the effective rate of interest for certain retirement annuity options in the State Universities' Retirement System and the Teachers' Retirement System will be based on U.S. Treasury bank rates.

The Government We Can Afford: The Solution

Optional Defined-Contribution Plan

An optional “buyout” plan will be offered to employees in the retirement systems. The buyout will allow employees who started work before 2011 to voluntarily reduce the COLA on their pension benefits earned before July 1, 2015. In exchange, going forward the employee will be enrolled in a defined-contribution plan (similar to a private-sector 401 (k) plan). This new plan, which is modeled after private-sector benefit changes, will be in addition to employees’ defined benefits earned as of July 1, 2015. Employees will receive a lump sum payment to be used as a starting balance for the defined-contribution plan. There will be an employer match on employees’ contributions to the plan, and employees will be given an array of investment choices.

No Retiree Changes

No changes to benefits will affect current retirees, whose entire benefits already have been earned under current law.

Public Safety Employees

No benefit changes are proposed for police and firefighters, who routinely put themselves in harm’s way to protect our citizens.

Constitutionality

These benefit changes are expected to be upheld as constitutional by the Illinois courts as they do not reduce earned benefits. This approach is different than Senate Bill 1 (P.A. 98-599), which reduces benefits already earned, including earned benefits of retirees. (P.A. 98-599, which was enacted in 2013, is now being challenged in the courts as unconstitutional). If SB1 is upheld by the courts, and Governor Rauner’s proposal is enacted and upheld, both reform plans could take effect in large part simultaneously, boosting savings well above the projections for either plan alone. In the alternative, the General Assembly and Governor may decide to enact a new plan that combines the best reforms in SB1 and this proposal.

A Stronger Funding Formula

To put Illinois on a responsible fiscal path going forward, the Governor proposes strengthening our pension funding formula. The current law requires the retirement systems to have enough money invested by the year 2045 to cover payment of 90 percent of earned benefits. This 90 percent formula is based on a 50-year funding plan that began in 1995. That formula – one of the weakest in the nation – has been the biggest factor in the growth of our unfunded liabilities and pension payments. Governor Rauner proposes changing the funding target to 100 percent of benefits covered by the end of 30 years.

Smoothing Volatility

In recent years, unexpected and large spikes in the State’s payments have been caused by changes in investment earnings assumptions. These changes have been made unilaterally by the retirement systems and have been implemented in their entirety in one year. Under the reform proposal, there would be a five-year smoothing period for contribution variations caused by changes in the investment assumptions set by the retirement systems. This smoothing will spread the impact of changes over several years, allowing stability in budgeting. This comports with general actuarial guidance.

Stop Non-State Retiree Health Insurance Subsidies

Governor Rauner’s proposed fiscal year 2016 budget ends the state’s subsidy of health insurance for retired downstate and suburban teachers, and retired community college staff. These retirees were not state

The Government We Can Afford: The Solution

employees; their retiree insurance should be covered only by retiree premiums and contributions from their employers, and not by the state. This reform saves the State \$125 million in fiscal year 2016. (This \$125 million is not included in the estimate of savings from pension reforms in fiscal year 2016).

Savings

The governor's proposed reforms are conservatively projected to reduce the state's general-funds payments in the next budget year by \$2.2 billion. Over the next 30 years, these reforms will save the State over \$100 billion. In addition, the reforms are projected to immediately reduce the State's unfunded liabilities by \$25 billion, improving our funded ratio.

These reforms will ease the burden on taxpayers, ensure the long-term viability of our retirement systems, and allow the state to provide critical services to our citizens. Reforms also will improve the confidence that businesses have in the future of Illinois and lead to improvements in the state's credit ratings.

Illinois' turnaround depends on the creation of a sustainable pension structure for the future, so that taxpayers, employees, and retirees can all rely on a stable and affordable pension plan. Governor Rauner's proposal will chart a viable future for Illinois' pension systems.

Reducing Government Employee Health Insurance Costs

The state group health insurance program is one of the most expensive programs in the country and is growing at an unsustainable rate.

In order to reduce the costs of the program, significant changes must be made, including a reduction to the overall richness of the benefit and establishment of a more equitable cost-sharing formula. The State would receive significant savings if the overall plan design was modeled after a Healthcare Exchange Bronze Plan. Another option to drive down costs would be to add additional tiers to the program which could better align coverage with premiums paid. The majority of states have four tiers or more. The state currently has three premium tiers for employees: employee, employee plus one dependent, and employee plus two dependents or more. These changes will require negotiation with the unions and are a priority for the administration in fiscal year 2016.

Public universities currently reimburse the state \$45,000,000 annually for employees that are paid from General Funds. That amount has not changed since 1997, despite costs increasing 370 percent. The administration may look to renegotiate that rate. The administration will also conduct an audit of dependents to ensure eligibility compliance. Similar audits have historically resulted in the termination of coverage of 1.5 percent of dependents. This would result in approximately \$8,800,000 in savings annually. Neither of these changes requires union negotiation.

Budget Reform Will Guard Against Future Fiscal Mismanagement

Budget reform legislation

Governor Rauner is proposing legislation that would put Illinois on a path to eliminate its enormous backlog of overdue bills over the next four years. He also wants to create a transparent consensus process for forecasting the state's revenues and spending trends.

With enactment of this legislation and responsible budgets, our goal is that within four years the stack of bills left behind by previous administrations will be paid off. The improvements in forecasts of revenues and spending should lead to state budgets that deliver reliable results and are based on long-term planning.

Paying our bills

Illinois now owes over \$6 billion to:

- Hospitals, doctors and other providers of the health care and critical human services to our residents;
- School districts, colleges and local governments for funding promised by the state; and
- Contractors, vendors and others who have provided services and goods to the state.

The bill backlog has been created in large part by a state law which allows the state to defer payment of some bills for an unlimited number of years. This is akin to buying groceries and then not paying the grocery store for a few years – even though you keep buying groceries every week.

State law now has a number of loopholes that allow deferral of some bills regardless of whether enough cash will be available to pay off the bills in future years, and regardless of whether the Governor and General Assembly have approved sufficient appropriations to cover payment for services provided within each year. In other words, we now can exceed the maximum on our credit card. And there is no minimum payment ever due on our credit card; we can put off paying entire bills for years.

The Government We Can Afford: The Solution

We also are using a credit card with a high-interest rate – 12 percent per year. That may seem like a good rate for a family, but it is high for a big business like the state. This 12 percent rate needs to be lowered to match changes in our economy, as reflected in interest rates on U.S. Treasury bonds.

To address these issues, the Governor’s proposed legislation will:

- Gradually eliminate the ability of state agencies to defer payment of bills to future years;
- By four years from now, pay all bills within 30 days of the state agencies’ approval of those bills; and
- Lower the interest rate on overdue bills to a rate equal to five-year U.S. Treasury bonds plus one full percentage point. As of late January, that translated to a new Prompt Payment Act interest rate of 2.35 percent. Last year, the state paid over \$50 million in interest at the 12% annual rate; a rate based on Treasury bonds would’ve saved the state tens of millions of dollars.

The state also pays high interest through insurance contracts with providers. These interest payments also need to be reduced.

Consensus forecasting

Illinois should create a transparent consensus process for forecasting the state’s revenues and spending trends. This best practice is recommended by national experts and is followed by almost half the states in our nation – but not Illinois.

Consensus among the Governor and Illinois legislators on these revenue and spending forecasts will help bring our divided government together. It also will allow policy makers to focus on what is best for our citizens, instead of arguing over how much revenue is available to be spent, and risking inaccurate revenue and spending projections. Governor Rauner’s proposed legislation will require the Governor and other leaders to reach an agreement (consensus) on how much revenue they project for the state in the next budget year. They will also be required to make longer term projections of revenues, all with the help of experts in Illinois.

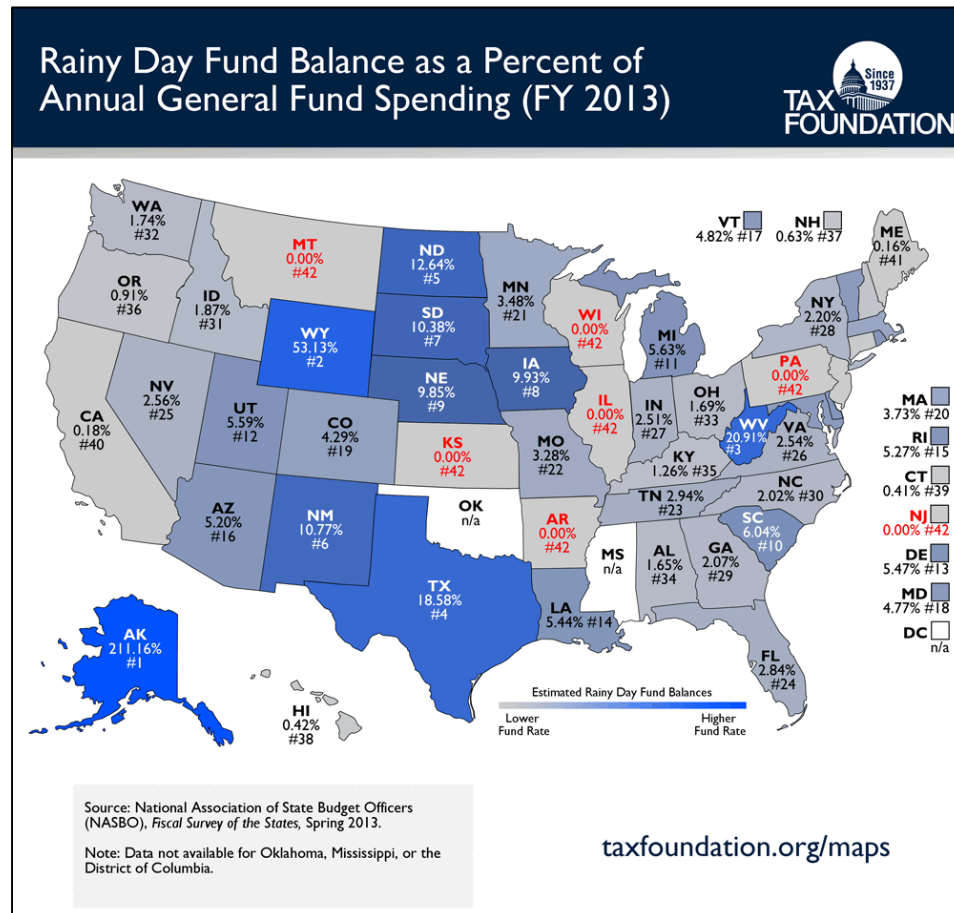

The best models in the nation also mandate transparency in forecasting, which is included in Governor Rauner’s proposed legislation. This transparency includes public hearings, comments and online posting of proposed and final forecasts.

In addition to consensus revenue forecasting, the legislation will require that common ground be reached on spending projections. The spending trends will include consensus on key data such as demands for Medicaid, caseloads for state services, needs at the Department of Corrections, demands for day care subsidies, and pension payment levels.

The Government We Can Afford: The Solution

Building towards a “rainy day” fund

Solid forecasts will serve as a foundation for the state to build a true “rainy day” fund that can be tapped when projected revenues fall short during a fiscal year due to unexpected changes in the economy. Our current “budget stabilization” fund has had less than \$300 million in it for many years, putting Illinois in the bottom tier of all states’ rainy day funds, as measured as a percent of general spending.

We Cannot Manage What We Cannot Measure

Priority-based and Performance-driven budgeting

The recommended budget includes a priority-based budget review and provides performance measures for core programs.

The governor’s spending proposals focus on funding agencies’ core missions. Programs have been prioritized across the entire budget—not just within agencies. The budget has been reviewed from the bottom up. Programs that rely on special funds were scrutinized in the same way as programs funded by the general revenue fund.

In addition, the governor’s budget gives agencies more flexibility to manage their programs than ever before, allowing them to manage toward highest priorities. Budget flexibility also gives agencies the ability to manage for outcomes.

The Government We Can Afford: The Solution

As a result, many programs that have been funded in the past are not recommended for funding in this budget. Other programs are being reduced. The following pages describe the priorities that are being funded in the budget, and the rationale for those programs that are not.

Budgeting for Results

In fiscal year 2016, Governor Rauner will continue the commitment to a results-based and data-driven budget through the Budgeting for Results (BFR) process. BFR is about shifting the focus from simply how much money we spend to the results we achieve for the money we spend. Rather than traditional budget line items, state spending is now classified into seven Statewide Results Areas and nine Statewide Outcome Areas to help state taxpayers see exactly where their money is going. The Statewide Results and Outcome areas serve as a guide for what each agency program should be working to achieve. It is against these Statewide Results and Outcome Areas that each program's performance is measured.

For this budget, state agencies identified their core services and programs and appropriated dollars associated with each. In addition, each agency program has a key performance metric. These metrics will help decision makers determine if the programs are on track to achieve the intended results for the people of Illinois. GOMB, in conjunction with state agencies, worked to develop key performance metrics for each agency program. The key measures are collected on an annual or quarterly basis. The data are utilized to provide information and context during the budget development process. Additionally, the data will be used to guide budget implementation and management decisions throughout the fiscal year.

Budgeting for Results is an ongoing and integral part of the budget process. GOMB and the Governor's Office continue to work to improve the quality of our program performance measures and our data collection system. Continued progress will ensure that future resource allocation and management decisions will be made with the best available data.

Grant Accountability and Transparency Act

The Grant Accountability and Transparency Act's (GATA) was passed in 2014. Its objective is to optimize the administration and monitoring of the state's grant funds, both federal- and state-funded, to improve performance outcomes by applying efficient and effective processes throughout the entire grant life cycle. Implementation of GATA will enhance the accountability and transparency of grant funds, which are approximately 66 percent of the state's annual budget. Both the state and its grantees will benefit from this grant accountability reform initiative that is administered GOMB.

The goals for GATA are to:

- Improve grant performance and outcomes while ensuring transparency and the financial integrity of taxpayer dollars;
- Improve controls to reduce the risk of fraud, waste and abuse;
- Reduce the administrative burden on state grant-making agencies and the grantees by eliminating redundancies, streamlining grant requirements and maximizing resources;
- Create uniform templates for grants, preparation of budgets and financial reporting; and
- Create a public Catalog of State Financial Assistance, listing objectives and goals, eligibility requirements, required audits, financial and performance reports, and other grant-related information.

GOMB will work with the Legislature during the budget process to fund GATA for fiscal year 2016.

Closing the Gap

Governor Rauner's Budget Proposes \$6.6 Billion in Budget Reductions

Governor Rauner's proposed budget closes a \$6.6 billion budget gap by reforming government employee costs, reducing subsidies to other government entities that have significant additional funding sources, and, to the greatest extent possible, enhancing operational efficiencies. Reductions in services make up only 11.5 percent of proposed reductions.

The Government We Can Afford: The Solution

Budget Development Priorities

A Priority-Based Budget

The governor's spending plan is based on a principled review of state programs and services. Working with state agencies to prioritize across government, decisions were made not to fund everything we would like but rather what we can afford. The principles that guided the review correspond to the Governor's priorities, first and foremost that taxpayers' hard earned dollars are our top priority.

Use of taxpayer dollars should:

- Protect our children
- Serve those most in need
- Provide compassionate care through community-based services
- Invest in our future workforce via pre-K-12, education and community colleges
- Reform our criminal justice system
- Focus on programs that serve the entire state

Protect our children

The budget increases funding for early childhood and pre-K-12 education and leaves intact health and human services programs for children, including children of immigrants. Foster care services for children are not reduced. Child care dollars will prioritize serving the youngest children to prepare them for school.

Serve those most in need

Programs that serve our aging or disabled populations will focus on those with higher needs, rather than those most able to care for themselves.

Provide compassionate care through community-based services

Aging, mental health developmental disability services are most compassionately provided through community-based care, rather than institutionalized care.

Invest in our future workforce via Pre-K-12 education and community colleges

This budget increases funding for K-12 education and does not reduce funding for community colleges. Subsidies to universities are reduced, as they have numerous other funding sources.

Reform our criminal justice system

The governor's budget increases corrections and juvenile justice budgets in order to facilitate his newly created Illinois Commission on Criminal Justice and Sentencing Reform.

Focus on programs that serve the entire state

Public health and state police laboratories, licensing and permitting functions, inspections and statewide road maintenance were prioritized over services to specific populations.

Budget Solutions by Agency

Human Services

Department on Aging

The Department on Aging serves persons age 55 and older in Illinois. Its primary program, the Community Care Program (CCP), provides home care services to assist low-income persons age 60 and older, allowing them to continue living in their homes. The program also provides other federally-funded services, such as nutritional assistance. The Department's Long-Term Care Ombudsman and Adult Protective Services protects seniors and the disabled by investigating reports of fraud and abuse.

The department's fiscal year 2016 recommended budget is \$1,043,163,800. The challenge for the department is to provide services for an expanding population of seniors. The percentage of Illinoisans 55 years of age and older has grown from 17.4 percent in the 2010 census to a projected 18.9 percent in 2015, and it is projected to increase to 20.8 percent in 2020. Because program costs grow as the size of the core population grows, it is necessary to focus on those seniors in greatest need of assistance.

This budget focuses on senior health and safety, increasing the funding for the Nutritional Services and Long-Term Care Ombudsman programs, and maintaining the Adult Protective Services and Senior Helpline initiatives. Altogether, funding for these programs will increase from \$101.4 million to \$107.5 million, an increase of \$6.1 million.

The fiscal year 2016 recommended budget reflects the general policy among human service agencies to shift people where possible, from state assistance to the healthcare exchange created by the federal Affordable Care Act (ACA). For some time, and prior to the ACA, the department has had an add-on in the rate it pays CCP service providers to help them pay for the healthcare of their employees. Now that these workers may be shifted over to the exchange where they can purchase federally-subsidized healthcare plans, the department will no longer be paying this enhanced rate. This change will save the department nearly \$41 million.

In order to direct its scarce resources to those with the greatest physical and financial needs, the CCP will establish an income cap on eligibility. The department will also raise the threshold of need for eligibility to ensure that dollars can be focused on those at greatest risk for nursing home admission. Finally, the average services to those in the CCP will be reduced by 1 hour per week. Altogether, these changes will save an additional \$129.4 million.

Making these changes will allow the agency to serve a growing population of low-income seniors more efficiently, at a slightly lower funding level in fiscal year 2016 as in the prior fiscal year.

Department of Children and Family Services

The Department of Children and Family Services (DCFS) has the primary responsibility of protecting children and strengthening families through the investigation of, and intervention in, suspected child abuse or neglect by parents and other caregivers. Annually, the department responds to over 100,000 reports of suspected or alleged abuse and neglect.

The department's fiscal year 2016 recommended budget is \$1,033,780,800. Over \$418.8 million has been allocated to continue to support family reunifications and substitute care to protect our most vulnerable citizens – our children.

When children must be removed from the home and reunification is not an option, DCFS and its nonprofit partners are committed to promoting adoption by loving families to provide children with the permanent, safe and nurturing home they need and deserve. The department's priority is to keep these children in safe homes.

The Government We Can Afford: The Solution

To meet this priority, the fiscal year 2016 recommended budget includes over \$176 million supporting Adoption and Guardianship services.

The department must focus on the priority of protecting children and ensuring they have a safe place to live, which now that DCFS can no longer afford to continue offering services to young adults, age 18 to 21, who are aging out of the foster care system. Therefore, in order to restructure the state's limited resources to core priorities and provide funding for an overall budget that the state can afford, the department will discontinue services for former foster care adults who were formerly under DCFS care as children, and find other efficiencies in administrative costs, for a total of \$167.1 million in savings.

Department of Human Services

The Department of Human Services (DHS) provides health and social services to help Illinois' families achieve self-sufficiency, or a maximum degree of independence. The majority of DHS' services are provided through a community-based delivery system featuring one-stop intake, assessment and case management, to simplify the system and improve client outcomes.

DHS' fiscal year 2016 recommended budget is \$6,010,947,000. This budget focuses on the agency's core services by investing an additional \$29 million in community residential settings for individuals with developmental disabilities; provides adequate funding for childcare and properly managing the accelerating costs of that care; invests nearly \$5 million in Juvenile Redeploy, and raises the threshold of need for eligibility in the Home Services Program to ensure that dollars can be focused on those at greatest risk for nursing home admissions.

The agency also will be given more flexibility to run its programs and focus on funding those with the best demonstrated results. This will result in savings across several programs, including Substance Abuse, Mental Health programs for higher income clients, reimbursement rates for Intermediate Care Facilities for persons not yet in community settings, and reassessment of eligibility criteria for Early Intervention services. Finally, the Department will focus on moving care out of state institutions and into the community. These changes will save over \$200 million.

Department of Public Health

The Department of Public Health (DPH) promotes and protects the health of Illinoisans through the prevention and control of disease and injury. General health and sanitation conditions in Illinois are monitored and controlled by the department's standards and regulations. DPH provides grants to local health departments in order to ensure the availability of basic preventive health care statewide and to reduce health disparities that exist within minority and rural populations. DPH also licenses and inspects the state's nursing homes, assisted living facilities, shared housing and hospitals, to reduce environmental hazards and conditions that cause illness or injury and to ensure quality care in these facilities.

DPH's fiscal year 2016 recommended budget is \$584,460,900. This budget supports DPH's core mission by maintaining \$17.1 million in funding to local health departments to conduct health inspections. The budget also includes an additional \$3.6 million to add approximately 50 nursing home surveyor staff to improve the safety of nursing homes throughout Illinois. The department will also recognize savings of \$15.8 million through the Affordable Care Act (ACA), by moving clients in the AIDS Drug Assistance Program and the Breast and Cervical Cancer Screening Program from state-funded programs to the ACA exchange.

HEALTHCARE

Department of Healthcare and Family Services

The Department of Healthcare and Family Services (HFS) administers two programs to assist Illinoisans: the Medicaid program and the Child Support Enforcement program. HFS' fiscal year 2016 recommended budget is \$19,196,572,400.

The Medicaid program must concentrate on its core mission: providing healthcare coverage to those at the lowest levels of income. The core populations to be served are adults in households making less than 133 percent of the Federal Poverty Level (FPL) (\$31,720 for a family of four in Illinois), children in households making 300 percent or less FPL, and seniors and those with total disability whose incomes are at or below the poverty level. In Illinois this amounts to nearly 3.5 million citizens, one million more than ten years ago. The fiscal year 2016 budget recommends nearly \$19 billion for Medicaid.

In order to maintain a commitment to service for such a growing population, HFS must concentrate the resources of the state on those eligible for assistance, and control the costs for providing care. As a result, nearly \$1.5 billion in program savings and efficiencies were factored into this budget.

To ensure that only those who are eligible for state assistance receive Medicaid services, HFS will reinstate aggressive review of all those on the Medicaid rolls. Currently, there are more than 250,000 people receiving Medicaid services whose eligibility has not been reviewed. Increasing the integrity of the Medicaid system will ensure that money goes only to care for those who qualify for help, and will free up dollars to help those most in need. New and aggressive techniques will also be used to detect and prevent fraudulent and abusive billing practices by providers. Combined, the department estimates that these actions will save or avoid nearly \$75 million in abuse and waste.

This budget will recognize over \$41 million in savings by moving people off of medical assistance from the state and onto the healthcare exchange established by the Affordable Care Act. Federal subsidies to purchase insurance will be available to those who are of lower income.

This budget addresses spending on many services for adults that are not mandatory to the Medicaid program, such as dental care and podiatry. These services will be reduced or discontinued in the fiscal year 2016 recommended budget so that core medical services for the Medicaid population can be adequately funded.

Several years ago, with the SMART Act, the Medicaid program underwent significant reforms that saved \$1 billion in costs. Unfortunately, since that time many of these reforms have been eroded by rate increases and other add-ons to the program. All increases to rates and services that have been added since the time of those reforms will be discontinued, saving \$320 million.

Many hospitals receive, from state general funds, certain reimbursements that are not based on direct care but rather are at levels fixed by statute or administrative rule. These reimbursements will be discontinued, and a certain amount of funds generated by the special assessment on hospitals will be repurposed to pay for general Medicaid services. Hospitals will still be receiving \$5.6 billion in direct funding in this budget.

Finally, HFS will continue to move clients to managed care, saving overall costs, with a target of having 60 percent of the Medicaid population enrolled in managed care by the end of calendar year 2015.

PUBLIC SAFETY

Public safety is a core mission of state government. The safety of our citizens is of the utmost importance. Beyond protecting the public, we are committed to reforming the criminal justice system to reduce recidivism, keeping at-risk youth out of the correctional system and helping those who have been released from prison to receive the services and support they need to succeed as employed, law-abiding citizens.

Department of Corrections

The mission of the Department of Corrections (DOC) is to protect public safety. DOC accomplishes this goal by segregating offenders from society, assuring their constitutional rights are protected and supporting their successful rehabilitation and reintegration into society to reduce recidivism. DOC also works to ensure the safety and security of staff and offenders.

DOC's fiscal year 2016 recommended budget is \$1,479,377,200. DOC's focus in fiscal year 2016 is to increase its correctional officer staffing levels by 473 positions in order to improve the safety of our correctional officers as well as inmates. This will also achieve overtime savings, which impacts pension costs. This initiative will save the department approximately \$10 million in general revenue salary costs when compared to DOC's fiscal year 2016 maintenance budget. DOC proposes to devote an additional \$8.3 million in general revenue, when compared to fiscal year 2015 levels, to implement the Risk, Assets, and Needs Assessment (RANA) tool to help correctional facilities identify inmate needs and evaluate their public safety risk. The department's general revenue budget also dedicates an additional \$58.5 million to improving the mental health care of inmates, in order to help inmates overcome their challenges and to comply with court mandates.

To achieve reasonable long-term criminal justice reform, Governor Rauner has proposed launching a bipartisan criminal justice reform commission with a goal of improving public safety and reducing the prison population by 25 percent in 10 years. By providing better outcomes for those convicted of crimes, these reforms will improve public safety and lower the costs at DOC. The reforms will allow the department to better prepare the remaining inmate population to successfully re-enter their communities and not re-offend, thereby enhancing the public safety for our citizens. Appropriations for the Adult Redeploy program, funded in the Criminal Justice Information Authority's budget, will increase to \$10.75 million in general funds, an increase of 53% from fiscal year 2015.

The fiscal year 2016 recommended budget aims at achieving approximately \$32.4 million in general fund savings from the DOC fiscal year 2016 maintenance budget through increased efficiencies, reduced salary costs due to overtime reduction, lower incoming inmate and offender populations due to successful diversion programs such as Adult Redeploy and other cost-saving measures which will lower DOC's general fund need.

Department of State Police

The Department of State Police (DSP) is a full-service police department dedicated to protecting Illinois residents by patrolling Illinois roadways, providing forensic analysis and police services to local law enforcement statewide, investigating homicides, seizing illegal drugs, responding to emergencies and maintaining law enforcement information technology systems used by the criminal justice community. The department has approximately 1,800 sworn officers and 1,050 civilian employees.

The department's fiscal year 2016 recommended budget is \$428,328,600. To improve the department's forensic services, the fiscal year 2016 recommended budget provides an additional \$2.3 million in general revenue funding for updated equipment at its forensic labs. The fiscal year 2016 recommended budget also provides \$2 million in other state funding to establish the Office of the Statewide 911 Administrator, to better coordinate 911 systems throughout the state.

The Government We Can Afford: The Solution

In order to focus the state's limited resources on core priorities and provide funding for an overall budget that the state can afford, the fiscal year 2016 recommended budget does not provide funding for new cadet classes. The discontinuation of funding for cadet classes for the remainder of fiscal year 2015 and in fiscal year 2016 will result in \$9.2 million general fund savings.

Illinois Criminal Justice Information Authority

The Illinois Criminal Justice Information Authority (ICJIA) brings together key leaders from the justice system and the public to identify critical issues facing the criminal justice system in Illinois, and to evaluate and propose policies, programs and legislation to improve public safety.

ICJIA's fiscal year 2016 recommended budget is \$102,857,200. ICJIA's flagship program, Adult Redeploy, diverts non-violent offenders from state correctional facilities by providing services in community-based settings. Grants are provided to counties and judicial circuits to increase programming in their areas, which will reduce the number of people those judicial circuits and counties would have sent to the Illinois Department of Corrections. The fiscal year 2016 recommended budget includes \$10.75 million for Adult Redeploy to improve public safety by creating better outcomes for offenders and reduces costs by reducing recidivism. This is 53 percent increase over the fiscal year 2015 appropriation will expand this program to more communities.

Support for Operation CeaseFire has been reduced to \$1.9 million in general revenue funds from \$4.7 million in fiscal year 2015. General Revenue Fund legislative earmarks to bullying prevention, the South Suburban Major Crimes Task Force and the Franklin County meth pilot program were discontinued in the fiscal year 2016 recommended budget. These reductions and discontinuations were made in order to restructure the state's limited resources to core priorities and to provide funding for an overall budget that the state can afford.

Prisoner Review Board

The Prisoner Review Board (PRB) imposes release conditions for adult offenders exiting correctional facilities, revokes and restores good conduct credits and conducts parole violation hearings. The PRB notifies victims and their families when an inmate is about to be released from custody. The board also makes confidential recommendations to the governor relative to executive clemency petitions.

PRB's fiscal year 2016 recommended budget is \$3,250,000. The fiscal year 2016 recommended budget includes an additional \$1.5 million in general revenue funding when compared to the FY15 appropriation level to improve the juvenile parole process. These funds will be used to provide legal representation to youth in parole revocation hearings to ensure they receive a fair hearing. In addition, PRB will provide enhanced preliminary and final revocation hearings for youth who are to be released from a juvenile facility or who violate the terms of their aftercare.

Department of Juvenile Justice

The mission of the Department of Juvenile Justice (DJJ) is to enhance public safety and positive youth outcomes by providing strength-based individualized services to youth in a safe learning and treatment environment so that they may successfully reintegrate into their communities and become productive citizens.

DJJ's fiscal year 2016 recommended budget is \$151,149,700. The fiscal year 2016 recommended budget increases funding to DJJ by nearly \$14.7 million in general funds from the fiscal year 2015 maintenance budget. DJJ is pursuing reforms which will reduce recidivism and the total population in DJJ facilities. This "right-sizing" will allow the department to focus on services that meet the needs of youth offenders in small population settings, thus easing their eventual transition to their communities. The department is increasing security staffing levels, enhancing education programming and increasing mental health services. Education staffing increases for both general and special education populations include 43 educators and special

The Government We Can Afford: The Solution

educators, 7 vocational instructors, 9 school counselors, and a school psychologist. In addition, revisions of policies and procedures, enhanced training and enhanced oversight of the youth offender population allow for increased safety and welfare.

As of January 1, 2014, DJJ received authority to implement Aftercare services as a statewide program and has worked to replace Illinois Department of Corrections adult parole officers with Aftercare Specialists, whose role begins at the time of commitment until the youth is discharged from Aftercare. This youth-focused intervention programming provides rehabilitation and therapeutic services that provide youth offenders with community supervision to increase public safety through better outcomes. To increase the effectiveness of this program, the fiscal year 2016 recommended general revenue funds budget provides for an additional \$3.1 million investment in Aftercare compared to fiscal year 2015.

DJJ will establish the Office of the Independent Ombudsman for the purpose of investigating complaints, evaluating policies and procedures, and securing the rights of the youth committed to the department, including youth released on Aftercare before final discharge. The Ombudsman serves as an independent auditor to review and monitor DJJ operations and compliance with statute and policies, reporting its activities annually and making recommendations for improvements. In addition, the Ombudsman works to be an advocate for the rights of youth offenders. The fiscal year 2016 budget recommends \$300,000 to the Ombudsman's office to achieve these purposes.

Department of Military Affairs

The Department of Military Affairs (DMA) is responsible for the operations and oversight of all matters relating to the Illinois National Guard, a joint Army and Air Force organization with approximately 13,000 members.

DMA's fiscal year 2016 recommended budget is \$58,301,200. To meet our commitment to keeping youth out of prisons and on the path to education and employment success, the fiscal year 2016 recommended budget includes \$12.6 million in funding for Lincoln's Challenge Academy, a youth intervention program designed to improve the life-coping skills and future employability of teenage high school dropouts through participation in a life skills program based upon a military training model.

The Government We Can Afford: The Solution

ENVIRONMENT AND CULTURE

Department of Natural Resources

The Department of Natural Resources (DNR) manages, conserves and protects Illinois' natural, recreational and cultural resources, including the state's parks and wildlife areas. DNR also educates our citizens about conservation, regulates the mining industry and enforces laws as they pertain to our lands and resources.

The fiscal year 2016 recommended budget for DNR is \$242,841,600. Funding in this budget allows for state parks and campgrounds to remain open and keeps hunting and fishing licensing fees at the same price.

State museums' operations are reduced in general funds by \$1 million from DNR's fiscal year 2016 maintenance budget. The museums will remain open and accessible and continue to be admission-free.

Additional items were reduced from DNR's fiscal year 2016 maintenance budget in order to restructure the state's limited resources to core priorities and to provide funding for an overall budget that the state can afford. Forestry grants which serve as a cost-share assistance to implement forest stewardship were reduced by \$2.1 million and conservation police funding was reduced by \$3 million. DNR's operations were reduced by \$8.6 million and most of this savings will be achieved by managing staffing levels.

Historic Preservation Agency

The Historic Preservation Agency (HPA) currently manages the state's historic sites, such as Lincoln's Tomb, the Old State Capitol, Cahokia Mounds and the Abraham Lincoln Presidential Library Museum (ALPLM). Except for the ALPLM, management of these sites will be transferred to the Department of Commerce and Economic Opportunity (DCEO) in the fiscal year 2016 recommended budget. These programs will be administered by DCEO's Illinois Tourism Office.

Transferring the historic sites to DCEO will save \$5.7 million from HPA's FY16 maintenance request.

The fiscal year 2016 recommended budget is \$15,175,000 for the ALPLM to operate as an independent agency. While this is a \$425,000 increase from their fiscal year 2015 appropriation, other fund sources allow the general revenue fund transfer into the Presidential Library and Museum Operating Fund to be \$2 million less in fiscal year 2016.

ECONOMIC DEVELOPMENT

Maintaining a competitive and diverse economy requires Illinois to invest in its infrastructure, programs to support businesses and communities and initiatives to provide a well-trained workforce. Each day Illinois competes against other states and countries to attract, retain and grow businesses. This competition extends to other areas such as attracting business and leisure travelers, and television and feature film productions. The state's success is also dependent on how well it collaborates with its economic development partners on other drivers of economic growth, including job training, technology and innovation, access to capital and improving the state's infrastructure. The recommended fiscal year 2016 budget includes funding to core economic development priorities and infrastructure needs to improve Illinois' competitiveness at the regional, national and international levels.

The Government We Can Afford: The Solution

Department of Commerce and Economic Opportunity

The Department of Commerce and Economic Opportunity (DCEO) works with businesses, local governments and community organizations to advance economic development and improve the state's competitiveness in the global economy.

The fiscal year 2016 recommended budget for DCEO, \$1,191,691,800, funds these core economic development drivers to improve the state's economic growth. The recommended General Revenue Fund (GRF) budget includes \$19.5 million in grant funding to provide critical assistance to small businesses, business attraction and retention, job training, key innovation-driven activities and resources for startups and high-growth companies.

A total of \$77.6 million is recommended for the Tourism Promotion Fund (TPF) to promote Illinois to domestic and international visitors, support state tourism attractions, partner with local tourism bureaus and respond to customer inquiries. In addition, \$1.3 million is included for the Illinois Film Office to continue to attract television and feature film productions. The fiscal year 2016 recommended budget proposes merging the Local Tourism Fund, International Tourism Fund, and the Chicago Travel Industry Promotion Fund (Metropolitan Pier and Exposition Authority) into the Tourism Promotion Fund (TPF) to reduce the number of state funds. The TPF budget also includes funds for the operation of the state's historic sites that will be transferred to DCEO from the Historic Preservation Agency.

The recommended budget for federal funds is just over \$1.0 billion or 87 percent of the Department's total operational budget. Amounts for federally-funded programs include \$330.0 million for the Low-Income Home Energy Assistance Program (LIHEAP), \$260.0 million for water and sewer infrastructure projects, \$275.0 million for job training and workforce development initiatives, \$40.0 million for small business loan and investment programs and \$16.8 million for small business assistance.

In order to restructure the state's limited resources to core priorities and to provide funding for an overall budget that the state can afford, the fiscal year 2016 recommended budget discontinues funding from the fiscal year 2016 maintenance request: the Office of Coal Marketing and Development and its programs (\$25 million); the state add-on to the federal LIHEAP (\$165 million); the Energy Efficiency Portfolio Standards Program (\$100 million); the Renewable Energy Program (\$10 million); the Summer Youth Jobs Program (\$10 million); and the Eliminate the Digital Divide Program (\$5 million).

Illinois Department of Transportation

The Illinois Department of Transportation (IDOT) is an economic engine for the state, investing billions of dollars to build, support and maintain modern and efficient roadways, railways, airports and transit systems. The agency's mission is to provide safe and cost-effective transportation options throughout the state.

Illinois is located at the center of the U.S. interstate highway system with three coast-to-coast interstates (I-70, I-80 and I-90) passing through the state. In all, 2,169 miles of highway serve Illinois, ranking Illinois third in the nation in total interstate miles. The Illinois interstate system is part of a nearly 16,000-mile state highway system that makes interstate routes easily accessible to every region. Illinois also benefits from major interstate-to-interstate interchanges distributed statewide.

The main focus of the state's capital funding resources is to keep our current public transportation infrastructure in good repair, with system modernization and expansion funded when appropriate. Infrastructure projects address statewide capital needs and include constructing or expanding transit facilities, replacing buses and passenger rail cars that have exceeded their useful lives, replacing maintenance equipment, reconstructing rail track and improving stations, as well as upgrading security and communications systems.

The Government We Can Afford: The Solution

The Illinois aviation system consists of more than 830 landing facilities. These facilities include commercial service airports, reliever airports, general aviation airports, private restricted landing areas and hospital heliports. Funding and technical assistance for the state's system of public airports is provided through the Federal Aviation Administration Airport Improvement Program (AIP), as well as a State/Local program.

IDOT's fiscal year 2016 recommended budget is \$2,570,366,800. Recognizing the key roles that transportation plays in economic development, the administration works closely with IDOT to select key transportation projects throughout the state that help improve safety, enhance mobility, preserve the intermodal infrastructure and make the best use of available state funds while leveraging federal and private funds to the best advantage for all of Illinois. Due to operational efficiencies taken in budgeting for the fiscal year 2016 recommended budget, the annual road construction element supported by the road and state construction fund is \$1.85 billion, over a \$120 million increase from fiscal year 2015. This increase is an important first step in addressing the long-term quality of the statewide road and bridge system.

The department is also continuing its support for safety for all modes of its transportation system. The establishment of a Safety Oversight Agency ensures transit commuters in Northeastern and Southwest Illinois are delivered the best possible product possible. The Highway, Motor Carrier, Cycle Rider Training and Alcohol Safety programs already in place will help to ensure that fiscal year 2016 will see traffic-related deaths continue to fall.

The fiscal year 2016 recommended budget discontinues non-core programs that benefit only select areas. Operating subsidies and programs for specific local transit systems have been modified to be more affordable and sustainable, while continuing to deliver transportation services to commuters. These subsidies and programs include the County Engineer Compensation Program (\$3.6 million Road Fund), the reduced fare subsidy for PACE Paratransit (\$8.5 million all funds), the subsidy for Regional Transportation Authority (\$17.6 million Road Fund) and the I-FLY grant (\$1.5 million in other state funds).

The fiscal year 2016 recommended budget also includes a \$20 million reduction in Road Fund support to AMTRAK. This will reduce the operating subsidy back to the fiscal year 2013 level, from \$46 million to \$26 million. Matching rates to the Regional Transportation Authority (RTA) and downstate public transit systems will also be reduced. The general funds matching rate to the RTA is being reduced to 20 percent of the local tax. This is a 4.4% reduction from the RTA's estimated revenues for 2015 and an estimated \$127 million state savings in the general revenue fund for fiscal year 2016. At the same time, the State of Illinois will continue to provide the full \$131 million of support for the RTA's Strategic Capital Improvement Bonds. The fiscal year 2016 recommendation lowers the match rate for subsidies to downstate public transit systems, but by covering 55 percent of their overall expenses, the state will still be the primary funder. This achieves an estimated \$75 million in general revenue fund savings from fiscal year 2016 maintenance.

Department of Agriculture

The Illinois Department of Agriculture protects and promotes the state's agricultural and natural resources through services that benefit consumers, farmers and agribusinesses.

The fiscal year 2016 recommended budget for the department is \$97,709,600. The department's inspectors will continue to ensure that consumers receive wholesome, properly identified meat and poultry products by inspecting slaughter and processing facilities throughout the state. Weights & Measures, which tests commercial weighing and measuring devices such as gasoline pumps and grain moisture meters, is fully funded for fiscal year 2016. In addition, Animal Industries will continue to help prevent the spread of animal diseases among swine, cattle, horses and poultry.

The Illinois State Fairs, both Springfield and DuQuoin, have a recommended fiscal year 2016 funding level of \$9.2 million. The Illinois State Fair in Springfield attracted 847,000 attendees in 2014. The DuQuoin State Fair attracted 340,000 attendees in 2014.

The Government We Can Afford: The Solution

The fiscal year 2016 recommended budget reduces or discontinues programs from the department's fiscal year 2016 maintenance budget in order to restructure the state's limited resources to core priorities and provide funding for an overall budget that the state can afford. These reductions include decreasing state subsidies for horse racing purses at all six race tracks, which will save \$2.8 million in other state funds, discontinuing funding for the Forever Green program by \$1.7 million in General Revenue Fund and decreasing funding for the Cooperative Extension Service programs by \$2.7 million. Although reductions are being made for the Cooperative Extension Service programs, which partially fund agricultural classes at the University of Illinois, the program will continue to function.

GOVERNMENT SERVICES

Department of Central Management Services

The mission of the Department of Central Management Services (CMS) is to centralize common business and back office functions of state agencies and governmental entities to allow them to focus their resources on accomplishing their core missions. CMS delivers essential services by centralizing common functions, capitalizing on economies of scale and scope, and leveraging subject matter expertise to provide common administrative services for its customers.

CMS' fiscal year 2016 recommended budget is \$4,532,057,600, which funds four key areas: personnel-related functions including benefits; technology including communications and shared-information technology (IT) infrastructure; facilities and vehicle management; and strategic sourcing including the Business Enterprise Program.

The fiscal year 2016 budget recommends \$315,048,400 for the department's Bureau of Communications and Computer Services (BCCS). BCCS' IT unit plans, procures, installs, manages and maintains a significant portion of the state's IT infrastructure and computing environment; operates the primary and backup data centers; provides desktop support to 40,875 users; and manages the state email system and helpdesk.

The recommended budget for BCCS also includes communication and broadband services, including the Illinois Century Network. These services are provided by BCCS to all state government agencies, boards, commissions, the General Assembly and state-supported institutions of higher education. BCCS plans, procures, installs, manages and maintains the state's voice, data, wireless, video and Internet services, including the operation of the data and video networks. This includes operating the Illinois Century Network, which provides Internet access to approximately 6,000 schools, libraries and communities across the state in addition to all state agencies, boards and commissions. In the fiscal year 2016 recommended budget, the state will discontinue provision of basic Internet service free of charge. BCCS is also working to migrate leased phone lines to the State's owned Voice over Internet Protocol phone system to provide advanced phone services and substantial savings to the state.

The fiscal year 2016 budget recommends \$3.8 billion for the Bureau of Benefits, which manages the state employee group health and life insurance program as provided pursuant to the State Employees Group Insurance Act. This program provides coverage to approximately 362,000 employees, retirees, and the dependents of each. Since February 2014, CMS has transitioned over 100,000 retirees to Medicare Advantage health plans resulting in an estimated net savings to the state of \$200 million per year. The fiscal year 2016 recommended budget for the Bureau of Benefits saves approximately 27 percent from the previous year.

The state group health insurance program is one of the most expensive programs in the country and is growing at an unsustainable rate. The total cost of the program has more than doubled in the past 15 years and the per employee premium cost is currently 23 percent higher than the national average. Of the states bordering Illinois, only Wisconsin has a more expensive program per employee.

The Government We Can Afford: The Solution

In order to reduce the costs of the program, significant changes must be made, including reduction to the overall richness of the benefit and establishment of a more equitable cost-sharing formula. The state would receive significant savings if the overall plan design were modeled after a Healthcare Exchange Bronze Plan. The state currently has three premium tiers for employees: employee, employee plus one dependent, and employee plus two dependents or more. Another option to drive down costs would be to add additional tiers to the program which aligns coverage with premiums paid. The majority of states have four tiers or more. These changes will require negotiations with the unions and are a priority for the administration in fiscal year 2016.

Public universities currently reimburse the state \$45 million for university employees who are paid from General Funds. That amount has not changed since 1997, despite costs increasing 370 percent. The administration may look to negotiate that rate and will also conduct an audit of dependents to ensure eligibility compliance. Similar audits have historically resulted in the removal of 1.5 percent of dependents, which would result in approximately \$8.8 million in annual savings. Neither of these changes require union negotiation.

Department of Revenue

The Department of Revenue (DOR) serves as the tax collection agency for the state and almost 7,000 local governments, collecting more than \$8 billion in local taxes alone each year on behalf of the local governments. The department regulates the manufacture, distribution and sale of alcoholic beverages, oversees local property tax assessments, and administers grant program payments to local officials. DOR also serves as the fiscal agent for the Illinois Housing Development Authority (IHDA), which ensures the availability of quality, affordable housing across Illinois.

DOR's fiscal year 2016 recommended budget is \$875,648,100. The General Revenue Fund increase of \$4.3 million from fiscal year 2015 will maintain the department's staffing levels. This funding will also allow DOR to meet increasingly sophisticated Internal Revenue Service security mandates, thus ensuring the utmost safety and security of taxpayer information. The fiscal year 2016 recommended budget maintains fiscal year 2015 funding levels for IHDA's Rental Housing Support program, which provides rental assistance to approximately 1,200 very low-income families across the state, to ensure that none of these families will be displaced.

The department is making great efforts to operate in the most efficient manner possible. On average, each auditor brings in eight times the amount in tax revenue to the state for every dollar spent on the salary and benefits of an auditor. DOR has continued to make enhancements to its MyTax online system, allowing taxpayers to file tax returns, make payments and view recent tax returns online, reducing the overhead costs of these operations. It is projected that in fiscal year 2015 over 76 percent of tax documents will be filed electronically.

EDUCATION

State Board of Education

Providing a quality education for our children is a core mission of state government. The Illinois State Board of Education (ISBE) provides leadership, assistance, resources and advocacy for student success.

Investing in the education of our children – our future – is essential. ISBE’s fiscal year 2016 recommended budget is \$10,177,579,500. General State Aid (GSA) to school districts, the primary grant for public school operations, is being increased by \$290.5 million, which will provide for a more equitable distribution of funding, as well as the largest appropriation for GSA in history. State support for early childhood education is being increased by \$25.3 million-, providing our children with a solid foundation for success. Through these critical investments, Illinois’ children will be better prepared to meet the challenges of the future and to be more competitive in the global job market.

The ISBE budget also includes \$7.2 million in operational efficiencies and discontinues some programs in fiscal year 2016 in order to put more resources directly into the classrooms, reform the education bureaucracy and roll back costly mandates. Funding of \$9.4 million is programs that target select districts, such as After School Matters or the General Assembly’s Targeted Initiatives, into GSA and early childhood education. Also reinvested into these critical grants is \$10.4 million from the discontinuation of programs that serve a select group of students and tie up resources that could otherwise be used to help all students across Illinois. The largest of such programs are Regional Safe Schools (\$6.3 million) and Agricultural Education (\$1.8 million).

Board of Higher Education

The Illinois Board of Higher Education (IBHE) is the statewide coordinating and planning board for higher education in Illinois and is responsible for planning and policy development, budget development, program approval and review, operating and degree-granting authority for private institutions, grant administration and information systems development.

The board’s fiscal year 2016 recommended budget is \$12,067,200 and focuses on those programs that are core to IBHE’s primary responsibilities. This includes continued funding for a longitudinal data system to better understand what can be improved to ensure that students excel in their academic and future professional lives. Funding for other programs that make it easier for students to transfer from one institution of higher learning to another, and work study programs that will ensure that students are able to meet the demands of the modern job market are also part of the fiscal year 2016 recommended budget.

The board’s fiscal year 2016 budget includes a reduction of \$5.5 million in programs that are limited in scope and/or fall short in taxpayer return on investment. One such program is the Grow Your Own Teacher Initiative. This initiative started in 2005 with the goal of adding 1,000 new teachers to hard-to-staff, low-income schools by 2016 with an average retention period of seven years. Ten years and \$20 million later, only 200 people have participated in and benefited from the program’s loan forgiveness plan; of those, only 80 are still teaching in Illinois. These are the types of programs that state government can no longer afford. Other programs with limited scope that will be reduced or discontinued in fiscal year 2016 are medical grants targeting specific fields or regions, the Diversifying Higher Education Faculty in Illinois Program and grants partially subsidizing the operations of specific academic centers.

The Government We Can Afford: The Solution

Public Universities

The state's public university system includes nine public universities on 12 campuses located throughout Illinois: Chicago State University, Eastern Illinois University, Governors State University, Illinois State University, Northeastern Illinois University, Northern Illinois University, Western Illinois University, Southern Illinois University with primary campuses in Carbondale and Edwardsville and the University of Illinois with campuses in Chicago, Springfield and Urbana-Champaign.

These institutions operate using a combination of state general funds, tuition revenues and a variety of other fund sources. In addition to both direct and indirect support granted to the universities through tuition assistance to Illinois students, the state also appropriates money directly to the universities to help support operations.

The fiscal year 2016 recommended budget is \$842,172,200 in direct appropriations to the universities, which is a \$387,266,300 reduction in these subsidies. In the recommended budget, each university will receive the same percentage of reduction in state funding from fiscal year 2015. This is an overall reduction of 5.7 percent when taking into account all sources of university revenue.

This budget proposal continues to offer state support to our public universities through \$1 billion in contributions to the State Universities Retirement System and hundreds of millions of dollars in state general revenue funds support for group insurance benefits for university employees.

Community College Board

The Illinois Community College Board (ICCB) is the statewide coordinating board for the higher education system's community colleges and community college districts. The Board also serves as the sole agency responsible for the administration of Adult Education programs in Illinois, and plays a major role in the administration of Postsecondary Career and Technical Education programs in the state.

Central to ICCB's duties is its administration of the Base Operating and Equalization Grants for community colleges. Base Operating Grants are state grants to fund the general operations of community colleges statewide and as a result, play an important role in the efficacy of the State's community college system. Because community colleges receive a portion of their revenue from local property taxes, differences in local property wealth can create disparities in the revenue received by community college districts. Equalization Grants are state grants that attempt to reduce this local wealth disparity to provide for a more equitable funding system.

The Board's fiscal year 2016 recommended budget is \$400,494,900. This budget will reallocate \$115,200 in operational efficiency savings, \$4.1 million in Alternative Schools Network funding, and \$1.7 million in other grants narrow in scope into the Base Operating and Equalization Grants. The result is a \$5.8 million increase over fiscal year 2015 for these two grants, which will provide greater funding for community colleges and their students.

Student Assistance Commission

The Illinois Student Assistance Commission (ISAC) is the state's central provider of financial assistance for students and families seeking access to higher education and/or training. ISAC administers state and federal scholarship and grant programs, serves as the state's guarantor for federal student loans and offers CollegeIllinois!, the state's prepaid tuition program to families in Illinois. ISAC also provides students and families with a broad array of outreach and information services to ensure access to information on student financial aid.

The Government We Can Afford: The Solution

ISAC's fiscal year 2016 recommended budget is \$736,250,100. The largest program managed by ISAC is the Monetary Award Program (MAP). MAP grants are awarded to prospective or current students who attend approved Illinois colleges and demonstrate financial need. MAP serves approximately 140,000 students, is critical to providing higher educational opportunities for those individuals who might not otherwise be able to afford college.

In recognition of the importance of MAP, the fiscal year 2016 recommended budget for the program is \$373 million of the commission's total budget. The fiscal year 2016 recommended budget will also continue to fund other grants including those for children of police officers, fire fighters, and correctional officers killed or disabled in the line of duty. In order to maintain this level of funding for MAP, the fiscal year 2016 budget saves \$1.2 million in operational efficiencies, discontinues funding for the Illinois Scholars Program and reduces funding for the Golden Apple Scholars of Illinois Program by \$3.3 million.

LOCAL GOVERNMENT

State Revenue Sharing with Units of Local Government

Every year, the state shares state revenue with local governments. In fiscal year 2014, the revenue that the state shared with local governments exceeded \$6 billion.

The state also appropriates hundreds of millions of dollars to local governmental entities through the budget process.

It often goes unnoticed that the State of Illinois shares billions of dollars in state revenues with units of local government every year.

These dollars should be recognized as state spending, but are often overlooked because they happen automatically via state law. This spending has not historically been as heavily scrutinized as other state spending items during the budget-making and state appropriations processes.

The state shares the following tax revenues with local governments on an annual basis:

- Eight percent of state income tax receipts – approximately \$1.2 billion.
- 100 percent of the 1 percent state sales tax on food and drug – approximately \$400 million.
- 20 percent of the state sales tax on goods – approximately \$2 billion.
- 54 percent of the state's motor fuel tax – approximately \$600 million.
- 100 percent of the Personal Property Replacement Tax – a 2.5 percent income tax on corporations – approximately \$1.4 billion.

The State of Illinois provides over \$500 million in operating subsidies from the General Revenue Fund to transit agencies in the form of matching funds on local sales tax revenues.

These revenue sharing mechanisms combined add up to over \$6 billion in state revenue sharing with local government. As the following chart indicates, state revenue sharing has shown a significant 42% growth in the past ten years, from \$4.3 billion to \$6.1 billion.

The Government We Can Afford: The Solution

State revenue sharing is a relatively small part of the total revenue package for local governments. The Illinois Office of the Comptroller's 2013 Fiscal Responsibility Report Card shows that local governments received \$26.7 billion in revenues from all sources. The same report shows that state sources are less than a quarter of total local government revenues.

The Comptroller's Report also reflects that units of local government currently have significant levels of reserves on hand in their local funds.

Government Type	Current Year Ending Fund Balance	Total Expenditures	Ratio of Fund Balance to Expenditures	Months of Reserve
All Governments	\$18,136,305,112	\$28,780,143,810	63%	8
Counties	\$3,494,789,061	\$3,751,386,780	93%	11
Municipalities	\$6,528,484,380	\$9,994,199,375	65%	8
Townships	\$894,654,177	\$690,313,696	130%	15
Public Library Districts	\$412,810,840	\$367,692,079	112%	13
Park Districts	\$862,767,249	\$1,479,268,809	58%	7
Fire Protection Districts	\$540,027,611	\$689,427,775	78%	9
Special Purpose Districts	\$944,371,236	\$799,492,637	118%	14
Cook, Chicago, CPD, RTA and MWRD	\$4,458,400,558	\$11,008,362,659	41%	6

Governor Rauner's fiscal year 2016 budget plan leaves the vast majority of state revenue sharing with local governments intact. However, the plan includes an adjustment to the local share of income tax revenues by reducing the percentage share from eight percent down to four percent. This saves the state just over \$600 million in fiscal year 2016. This amount represents 10 percent of total state revenue sharing, and just 2.2 percent of the total of \$26.7 billion in revenues taken in by local governments. The budget also makes some adjustments to the level of subsidies the state will provide to the transit agencies.

The State of Illinois works in partnership with units of local government on many issues. The State Department of Revenue collects and distributes billions of dollars in state and local tax revenues and redistributes them back to local governments. The state also provides hundreds of millions of dollars in assistance through state

The Government We Can Afford: The Solution

appropriations in areas such as grants to local health departments, subsidies for local official salaries, grants to local governments for a myriad of purposes and other appropriations.

Illinois has more units of local government than any state in the nation. Illinois is home to almost 7,000 different local governmental entities. The next highest state is Pennsylvania at under 5,000. Governor Rauner has charged Lieutenant Governor Evelyn Sanguinetti with the task of convening stakeholders to work on a plan to reduce the number of local governments in Illinois.

CHAPTER 3

Financial Summary

This page intentionally left blank.

Discussion And Analysis Of Fiscal Years 2013 Through 2016

Pursuant to the State Budget Law, the information below summarizes the General Funds budgets from fiscal year 2013 through fiscal year 2016. The reader is referred to Table V to supplement the budget discussion on each fiscal year.

Fiscal Year 2013 – Actual Results

Budget Analysis

Revenues

Fiscal year 2013 total state operating revenues and transfers in totaled \$36,363 million, a \$2,743 million or 8.2 percent increase over fiscal year 2012. State revenue sources, including the state's three primary sources (individual income tax, corporate income tax and sales tax), totaled \$27,070 million. Individual income tax revenues increased \$1,026 million to \$16,539 million or 6.6 percent from fiscal year 2012. Receipts reflected 9.75 percent of total individual income tax revenues being diverted to the Income Tax Refund Fund for payment of individual income tax refunds.

Corporate income tax revenues totaled \$3,177 million, a \$716 million or 29.1 percent increase over fiscal year 2012, due to economic growth. This amount reflects 14 percent of total corporate income tax revenues being diverted to the Income Tax Refund Fund for payment of corporate income tax refunds. Fiscal year 2013 sales taxes totaled \$7,354 million, an increase of \$129 million or 1.8 percent. All other State sources increased by \$100 million primarily due to higher public utility and inheritance tax receipts and offset by lower insurance tax receipts and fees.

Federal revenues, driven primarily by state Medicaid spending and matching federal monies, increased from fiscal year 2012 by \$474 million, or 12.9 percent to \$4,154 million. Fiscal year 2012 Medicaid expenditures were paid during the lapse period resulting in increased federal match monies recognized in fiscal year 2013. As state revenues are recognized on a cash basis, federally matched monies received for expenditures occurring after June 30 were recorded in the following fiscal year. Transfers in increased by \$296 million, or 17.5 percent, to \$1,987 million. This was primarily due to \$264 million of transfers in from the newly created FY13/FY14 Backlog Payment Fund (Public Act 97-685) created to pay non-Medicaid related outstanding bills and funded by reductions in other statutory transfers.

Expenditures

Total operating expenditures and transfers out for fiscal year 2013 increased by \$1,270 million or 3.7 percent over fiscal year 2012 to \$35,367 million. Fiscal year spending included \$603 million in supplemental appropriations passed in February 2013 in Public Act 98-1, including \$550 million for the State group health insurance program initially funded for only the first six months of the fiscal year.

In fiscal year 2013, the Governor and the General Assembly enacted reforms to the state Medicaid program to reduce costs and add new revenue sources. The Medicaid program liability in fiscal year 2013, absent these reforms, would have increased by approximately \$2.7 billion. Total reforms included: \$1.6 billion in 62 spending item reductions, utilization controls and provider rate cuts; \$1 per pack cigarette tax increase for \$700 million in new revenue for Medicaid funding; a new hospital assessment program that generates \$100 million in annual revenues; and \$300 million allocated to Medicaid from increased state general funds revenues.

Pension contributions for fiscal year 2013 to the state's five pension systems totaled \$5,107 million from the state's general funds, an increase of \$972 million or 23.5 percent. Contributions to the state pension systems increased between fiscal year 2012 and fiscal year 2013 reflecting five-year experience reviews of actuarial assumptions, conducted by four of the five systems, as required under state pension funding laws. Per those reviews, adjustments to certain assumptions were made, which increased fiscal year contribution requirements.

Transfers out to other state funds in fiscal year 2013 were \$5,075 million, or an increase of \$410 million or 9.0 percent over fiscal year 2012. This includes additional transfers to the Healthcare Provider Relief Fund of

Financial Summary

\$500 million for payment of the \$1 billion in outstanding Medicaid bills, including federal matching dollars. These transfers include \$151 million dedicated to the Healthcare Provider Relief Fund to address a portion of the \$2.7 billion Medicaid liability mentioned above. Additionally, \$100 million in transfers were authorized to the Worker's Compensation Fund designated for employee benefit payments.

Results

The fiscal year 2013 budget did not include any additional non-recurring revenue sources for the general funds. The revised budget included appropriations and authorized transfers for the purpose of payment of outstanding state bills. As previously mentioned, \$500 million was authorized to be transferred into the Healthcare Provider Relief Fund to pay outstanding Medicaid bills. The transfer was cycled repeatedly over the course of the fiscal year under the 50 percent Federal Medical Assistance Percentage match provided to Illinois until \$500 million in federal matching monies was achieved. This allowed for the payment of \$1 billion in outstanding state Medicaid bills, reducing the state's payables backlog classified under Section 25 liabilities. Appropriations were made to the Illinois Office of the Comptroller in the amount of \$264 million to be deposited in to the newly created FY13/FY14 Backlog Payment Fund which was dedicated to payment of outstanding non-Medicaid bills. In total, fiscal year 2013 budgeted appropriations and transfers of approximately \$1.3 billion were dedicated for the payment of outstanding payables in addition to any fiscal year budget surplus.

End of fiscal year 2013 results reflect a \$996 million surplus of total receipts over total disbursements. The surplus was used to increase general funds cash balance to \$154 million, with the \$882 million balance applied to reduce accounts payable to approximately \$4,142 million. Pursuant to Public Act 98-460, the general funds total of budget basis accounts payable, Section 25 liabilities and income tax refunds outstanding as of June 30, 2013 was \$6,046 million.

Fiscal Year 2014 – Actual Results

Revenues

Fiscal year 2014 total state operating revenues and transfers in totaled \$36,758 million, a \$395 million or 1.1 percent increase over fiscal year 2013. State revenue sources, including the state's three primary sources (individual income tax, corporate income tax and sales tax), totaled \$27,482 million. Individual income tax revenues increased \$103 million to \$16,642 million or .6 percent from fiscal year 2013. Receipts reflected 9.5 percent of total individual income tax revenues being diverted to the Income Tax Refund Fund for payment of individual income tax refunds.

Corporate income tax revenues totaled \$3,164 million, a \$13 million or .4 percent decrease below fiscal year 2013, much of it due to slower than anticipated economic activity during the polar vortex. This amount reflects 13.4 percent of total corporate income tax revenues being diverted to the Income Tax Refund Fund for payment of corporate income tax refunds. Fiscal year 2014 sales taxes totaled \$7,676 million, an increase of \$322 million or 4.4 percent. All other State sources increased by \$80 million primarily due to a court settlement.

Federal revenues, driven primarily by state Medicaid spending and matching federal monies, decreased from fiscal year 2013 by \$251 million, or 6 percent to \$3,903 million. Fiscal year 2013 federal match monies included match received from spending that occurred during the fiscal year 2012 lapse period, resulting in higher than anticipated receipts for that fiscal year. Transfers in increased by \$155 million, or 7.8 percent, to \$2,142 million. This was largely due to a \$397 million surplus in the Income Tax Refund Fund that was transferred to the General Revenue Fund as provided by statute.

Expenditures

Total operating expenditures and transfers out for fiscal year 2014 increased by \$1,334 million or 3.8 percent over fiscal year 2013 to \$36,701 million. Fiscal year spending included \$974 million in supplemental appropriations passed in May 2014, including a \$600 million appropriated fund deposit to the Health Care Provider Relief Fund to cover Medicaid liability that the State was not anticipated to incur until the beginning of fiscal year 2015.

Pension contributions for fiscal year 2014 to the state's five pension systems totaled \$5,989 million from the state's general funds, an increase of \$882 million or 17.3 percent. Transfers out to other state funds in fiscal year 2014 were \$5,222 million, or an increase of \$147 million or 2.9 percent over fiscal year 2013. This includes additional transfers to the General Obligation Bond Retirement and Interest Fund of \$103 million for the repayment of debt issued related to making prior years' pension payments. These transfers also include an additional \$100 million to the Healthcare Provider Relief Fund to address the State's Medicaid liability. These increases were partially offset by reductions in transfers to the Public Transportation Fund and the Workers' Compensation Revolving Fund.

Results

The fiscal year 2014 budget did not include borrowings and financings to fund the general funds. The revised budget included a small amount of appropriations to cover unpaid Group Health Insurance bills. As previously mentioned, \$600 million was appropriated to the Health Care Provider Relief Fund to cover future year liabilities for the purpose of avoiding making difficult spending reductions in the fiscal year 2015 budget. Appropriations were made to the Illinois Office of the Comptroller in the amount of \$50 million to be deposited in to the FY13/FY14 Backlog Payment Fund which was dedicated to payment of outstanding non-Medicaid bills. In total, resources of \$137 million were used for the payment of outstanding payables.

End of fiscal year 2014 results reflect a \$57 million surplus of total receipts over total disbursements. The surplus was used along with existing cash balances towards the end of the fiscal year to reduce accounts payable (plus lapse period spending) to \$4,005 million. Pursuant to Public Act 98-460, the general funds total of budget basis accounts payable, Section 25 liabilities and income tax refunds outstanding as of June 30, 2014 was \$5,830 million.

Fiscal Year 2015 – Revised Budget

Revenues

Total state operating revenues and transfers in from other state funds are estimated to total \$34,069 million for the fiscal year 2015 Revised Budget, a decrease of \$2,689 million or 7.3 percent from fiscal year 2014 results. The state's three largest revenue sources, individual income tax, corporate income tax and state sales tax, are estimated to be \$25,459 million, a net decrease of \$2,023 million or 7.4 percent less in fiscal year 2015 compared to fiscal year 2014. This decrease in fiscal year 2015 is largely attributed to the reduction in individual and corporate income tax rates that took effect on January 1, 2015. Revised fiscal year 2015 corporate income taxes reflect a decrease of \$407 million due to lower than anticipated corporate profits being sourced to Illinois. This is partially offset by an estimated increase of \$103 million in sales tax collections due to higher than previously expected retail sales. Lower than anticipated motor fuel prices have been offset by increased expenditures on other taxable goods.

Federal revenues are projected to decline by about \$227 million or 5.8 percent to \$3,676 million compared to fiscal year 2014. This reduction is largely due to lower than anticipated Medicaid liability. Fiscal year 2015 budget transfers in are anticipated to be \$1,736 million, a decrease of \$406 million, or 18.9 percent from fiscal year 2014, primarily due to a reduced prior year surplus in the Income Tax Refund Fund. Inter-fund borrowing, \$650 million of which had been approved by the 98th General Assembly for the purpose of providing budgetary relief, is not anticipated to occur in fiscal year 2015 removing increased budgetary pressures on the fiscal year 2016 budget.

Expenditures

Currently enacted and estimated state expenditures and transfers are \$35,687 million, a decrease of \$1,014 million, or 2.8 percent, from fiscal year 2014. State pension contributions increased by \$70 million, or 1.2 percent to \$6,059 million over fiscal year 2014. Transfers out to other state funds (including debt service) in fiscal year 2015 totaled \$4,577 million, a decrease of \$645 million or 12.4 percent from fiscal year 2014. This reduction largely comes from using fiscal year 2014 resources to fund fiscal year 2015 Medicaid liability that was to be paid for with a statutory transfer to the Health Care Provider Relief Fund.

In order to craft a budget that appeared balanced, numerous budgetary gimmicks were used in the enacted fiscal year 2015 budget. These gimmicks include the previously mentioned inter-fund borrowing and “pre-

funding” of fiscal year 2015 Medicaid liability. In addition to those, however, a number of state agencies were deliberately underfunded; current appropriations fall far short of what anticipated needs of various agencies and programs are anticipated to be. The Fiscal Year 2015 Revised Budget is proposing approximately \$556 million in supplemental appropriations to cover these recklessly enacted shortfalls. This request includes \$117 million for the operations of the Department of Corrections, \$25 million for community mental health, \$14 million for programs that serve the developmentally disabled and \$278 million for the Child Care Assistance Program.

Results

The fiscal year 2015 Revised Budget projects a \$1,618 million deficit of receipts under disbursements which if left alone will result in an increase of accounts payable for fiscal year 2015 to \$5,623 million. Once Section 25 liabilities are included in accordance with Public Act 98-460, total outstanding liabilities would grow to \$7,531 million. To avoid this untenable situation, the Governor has proposed a series of statutory changes that when enacted will enable the State to turnaround this dire budgetary situation and get through the remainder of the fiscal year without amplifying the State’s already unacceptable fiscal deficit.

Fiscal Year 2016 – The Government We Can Afford

Budget Assumptions

The budget that begins on July 1, 2015 will be the first full fiscal year in which taxpayers will be paying income taxes at a rate of 3.75 percent for individuals and 5.25 percent for corporations. These rates are appropriate, since it is unreasonable to ask taxpayers to shoulder the burden for the past neglect by the state’s political leaders. As part of the Governor’s introduced budget, certain changes in law are assumed in accordance with Public Act 96-1529 as it relates to certain unnecessary fund diversions.

Budget Analysis

Revenue estimates reflect updated projections by the Department of Revenue and the Governors’ Office of Management and Budget developed consistent with current law.

Revenues

Total state operating revenues and transfers in from other state funds are estimated to total \$32,000 million for the fiscal year 2016, a decrease of \$2,069 million or 6.1 percent from projected fiscal year 2015. The state’s three largest revenue sources, individual income tax, corporate income tax and state sales tax, are estimated to be \$23,722 million, a net decrease of \$1,737 million, or 6.8 percent, in fiscal year 2016 compared to projected fiscal year 2015. This decrease is attributed to a reduction in individual income tax and the corporate income tax rates and partially offset with an end to the diversions to the Fund for the Advancement of Education and the Commitment to Human Services Fund.

Federal revenues are projected to decrease by \$375 million or 10.2 percent in fiscal year 2016. Budgeted transfers in for fiscal year 2016 are projected to be \$1,661 million, a decrease of \$75 million, or 4.3 percent less than fiscal year 2015, primarily as a result of a reduction of the surplus in the state’s income tax refund fund and a smaller amount being transferred from the Build Illinois Fund.

Expenditures

If the state government spending were left on auto-pilot (or maintenance), total state expenditures and transfers out are estimated to be \$38,210 million, an increase of \$2,523 million, or 7.1 percent over 2015. This amount also would be \$6,161 million below estimated revenues for the fiscal year 2016, or 19.2 percent of total revenues. This unprecedented projected deficit is unconscionable, which is why the Governor is proposing a balanced budget that is the budget that Illinois can afford.

In this proposal, the introduced budget is driven by priorities and performance. State government cannot afford to continue to fund programs that are not part of its core mission, nor can it continue to turn a blind eye and continue to fund programs that don’t work. In this plan, total state expenditures and transfers out are estimated to be \$31,495 million, a decrease of \$4,192 million, or 11.7 percent from fiscal year 2015. This also represents a \$6,715 million reduction from the auto-pilot budget, or 17.6 percent.

This proposal focuses on spending in areas that are the state's core priorities, including increasing General State Aid so that 95 percent of the formula will be funded, up from 89 percent in fiscal year 2015. This budget strengthens the commitment to early childhood education, efforts to provide community based home health care for those in need of services, and increases funding in the Department of Corrections to cover the number of correctional officers at prisons needed to ensure the safety of the workforce and cut down on the costs of unnecessary overtime. The Governor's plan also calls for making smart investments to reduce the prison population, and continues to support programs that drive economic growth, such as vocational and technical education and job training programs at the Department of Commerce and Economic Opportunity.

To pay for these necessary services, there are other areas of spending that the state must get under control. This includes making necessary changes to the state's five pension systems, allowing for an adequate retirement for our employees, while establishing savings of \$2,200 million for taxpayers. Other difficult but necessary changes include needed changes to the health insurance plan provided for state employees, where the state will achieve savings of \$655 million in fiscal year 2016 on behalf of taxpayers.

Transfers out to other state funds (including debt service) in fiscal year 2016 are projected to total \$3,706 million, a decrease of \$871 million, or 19.0 percent from fiscal year 2015, largely due to making changes to the transfers to the Local Government Distributive Fund, the Public Transportation Fund and the Downstate Public Transportation Fund.

Debt service transfers for pension bonds are decreasing by \$83 million or 5.5 percent from fiscal year 2015 largely due to the retirement of bonds issued in fiscal year 2010. Debt service transfers to capital bonds are expected to increase by \$29 million, or 4.2 percent above fiscal year 2015.

In the aggregate, these changes in the Governor's proposed fiscal year 2016 budget prioritize programs based on their impact on the core missions of state government, provide resources for programs that are proven to work and is the government that Illinois can afford.

Results

The fiscal year 2016 budget does not include any one time revenues or other financial sources such as cash-flow borrowings or deficit financings.

The projected budget results in an estimated operating surplus of \$505 million which is completely earmarked to reduce the backlog of bills so that budget basis accounts payable are estimated to be \$3,500 million by the end of fiscal year 2016. Pursuant to Public Act 98-460, the general funds total of budget basis accounts payable, Section 25 liabilities and income tax refunds outstanding as of June 30, 2016 is estimated to be \$5,208 million.

NOTE: FOLLOWING FOOTNOTES ARE AN INTEGRAL COMPONENT OF THE FINANCIAL INFORMATION IN THE TABLES ABOVE							

FOOTNOTES

- Total Expenditures equal fiscal year budgeted appropriations, minus unspent agency appropriations. Unspent appropriations reflect unused spending authority of agencies by the close of the Lapse Period for that fiscal year and uncashed checks from prior fiscal years. The Lapse Period is statutorily defined as the two months following the close of the fiscal year on June 30th. Total Expenditures include Lapse Period expenditures that represents vendor invoices received after June 30th for liabilities incurred (i.e., goods received or services rendered) by June 30th and must be paid during the Lapse Period. In addition, a sufficient appropriation balance must exist from that fiscal year in order to be recorded as a liability of that fiscal year. Beginning in FY2010, the Lapse Period was extended by statute to December 31st each year due to cash flow timing differences. Any Prompt Payment Act interest that is paid during the Lapse Period is also charged as a Lapse Period expenditure.
- General Funds pension contributions are net of payments funded by transfers from the State Pension Fund representing resources provided by the Unclaimed Property Trust Fund, pursuant to statute, in the following amounts: \$150 million in FY 2013, \$198 million in FY2014, \$197 million in FY2015 Revised Budget and \$150 million in FY2016 Governor's Introduced Budget.
- State General Obligation bond debt service payments are made through a separate fund in the state treasury called the General Obligation Bond and Retirement Interest Fund (GOBRI). Monies from the General Funds are transferred monthly to GOBRI in equal increments to provide for the payment of principal and interest on bonds when due.
- FY2012 Transfers Out also includes \$356 million of Inter Fund Borrowing repayments, from an Inter Fund Borrowing of \$496 million in FY 2011, with a final repayment of \$132 million (including interest) in FY2013, per statute and as reflected above.
- Budget Basis Surplus (Deficit) equals "Operating Revenues and Transfers In" minus "Operating Expenditures and Transfers Out" plus (minus) "Other Financing Sources (Uses)"
- Budget Basis Accounts Payable excludes incurred liabilities of that fiscal year that do not have sufficient appropriation authority remaining to be paid during the Lapse Period (i.e., 60 days after the close of that fiscal year). However, such incurred liabilities are reflected in the audited Comprehensive Annual Financial Report (CAFR) that is prepared on the basis of generally accepted accounting principles for governments. Per statute, any bill not presented and paid by the end of the Lapse Period, must be presented to and approved by the Court of Claims before payment can be made. Those payments are based upon available appropriations of the Court of Claims and thus could result in payment being delayed into a future fiscal year. Statutes also provide for "Section 25 liabilities," (i.e., Section 25 of the State Finance Act) consisting primarily of Medicaid and group health insurance payments, that are exempt from the Lapse period deadline and Court of Claims requirements.
- Budget Basis Accounts Payable are defined as the "Vouchers on Hand" (i.e., vendor invoices received by the Illinois Office of the Comptroller and unpaid) as of June 30th of each fiscal year, plus Lapse Period Spending.
- Cash Basis Surplus (Deficit) equals "Budget Basis Surplus (Deficit)" minus (plus) Other Cash Uses (Sources) relating to changes in Accounts Payable during the fiscal year.
- PA 98-0460 requires General Funds budgetary information shall be presented in a numerical format for the prior two fiscal years (FY2013-FY2014), the current fiscal year (FY2015) and the proposed upcoming fiscal year (FY2016). Accounts Payable (A/P) information shall also include any General Funds liabilities that may be paid from the appropriations of future fiscal years beyond the lapse period, as set forth in Section 25 of the State Finance Act. PA98-0460 also states the accounts payable section shall include an estimate of individual and corporate income tax refunds not refunded before the close of the fiscal year.
- Sources: FY2013 Section 25 Liabilities are audited actual amounts from records of the Illinois Office of the Comptroller. FY2014-FY2016 Section 25 liabilities are estimated amounts from State agencies. Income Tax Refunds Payable information was provided by the Department of Revenue. The FY2016 introduced budget assumes all statutory and contractual changes are made so that introduced appropriations support anticipated liabilities.

* Amounts may not add to totals due to rounding.

Financial Summary

The proposed level of operating appropriations from all funds in fiscal year 2016 is \$61.8 billion, compared to fiscal year 2015 appropriations of \$66.3 billion as detailed in Table I-A. This represents an decrease of \$4.5 billion (or 6.9 percent) from fiscal year 2015.

Appropriations are made from individual funds, the names of which are often indicative of either the purpose of the appropriations or the major source of the fund's receipts. The following table shows appropriations by major fund group.

Fiscal Year 2016 Operating Appropriations by Fund Group

*Excludes Revolving Funds per footnote #6 in Table I-A.

General Funds - The largest fund group, in terms of dollars, is General Funds. This fund group represents approximately 50 percent of total recommended appropriations and consists of the General Revenue Fund, the Common School Fund, the Education Assistance Fund and the General Revenue-Common School Special Account Fund. The General Funds support the largest proportion of state programs, as well as the executive, legislative and judicial branches of state government. The General Funds are commonly known as the state's operating funds.

Special State Funds - The next largest fund group is Special State Funds. Included in this group are the following major categories:

- **Highway Funds** - There are seven Highway Funds including the Road Fund and the Motor Fuel Tax Fund. The State Construction Account Fund and the Grade Crossing Protection Fund are also Highway Funds, but are presented only in the Capital budget. Appropriations from Highway Funds support transportation and highway maintenance-related activities and include a mechanism for diverting a portion of road-related fees to local governments.
- **Other Special State Funds** - More than 300 funds support such diverse activities as medical assistance, children's services, environmental cleanup, financial regulation and health insurance.

Federal Trust Funds - This fund group supports a variety of state programs funded with federal revenues, including education, healthcare, human services, community development, transportation and energy.

Financial Summary

The following section provides highlights of the expenditure side of the recommended fiscal year 2016 budget by result area.

Fiscal Year 2016 Operating Appropriations by Result Area, Percentage of Total

Appropriations also may be grouped according to purpose. The charts above show appropriations by result area, identifying the principal activities of state government. The charts show that the major uses of state resources are education, healthcare and human services programs.

The total recommended appropriations for the state's operating budget is \$61.8 billion. General Funds appropriations are \$28.4 billion or 46.0 percent of the total budget; Special State Funds are \$25.7 billion or 41.6 percent and Federal Funds are 7.6 billion or 12.4 percent.

The recommended all funds appropriations by result area are as follows: Healthcare \$19.2 billion or 29.5 percent, Education \$12.2 billion or 18.8 percent; Government Services, including employee group health insurance, \$12.0 billion or 18.4 percent; Human Services 9.3 billion or 14.4 percent; Pension Costs 4.6 billion or 7.1 percent; Economic Development 4.3 billion or 6.6 percent, Public Safety 3.1 billion or 4.8 percent and Environment and Culture 267.1 million or 0.4 percent.

Fiscal Year 2016 Revenues by Source Percentage of Total

The two charts above identify the major revenue sources for all appropriated funds.

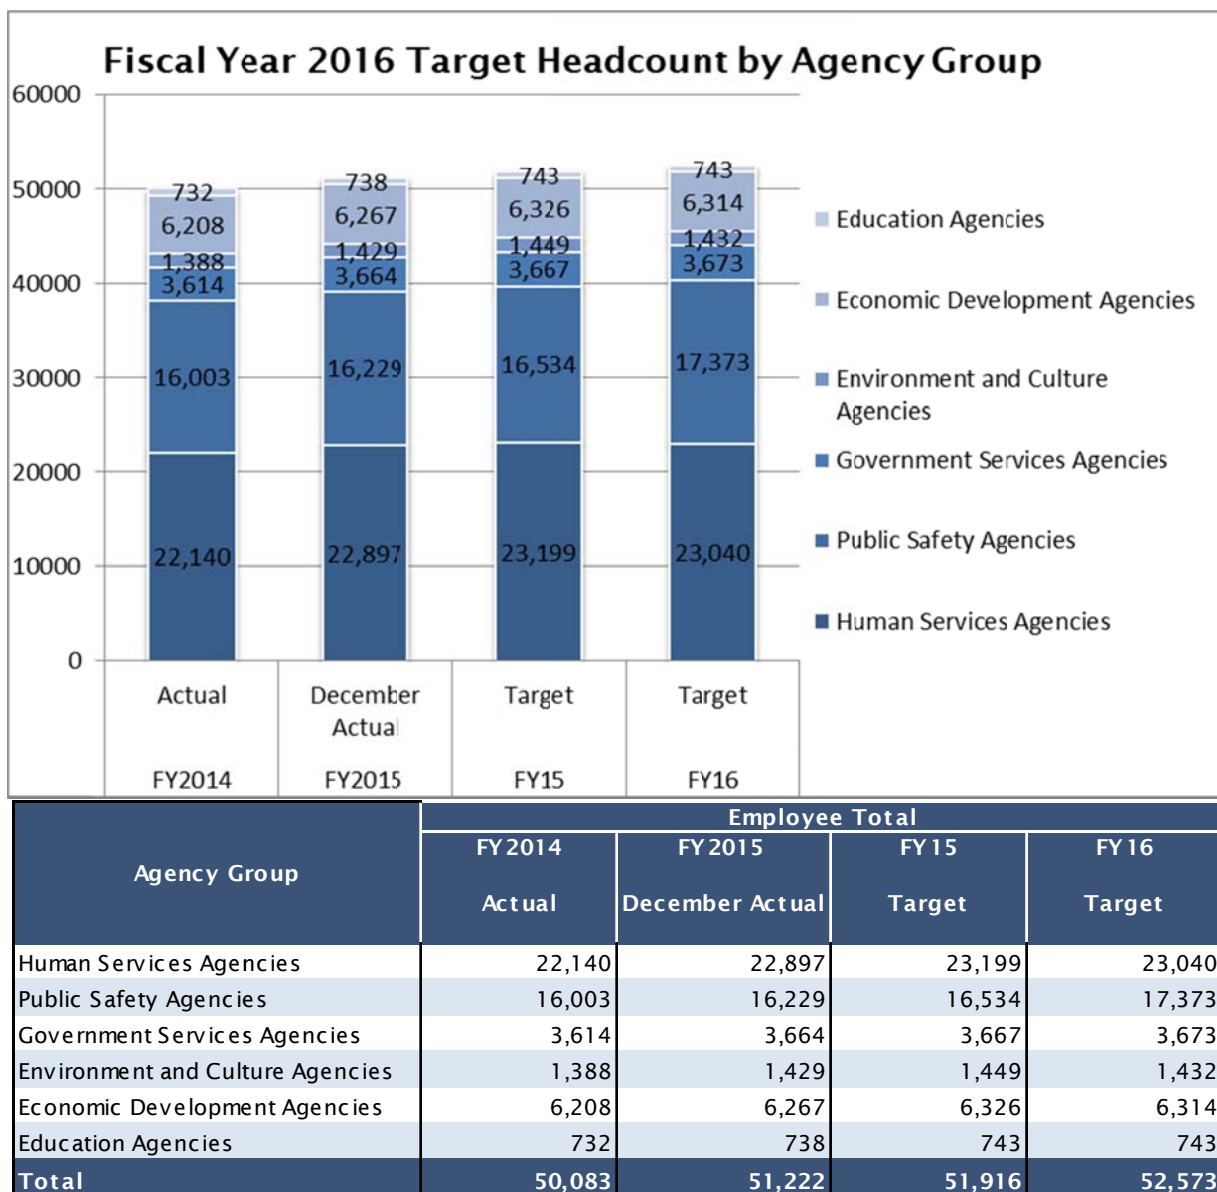

Total all funds revenues are projected to be \$58.6 billion in fiscal year 2016 and General Funds revenues are estimated to be \$32.0 billion. General Funds revenues are estimated to decrease by 6.1 percent, or \$2.1 billion from fiscal year 2015.

A breakdown by major revenue category can be found in Table II-A for all funds, and Table II-B for general funds. As can be seen in those tables and in the above charts, revenues from income and sales taxes are the major sources of state funds. They account for 41.1 percent of all funds revenues, and 74.1 percent of general funds revenues.

Position Summary

The chart below summarizes employee headcount by groups of agencies for fiscal year 2016. More than 76.8 percent of state employees are in the human services and public safety agencies. Headcount has been reduced significantly from its high point of 69,970 in 2001, due to retirements, attrition and layoffs without replacement.

In fiscal year 2016, headcount is projected to increase by 657 from its estimated end of fiscal year 2015 level.

Budget Policies

Operating Budget Policies

Article 8, Section 2 of the Illinois Constitution requires that the governor's proposed expenditures not exceed funds estimated to be available for the fiscal year. The next section forbids the General Assembly to appropriate in excess of funds estimated to be available. Public Act 90-479 amended the Civil Administrative Code to provide guidance to the governor as he proposes the budget. Tables II-C and II-D provide revenue and expenditure information pursuant to Public Act 90-479, codified at 15 ILCS 20/50-5.

Strategic Fiscal Policies

The state's strategic fiscal policies are designed to eliminate the fiscal imbalance caused by expenditures growing at a faster rate than revenues. These policies include the following:

- Fund key priorities;
- Invest in the economy and the state's infrastructure;
- Reduce the state's pension liability;
- Implement new revenue streams that reflect the state's economic base;
- Contain core costs;
- Improve the efficiency of state procurement;
- Maintain debt affordability processes for capital programs;
- Measure program performance;
- Ensure revenue compliance and enforcement;
- Require new spending to be matched by new revenues; and
- Streamline government by reducing its size and increasing its responsiveness.

Financial Reporting Policies

The state's Comprehensive Annual Financial Report follows accounting and financial reporting practices in conformity with accepted principles and standards of the Governmental Accounting Standards Board (GASB), and best practices of the Government Finance Officers Association (GFOA).

Revenue Policies

To develop revenue policies, the state consults with the Council of Economic Advisors and independent national economic consulting firms, and utilizes various revenue forecasting methodologies including econometric modeling, historical relationships and economic indicator projections.

The state will monitor revenues on a regular basis. Comparisons are made to both the budget and the prior year to facilitate a rapid response to changes in economic conditions and fiscal status.

Operating Expenditure Policy

GOMB approves procurement transactions of \$250,000 or more.

GOMB approves all personnel transactions and out-of-state travel.

Pursuant to Executive Order 15-08, all expenditures receive greater scrutiny from GOMB to ensure state funds are spent only on essential purposes.

Debt Capacity, Issuance and Debt Service Policies

The state conducts debt affordability analyses to determine the long-term effects of debt repayment on future operating budgets.

Unless otherwise necessary to offset pension liability, the state limits debt service expenditures to no more than seven percent of General Revenue and Road Funds appropriations.

Capital Expenditure Policy

The state annually forecasts and analyzes revenues available for capital expenditures.

The state conducts a formal capital planning process to rank projects based on specific criteria including life safety factors, code compliance, infrastructure maintenance, cost benefit analysis and targeted new construction programs.

The state evaluates the impact of new capital spending on the operating budget.

The state performs facility management and condition assessments in order to provide information and recommendations for current and future capital expenditures.

Performance Measures

The agencies under the governor have developed performance measures that indicate progress toward the governor's priorities and each agency's core mission.

The performance measures focus on outcome measurement in order to assess the impact on the public.

The performance measures presented in the budget book include estimated data for the current year, projected data for the budget year and historical data for the three prior fiscal years.

Beginning with budgets prepared for fiscal year 2013, the budgets submitted by the governor and appropriations made by the General Assembly for all executive branch state agencies must adhere to a method of budgeting where each priority must be justified each year according to merit rather than according to the amount appropriated for the preceding year. (15 ILCS 20/50-5)

For fiscal year 2014, the governor, with the advice of the Budgeting for Results Commission, identified seven statewide result areas and nine key outcomes areas into which state spending was classified according to program areas (see Budgeting for Results Chapter 2).

Legislative Policies

Agencies under the governor will submit proposed legislation to the governor's office to determine the fiscal impact to the budget.

During the course of the legislative session, GOMB prepares balanced budget notes at the request of members of the General Assembly. These notes assess the fiscal impact of proposed legislation on the budget.

The table below summarizes additional fiscal policies of the state. The state's fiscal policies are designed to protect state assets, control state expenditures, minimize administrative costs and maximize efficiency.

SELECT FINANCIAL POLICIES

State Agency	Financial Policy	Brief Policy Description
Treasurer's Office	State Treasurer's Investment Policy http://www.treasurer.il.gov/about-us/pdf/GRInvestmentPolicy.2011.12.13.pdf	The treasurer's investment policy calls for investment of all funds in a manner that ensures the safety of principal and provides the highest investment return, using authorized instruments, while meeting the state's daily cash flow demands. The policy covers the following areas: ethics and conflict of interest; authorized broker/dealers and financial institutions; authorized and suitable investments; investment restrictions; collateralization; diversification; custody and safekeeping; internal controls; limitation of liability; and reporting.
Comptroller's Office	Statewide Accounting Management System procedures manual (SAMS Manual) http://www.ioc.state.il.us/index.cfm/linkservid/60F208B2-1CC1-DE6E-2F4808A951E543C6/showMeta/0/	The comptroller's Statewide Accounting Management System (SAMS) manual documents the fiscal policies, accounting principles, controls, operating procedures and reporting requirements for SAMS. The manual assists state agencies by indicating the method to be used for processing accounting information between agencies and the comptroller's office.
Chief Procurement Office	Procurement Rules http://www2.illinois.gov/cpo/general/Pages/StatutesRules.aspx	All qualified vendors are invited to participate in bidding on the wide variety of commodities and equipment purchased by the state. The Chief Procurement Office is authorized by law to buy commodities and equipment for state agencies and elected officials. The state's procurement rules establish standards for procurement authority, bid thresholds, bid publication, bid security, duration of contracts, contract pricing, preferences, ethics, protests, supply management and governmental joint purchasing.

The Budget Process

The Illinois Constitution requires the governor to prepare and present a state budget recommendation for the state to the General Assembly. The Constitution also requires the proposed budget be balanced and include recommended spending levels for state agencies, estimated funds available from tax collections and other sources, and state debt and liabilities. The Governor's Office of Management and Budget (GOMB) estimates revenues in consultation with the Department of Revenue (DOR). GOMB subsequently develops budget recommendations that reflect the governor's programmatic and spending priorities.

Planning: September through February

Planning for the next fiscal year begins each fall. During the planning phase, the following activities occur:

- Agencies work with GOMB and the governor's office to refine strategic priorities, develop initiatives to achieve those priorities, and evaluate actual performance compared to benchmarks from comparable states or other peer entities;
- GOMB and agency staff identify and estimate potential spending for the coming fiscal year, including both the costs of current and potential programs, and the value of expansion, modification, or discontinuation of various programs;
- Working with the Council of Economic Advisors, GOMB and DOR review economic forecasts and make preliminary revenue estimates;
- GOMB, the Department of Central Management Services and the agencies review statewide trends and administrative processes to find and reduce inefficiencies, and propose reallocation of resources to improve efficiency and promote better government;
- Based on targets, assumptions and materials provided to agencies by GOMB, agencies prepare and GOMB reviews preliminary budget materials;
- GOMB, the governor's office, and agencies meet to review and discuss available revenue, anticipated spending, and program priorities to develop budgets that reflect the core priorities of the agency;
- Periodically, GOMB reviews revenue and spending estimates, and adjusts agency and state priorities if necessary;
- When final budget options are developed, they are presented to the governor for review and approval before they are drafted in legislative form. GOMB then produces the budget book, a narrative explaining the budget and providing complete budget table forms;
- The governor announces and describes the budget in the annual budget address; and
- GOMB drafts appropriation bills to implement the governor's budget recommendations.

Legislative Deliberation: March through May

After the governor's budget address in March, legislative review of the governor's budget recommendations begins with hearings before House and Senate appropriation committees. During this period, the following activities occur:

- Appropriation committees may adopt amendments to change the funding levels recommended by the governor;

Financial Summary

- Once passed by committee, an appropriation bill moves to the full House or Senate for consideration, amendment, and a vote. Following passage in the first legislative chamber, the appropriation bill moves to the second chamber, where a similar process takes place. Changes made in either chamber must ultimately be accepted in identical form by both chambers for the bill to pass and be presented to the governor; and
- As the budget moves through the legislature, GOMB monitors substantive legislation, as well as any amendments, to identify potential fiscal impacts.

Final approval of the budget usually occurs at the end of the legislative session, typically by the end of May. The Illinois Constitution requires a simple majority vote of the General Assembly for a bill passed on or before May 31 to take effect immediately. On or after June 1, a three-fifths super majority vote of the General Assembly is required in order for a bill to take effect during the fiscal year.

Gubernatorial Review: Following end of Legislative Session

Once the General Assembly passes the budget, the governor must sign appropriation bills before funds can be spent. If the governor chooses not to approve a specific appropriation, he may either veto a specific line item, or reduce it. The rest of the appropriation bill is unaffected by these vetoes and becomes effective. Line items that have been vetoed or reduced must be reconsidered by the General Assembly during the fall session. The General Assembly may return an item to the enacted level by simple majority vote in both chambers in the case of a reduction veto, and by a three-fifths super majority vote in the case of a line item veto. If additional resources beyond those initially approved in the budget become necessary, a supplemental appropriation bill may be passed any time the General Assembly is in session.

Summary Tables

Table I-A Operating Appropriations by Agency – All Funds

Summarizes each agency's general funds, other state funds, federal funds and total appropriations for fiscal years 2014, 2015, and 2016. The footnotes to Table I-A explain the various transfers of functions and funds related to agency reorganizations and program changes.

Table I-B Operating Appropriations by Program – All Funds

Summarizes by Results, Outcome, Agency and Program the budget recommendations for each agency and other branches of government, including elected officials.

Table I-C: Supplementals to Complete Fiscal Year 2015

Lists the Governor's recommended supplemental appropriations needed to complete fiscal year 2015.

Table I-D: General Funds Transfers Out by Fund

Lists the statutorily required transfers.

Table II-A: Revenues by Source – All Appropriated Funds

Summarizes, by source, all appropriated state revenues for four fiscal years.

Table II-B: Revenues by Source – General Funds

Summarizes, by source, all revenues deposited into the state's general funds for four fiscal years.

Table II-C: Budgeted Funds Revenues – GAAP Basis

Budgeted funds revenues prepared in accordance with 15 ILCS 20/50-5(a) for fiscal year 2016.

Table II-D: Budgeted Funds Expenditures – GAAP Basis

Budgeted funds expenditures prepared in accordance with 15 ILCS 20/50-5(a) for fiscal year 2016.

Table III-A: Road Fund

Provides a summary of the receipts into the Road Fund and allocations from the fund to various state agencies for four fiscal years.

Table III-B: Motor Fuel Tax – State Funds

Summarizes the receipts into the Motor Fuel Tax Fund and distributions from the fund for four fiscal years.

Table IV-A: Appropriated Operating Funds by Fund Group for Fiscal Year 2016

Summarizes, by fund group, the appropriated funds and projected operating cash flow for fiscal year 2016.

Table IV-B: Appropriated Operating Funds by Fund for Fiscal Year 2016

Lists all appropriated funds and describes each fund's projected operating cash flow for fiscal year 2016.

FOOTNOTES

1. Table IA includes the fiscal year 2016 Agency Maintenance Request as a reference for comparison to the intentionally under funded fiscal year 2015 budget and the affordable fiscal year 2016 budget.
2. Operations of the Historic Preservation agency have been included in the Department of Commerce and Economic Opportunity's budget.
3. The Abraham Lincoln Presidential Library and Museum is presented as its own agency.
4. Required fiscal year 2014 contributions to the State Employees' Retirement System were slightly below the actual costs incurred. The fiscal year 2015 appropriation has been increased by \$12.1 million to cover the prior year shortfall.
5. Required fiscal year 2014 contributions to the retirement systems were made through direct appropriations to the retirement systems. However, the appropriations passed by the General Assembly were insufficient for the Teachers' Retirement System to meet the state contributions to the Teachers' Retirement Insurance Program; the appropriations for the State Universities Retirement System were insufficient for the required contributions to the Community College Insurance Program.
6. The Department of Central Management Services and the Department of Transportation revolving funds appropriations, estimated expenditures, and estimated appropriations for fiscal years 2014 - 2016 are listed as separate line item reductions in Table I-A. The line item reductions were made to avoid double counting in the appropriations. Appropriations expended for services provided by revolving funds are also included in individual agency budgets, including divisions within Central Management Services.

CHAPTER 4

Economic Outlook and Revenue Forecast

This page intentionally left blank.

Economic Outlook And Revenue Forecast

ECONOMIC OUTLOOK

Stability has returned to the national economy and economic growth is expected to increase during the remainder of fiscal year 2015 and throughout fiscal year 2016. Employment has been increasing and is expected to continue to grow in the forecast horizon. As the economy approaches full employment, it will place upward pressure on wages and salaries, and on consumer spending. Additionally, the recent decline in the price of motor fuels is stimulating other portions of the consumer sector. All these factors lead us to expect more robust growth in the remainder of fiscal year 2015 and through fiscal year 2016.

The Federal Reserve Open Markets Committee (FOMC) indicated in mid-December that, "based on its current assessment, the Committee judges that it can be patient in beginning to normalize the stance of monetary policy"¹; with all but two participants anticipating that it would be appropriate to begin raising the target range for the federal funds rate during 2015.²

The improved outlook for the near term is not without risks, however. Risk factors include the euro zone economy which faces the real possibility of recession, as well as the observed slowdown in China's economic growth. Additionally, the geopolitical risk caused by the dramatic fall in oil prices is putting some oil exporters, such as Russia, in serious financial turmoil.

The following discussion highlights the past and forecast performance of several major economic indicators. All forecasts are *IHS Economics* baseline forecasts unless otherwise noted. A discussion of the Illinois economy follows discussion of the national economy.

The National Economy

Real Gross Domestic Product (GDP), the inflation-adjusted value of all goods and services produced in the United States, is expected to increase 3.3 and 2.6 percent in fiscal years 2015 and 2016, respectively.

Continued job growth and improved consumer confidence have given a boost to real personal consumption which is the main component of GDP. Personal consumption increased 2.5 percent in fiscal 2014; growth that is expected to accelerate to 3.3 percent in fiscal year 2015 and 3.1 percent in fiscal year 2016.

Real nonresidential fixed investment, which includes items such as new structures and equipment, is expected to increase 7.2 percent during both fiscal year 2015 and 2016, a rate much closer to the 8.0 percent average growth experienced before the recession.

The strength of exports as a contributor to GDP is restricted by a strong dollar and the economic weakness of the U.S. main trading partners, but has constrained growth in wages and salaries which boosts competitiveness in the sector. Another factor that helps the export sector is the availability of inexpensive domestic energy sources as well as the recent fall in oil prices.

While fiscal policy has been a significant drag on economic growth in recent years, government spending is not expected to meaningfully contribute to economic growth or stagnation during fiscal years 2015 or 2016.³

² Minutes of the Federal Open Market Committee, December 16-17, 2015,
<http://www.federalreserve.gov/monetarypolicy/files/fomcminutes20141217.pdf>

³ According to the congressional budget office, tax increases and budget cuts lowered output as much as 1.5 percentage points during 2013.

Economic Outlook And Revenue Forecast

The U.S. labor market has shown noteworthy improvement after several years of slow progress. According to the Bureau of Labor Statistics (BLS), total non-farm payroll grew by 252,000 in December of 2014 while the average growth during 2014 was 246,000 per month. This job growth is considerably higher than the average monthly gain of 194,000 during 2013.⁴

The Professional and Business Services sector is showing the most important gains, according to BLS, with monthly job gains averaging 61,000 during 2014.

The employment gains have contributed to a significant decline in the unemployment rate, which sits currently at 5.6 percent. The number of those who are working part-time but would like to work full-time declined considerably from a level of 7.8 million in December of 2013 to 6.8 million in December of 2014. The number of unemployed persons was at 8.7 million, which represents a decrease of 1.1 percent compared to a year earlier.

The baseline IHS Economics forecast expects total U.S. non-farm payrolls to increase 1.9 percent and 1.6 percent in fiscal year 2015 and 2016, respectively.

The U.S. labor market weakness of recent years has constrained growth in wages and salaries—both in terms of total overall wages and salaries and in terms of average earnings. It is expected that as employment continues to grow and the economy gets closer to its natural rate of unemployment, increased wages and salaries will follow.

The average annual growth of wages has been 5.9 percent for periods of economic expansion during the last 30 years. Wages are expected to increase at a somewhat slower rate of 4.6 percent and 5.2 percent during fiscal years 2015 and 2016, respectively.⁵

National retail sales grew much faster than wages in recent years, possibly due to pent-up consumer demand built up during the “Great Recession.” Consumer spending is expected to increase in the current and upcoming fiscal year thanks to the improvement in employment. Consumer spending in the non-energy sectors can expect to see continued gains as long as gas prices continue to

be suppressed. Retail sales are projected to increase 3.9 percent and 4.2 percent in fiscal years 2015 and 2016, respectively. This growth is, however, below the average annual growth of 5.7 percent for periods of economic expansion during the last 20 years.

The forecast for the Consumer Price Index for All Urban Consumers (CPI-U) is an increase of 1.2 and 1.3 percent during fiscal years 2015 and 2016, respectively. CPI-U minus volatile food and energy prices – a measure of core inflation – is expected to increase 1.8 percent and 2.1 percent in fiscal years 2015 and 2016, respectively. The FOMC expects inflation to rise toward 2 percent as labor markets tighten and the effects of lower energy prices dissipate. However, The FOMC further has indicated that, given the uncertainties about the outlook for inflation, it will continue to monitor inflation developments closely.⁶

In the housing market, the worst is behind us but improvements have and will continue to accrue slowly. According to the National Association of Realtors, the median sales price of existing single-family homes is \$205,300 as of November 2014. This represents a 5.0 percent increase over November 2013.⁷ This median price is, however, still below the pre-recession price peak.

Sales of new single-family homes are increasing and are projected to grow 7.8 percent and 15.3 percent in fiscal years 2015 and 2016, respectively. The National Association of Realtors reports total existing home sales are at a seasonally adjusted annual rate of 4.93 million units (November 2014).⁸ This level is a 2.1 percent increase over November 2013 sales.

There is strong evidence that the real estate recovery is gaining momentum. Housing starts are forecast to increase 14.9 and 16.4 percent in fiscal years 2015 and 2016, respectively. More optimistic forecasts anticipate gains in excess of 20 percent in fiscal year 2015 and 40 percent in fiscal year 2016.⁹

Economic Outlook And Revenue Forecast

The Illinois Economy

Illinois employment was impacted particularly hard during the recent recession. The state's employment figures fell further than the national numbers, and they have been slower to recover. The persistently high unemployment rate observed in the state has been a reflection of this labor market weakness. More recently, however, Illinois employment growth has accelerated and consequently the unemployment rate has started to decline.

According to data from the Bureau of Labor Statistics and the Illinois Department of Employment Security (IDES), as of November of 2014, the Illinois unemployment rate was 6.4 percent.¹⁰ This rate is the lowest recorded since June 2008 and 1.6 percentage points lower than in November 2013. The lowest metro area unemployment rates are 5.6 percent in Bloomington-Normal and 5.7 percent in the Chicago-Joliet-Naperville metro area. The highest unemployment metro areas are Rockford and Danville at 8.1 percent each. Looking forward, the state's unemployment rate is forecast to be at 6.5 and 6.7 percent in fiscal years 2015 and 2016, respectively.

State job growth has continued with modest gains in recent years. Between January 2010 and November 2014, the state economy has added

298,700 private sector jobs, according to IDES.¹¹ Notwithstanding these consistent but moderate jobs gains, Illinois employment is still below its pre-recession employment level. Illinois total non-farm employment dropped from almost 6 million in fiscal year 2008, to about 5.6 million in fiscal year 2010. According to the BLS, in fiscal year 2014 total non-farm payroll was slightly above 5.8 million jobs in Illinois. In terms of growth, employment in fiscal year 2014 increased 0.6 percent and is forecast to increase 1.0 and 1.2 percent in fiscal years 2015 and 2016, respectively. Based on these projections, Illinois will return to its pre-recession employment level in fiscal year 2016.¹²

As in past years, the most important contributor to employment growth in the state will continue to be the professional and business services sector. Education and health services are also expected to be significant contributors while manufacturing will continue to show lackluster growth.

The post-recession growth of wages and salaries has been below historical average and is expected to continue this below average trend during the forecast period. This is due to the modest improvement in the state's labor market in terms of number of jobs and also due to the fact that a significant portion of the jobs created are in low wage sectors.

¹¹ Illinois Department of Employment Security, November 2014. Seasonally adjusted data.

¹² IHS Economics, baseline employment forecast as of November 2014.

¹⁰ Illinois Department of Employment Security. Bureau of Labor Statistics. November 2014. Seasonally adjusted data.

Economic Outlook And Revenue Forecast

As the chart above illustrates, the outlook for wages and salaries for fiscal year 2016 and the remainder of fiscal year 2015 is better than recent years. Wages and salaries disbursement is forecast to increase 4.6 percent and 4.2 percent in fiscal year 2015 and 2016, respectively. These gains in wages and salaries become more feasible as the labor market tightens with healthy employment growth.

Wages and salaries in Illinois, as the main component of personal income, is expected to also increase in the forecast horizon. IHS Economics calls for personal income to increase 3.5 and 3.8 percent, respectively, in fiscal years 2015 and 2016.¹³ In recent years, non-wage income has contributed significantly to the growth of personal income. Looking forward, however, this effect is expected to decrease as the outstanding performance of the stock market is not expected to repeat.

Retail sales will continue to grow below its historical average of greater than 5 percent. However, there are a number of factors that will boost retail sales the rest of fiscal year 2015 and through 2016. First, employment has been increasing and is expected to continue increasing in the forecast horizon. Also, the recent decline in gasoline prices is giving the consumer sector an additional stimulus, along with an improving housing market and interest rates which are expected to continue at historical lows beyond

2015. In summary, the factors hindering retail sales growth in recent years are indeed diminishing.

According to the November 2014 data release from *IHS Economics*, Illinois retail sales increased 3.5 percent in fiscal year 2014 and are expected to increase 2.8 and 3.1 percent in fiscal years 2015 and 2016, respectively.

The Illinois housing market will continue the steady improvement shown in recent years. New single family homes sales are forecast to increase 7.8 and 15.3 percent in fiscal years 2015 and 2016, respectively. This compares positively to the 1.9 percent registered in fiscal year 2014.¹⁴ According to CoreLogic, a real estate market research firm, Illinois experienced a year over year sale price increase of 3.6 percent for November 2014.¹⁵ Prices, however, are still significantly below the 2006 peak. The housing market improvement continues to be slowed down by homes in negative equity, according to the same source. Illinois also has a much higher percentage of foreclosed homes than the national average, a factor that severely hinders the recovery.

¹³ IHS Economics, baseline forecast, December 2014.

Economic Outlook And Revenue Forecast

Assumptions and Risks to Forecasts

There are several important forecast risks to consider. Some of these risks could have a negative impact on state revenue sources should they occur. These risks are, but are not limited to, the following:

The main risk to forecast relates to monetary policy. In particular, the programmed increase of interest rates announced by the Federal Reserve Bank for mid-2015. This in turn may hurt the housing sector and business investment. If the Federal Reserve increases interest rates too aggressively, the current recovery will likely be hampered. If the program is scaled too late or timidly, it may promote inflation. The underlying assumption is for prudent monetary policy to continue into fiscal years 2015 and 2016.

The fragile economic situation of the euro zone, which faces the real possibility of recession, represents an important downside risk. This group of countries is the main trade partner to the U.S. and their respective financial systems are highly linked. The high levels of unemployment and poor economic performance of the countries in the euro zone is not restricted to the periphery anymore.

Moreover, there is some risk that China's economic deceleration may affect the rest of the world economy. The likelihood of this scenario depends on the capacity of the Chinese government to solve important domestic imbalances.

The recent fall in oil prices may also have negative implications. This price fall has depressed the economic position of a number of oil exporters. The geopolitical risks to forecast are significant. As their economies face a deteriorated economic outlook, several large economies, such as Russia, Iran, Venezuela, etc, are expected to face political and economic unrest.

On the domestic front, in spite of the good news lower oil prices have brought to consumers' pockets, it may have undesired effects. The energy sector may be negatively affected as some of the energy businesses are not profitable at current oil price levels. States that have been driving the current economic recovery may not continue to do so.

Furthermore, the social, religious and political turmoil in the Middle East will continue. The threat of terrorism in Europe and the United States is real and may affect trade, tourism and economic growth. Also, despite recent positive developments, Iran and North Korea's nuclear ambitions are still pending.

Economic Outlook And Revenue Forecast

State Tax Performance and Policy Changes

Tax Performance

Nationwide, state tax revenues continued to grow in fiscal year 2014, albeit at a much slower pace than in fiscal year 2013. General fund revenues in fiscal year 2014 saw a gain of approximately 1.3 percent, significantly lower than the 5.7 percent increase in fiscal year 2013.¹⁶ However, much of the revenue growth in fiscal year 2013 was attributed to a one-time gain resulting from taxpayers shifting income to the 2012 calendar year to take advantage of lower federal tax rates. Thus, the lower growth in fiscal year 2014 was anticipated as state tax revenues moved to normalize. Based on enacted fiscal year 2015 budgets, general fund revenues are projected to increase by 3.1 percent over fiscal year 2014 general fund revenues.¹⁷

According to the Nelson A. Rockefeller Institute of Government, growth in major tax revenue categories (personal income, corporate income, and sales) varied among regions. Although most regions saw some growth in total tax revenue between fiscal years 2013 and 2014, the Great Lakes region (Illinois, Indiana, Michigan, Ohio and Wisconsin) was unique in that it saw a slight decline in revenue of 0.1 percent. Within the Great Lakes region, Illinois was the only state to see growth in total tax revenue in these categories at 1.2 percent. Illinois' growth was largely driven by a 4.4 percent increase in sales tax revenue. The largest growth in total tax revenue—3.8 percent between fiscal years 2013 and 2014—occurred in the Southwest region (Arizona, New Mexico, Oklahoma and Texas). An increase in sales tax revenue of 5.0 percent in Texas was responsible for much of the growth in the region.¹⁸

Key Policy Changes and Proposals

In fiscal year 2015, states nationwide enacted tax and fee reductions worth an estimated \$2.3 billion. Notwithstanding these changes, tax collections are projected to rise by 3.1 percent for the same period. This follows a reduction in taxes and fees of \$2.1 billion in fiscal year 2014.¹⁹ According to the National Association of State Budget Officers (NASBO), two consecutive years of tax cuts may indicate that many states are confident that revenue will remain stable as the economic recovery continues. However, most of the tax cuts have been fairly modest, indicating that states appear to be proceeding with caution.

For fiscal year 2015, one state, Oregon, enacted a personal income tax increase while 14 states enacted personal income tax decreases, resulting in a net decrease in collections of \$747 million. Also contributing to the overall tax and fee reductions are revenue changes that will decrease collections from sales and corporate income taxes by \$247.6 million and \$207.3 million, respectively.²⁰ A substantial portion of the sales tax reduction was the result of sales tax repeals and exemptions in Minnesota and sales tax holidays and exemptions in Florida. The corporate income tax reduction was largely due to corporate income tax reforms in New York. Among those reforms are changes that will drop New York's corporate tax rate to its lowest level in over 40 years.²¹

Economic Outlook And Revenue Forecast

REVENUE FORECASTS: FISCAL YEAR 2015 REVISED AND FISCAL YEAR 2016

Economically sensitive revenues, such as individual income tax, corporate income tax and sales tax are estimated using econometric models. Other revenue sources, such as utility taxes, cigarette taxes and user fees, are not significantly affected by economic changes and are fairly stable from year to year. Time series analysis is used to forecast revenue streams that are not significantly impacted by economic trends. Final budget forecasts for tax revenues are developed from information obtained through a variety of sources, including:

- **National economic consulting firms.** The state uses *Moody's Analytics* and *IHS Economics* to provide current national, regional and Illinois data, to analyze historical economic trends, monitor current economic conditions and develop forecasts of key economic indicators.
- **State Agencies:**
 - **Department of Revenue (DOR).** DOR forecasts corporate and individual income taxes, sales taxes, utility taxes and gaming taxes, among others. In developing forecasts for these sources, DOR analyzes economic trends, draws upon historical revenue data and develops econometric models.
 - **Department of Employment Security (IDES).** IDES analyzes and interprets Illinois labor market conditions in the context of national economic trends. IDES provides employment and wage data for the econometric models that are used to forecast Illinois revenues, particularly individual income tax and sales taxes.
 - **Governor's Office of Management and Budget (GOMB).** GOMB analyzes and reviews economic indicators, interprets economic forecasts and tracks state revenues. Major sources of revenues are tracked on a daily, monthly and quarterly basis to provide timely information on the state's financial monitoring position.

Revenue Estimation Methodology

The state uses several different steps when developing revenue forecasts:

- **Data Collection.** Monthly and quarterly historical revenue data is obtained from a number of sources, including State of Illinois Comptroller records and DOR tax collection records. When possible, any one-time source of revenue is removed from the revenue stream for analysis purposes.
- **Econometric Modeling.** Econometric modeling is used to establish statistically significant relationships between economically sensitive revenue streams and various economic indicators. Several econometric models have been developed for major economically sensitive revenues, and the results from all models are regularly reviewed.
- **Evaluation of Models' Results.** The econometric models are evaluated for their ability to make accurate predictions. These statistical tests identify the strength of the relationship between variables and the econometric model's ability to make accurate predictions.
- **Review of Forecast Economic Indicators.** The national economic forecasting firms, *Moody's Analytics* and *IHS Economics*, develop forecasts for core economic variables. These forecasts are reviewed by the Governor's Council of Economic Advisors (CEA), GOMB, DOR and IDES.
- **Consensus of Forecast Indicators.** Reviews and group discussions result in a consensus of future expectations for key economic indicators.
- **Quantitative Forecasts of Revenues.** Forecast indicators are then used as inputs in the econometric models used to forecast the major tax revenues.

Economic Outlook And Revenue Forecast

Individual Income Taxes

Individual Income Taxes					
(\$ millions)					
Overview: Effective January 1, 2015, the State taxes individual net income at 3.75 percent. The starting point for the Illinois Individual Income Tax (IIT) is federal adjusted gross income, which taxpayers then modify by adding back certain items and subtracting out others.					
Recent Changes: The personal exemption increases from \$2,125 to \$2,175 in Tax Year 2015. The Earned Income Credit (EIC) remains at 10 percent in Tax Year 2015.					
	FY12	FY13	FY14	FY15 Estimate	FY16 Forecast
Gross Receipts (3 percent tax rate)	\$10,059	\$10,994	\$11,033	\$10,196	\$11,715
Gross Receipts from rate increase*	\$6,941	\$7,330	\$7,355	\$6,797	\$2,929
Total Gross receipts	\$17,000	\$18,324	\$18,388	\$16,993	\$14,644
Refund Fund Deposit	(\$1,488)	(\$1,785)	(\$1,746)	(\$1,699)	(\$1,464)
Refund Fund Percent	8.75%	9.75%	9.50%	10.00%	10.00%
Net Receipts after Refund Fund deposits	\$15,513	\$16,539	\$16,642	\$15,294	\$13,180
Deposits into Special Revenue Funds**	N/A	N/A	N/A	(\$450)	\$0
Net Receipts after special revenue funds deposits	\$15,513	\$16,539	\$16,642	\$14,845	\$13,180
*2 percent increase between January 1, 2011 and December 31, 2014, 0.75 percent starting January 1, 2015. The split between the 3.0 percent rate and the rate increase amounts is estimated.					
**Starting February 1, 2015, the State deposits 1/30 th of net receipts after refund fund deposits into both the Fund for the Advancement of Education and the Commitment to Human Services Fund, for fiscal year 2015 only.					

Individual income tax (IIT) receipts have two main components: withholdings and non-withholdings. Withholdings are driven by wages and salaries and tend to vary with the economic cycle. On average, they account for approximately 80 percent of total IIT receipts. Non-withholding receipts are driven by capital gains realizations, dividends, interest, rents and other variable income streams.

Fiscal year 2015 year to date gross IIT receipts are estimated to meet the original forecast of \$16,993 million. This is \$1,395 million, or 7.6, percent lower than the fiscal year 2014 gross receipts. Receipts declined in fiscal year 2015 because tax collections in the second half of the fiscal year are based on the lower tax rate of 3.75 percent.

There are some additional non-economic factors that affect IIT receipts for fiscal year 2015. First, final payments made in the spring of 2015 are still based on the 5 percent tax rate. This means that not all collections in the second half of fiscal year 2015 are based on the 3.75% rate. Second, changes to the pass-through entity withholding vouchers will result in an increase of \$125 million of IIT receipts from estates and trusts which used to be counted as corporate income taxes. This effect is carried through to fiscal year 2016. Finally, the deposits into the newly created Fund for the Advancement of Education and the Commitment to Human Services Fund will have a negative impact estimated of \$450 million in fiscal year 2015.

Net revenues after deposits into the Refund Fund and the two special revenue funds are projected to decrease from \$16,642 million in fiscal year 2014 to \$14,845 million for fiscal year 2015. This change represents a reduction of 10.8 percent or \$1,799 million from fiscal year 2014.

Fiscal year 2016 gross IIT receipts are forecast to decrease 13.8 percent or \$2,349 million compared to fiscal year 2015. The revenue decline is primarily explained by the IIT reduction from 5 percent to 3.75 percent effective January 1, 2015. Fiscal year 2016 will be the first full fiscal year that collections will be at this lower rate. Projected economic growth offsets in part the effect of the tax rate decrease.

Other tax policy changes affecting fiscal year 2016 include the State increasing the personal exemption (PE) to \$2,175 in Tax Year 2015. After accounting for refund fund deposits and tax provision changes, IIT net receipts are expected to decrease 11.2 percent or \$1,664 million with respect to fiscal year 2015.

Economic Outlook And Revenue Forecast

Corporate Income Taxes

Corporate Income Taxes (\$ millions)

Overview: The Corporate Income Tax (CIT) was a 7.0 percent tax on the net income of corporations; on January 1, 2015 this rate declined to 5.25 percent. The CIT is calculated by taking a taxpayer's federal taxable income and modifying it by adding certain items of income and subtracting out others and then by applying a sales factor to apportion the taxpayer's income.

The Personal Property Replacement Tax (PPRT) is an additional 2.5 percent tax on corporate net income that is dedicated to local governments. The PPRT is not included in this forecast.

	FY12	FY13	FY14	FY 15 Estimate	FY 16 Forecast
Gross Receipts - 4.8 percent rate	\$2,045	\$2,523	\$2,496	\$2,300	\$2,560
Gross Receipts from rate increase*	\$938	\$1,156	\$1,144	\$800	\$240
Total Gross Receipts	\$2,983	\$3,679	\$3,640	\$3,100	\$2,800
Refund Fund Deposit	\$522 17.5%	\$502 14.0%	\$476 13.4%	\$434 14.0%	\$462 16.5%
Deposits into Special Revenue Funds**	\$0	\$0	\$0	\$2	\$0
General Funds Revenue	\$2,461	\$3,177	\$3,164	\$2,664	\$2,338

*2.2 percent increase between January 1, 2011 and December 31, 2014, 0.45 percent starting January 1, 2015. The split between the 4.8 percent rate and the rate increase amounts is estimated.

**Starting February 1, 2015 1/30th of net receipts from estates and trusts is deposited into both the Fund for the Advancement of Education and the Commitment to Human Services Fund, for fiscal year 2015 only.

Key Assumptions: Corporate profits will rebound to the pre-2014 levels and grow slowly afterwards. Firms will make timely adjustments to estimated payments in response to the 5.25 percent tax rate in effect on January 1, 2015.

The fiscal year 2015 forecast for CIT is revised down, from \$3,575 million to \$3,100 million, a decrease of \$475 million in gross revenues. Gross receipts year to date have shrunk 14.2 percent compared with the prior year. Fiscal year 2014 receipts totaled \$3,640 million and were showing strong signs of growth until the final quarter of the fiscal year when receipts shrank 15.2 percent year over year, leading to a modest decline for the fiscal year as a whole.

Receipts have continued to decline year over year during fiscal year 2015. This downturn, coupled with the falling tax rate and the lifting of the cap on Net Operating Losses, means that CIT revenues will continue to decline.

Illinois is not alone in experiencing a decline in its CIT. Other states with similar CITs have experienced this slowdown as well. According to

the Federation of Tax Administrators CITs nationally have performed poorly recently²². For the 12-month period ending in November 2014, the average state CIT shrank 1.2 percent compared to the same period in the prior year.

The expiration of the \$100,000 cap on Illinois Net Operating Loss deductions (NOLs) hurt performance as well. NOLs allow taxpayers to use losses accrued in prior periods to offset gains in the current period. The use of NOLs was capped at \$100,000 for CIT taxpayers in recent years. The cap was lifted for tax years ending on or after December 31, 2014, and is most likely reflected in businesses' estimated payments in fiscal year 2015.

Net of refunds and special funds, the fiscal year 2015 estimate for CIT is \$2,664 million.

The fiscal year 2016 gross CIT forecast is \$300 million lower than the fiscal year 2015 estimate. While corporate profits are expected to continue to grow and business conditions to be stable during fiscal year 2016, there will be a major impact reducing the CIT; businesses will make all of their estimated and final payments at the 5.25 percent rate in fiscal year 2016, as opposed to fiscal year 2015 where only the April and June estimated payments will be made at the lower rate.

Net of refunds, the fiscal year 2016 forecast for CIT is \$2,338 million, down \$326 million from fiscal year 2015.

²² Ohio, Texas, and Washington all have business taxes that are significantly different from Illinois' corporate income tax and were thus excluded. During this time, Michigan made a significant transition from their business tax to a corporate income tax and was excluded from the analysis as well.

Economic Outlook And Revenue Forecast

Sales and Use Tax

Sales and Use Tax (\$ millions)					
Overview: Sales of non-exempt tangible personal property are taxed at a general rate of 6.25 percent of the purchase price. The state keeps 5 percent of the purchase price and distributes 1.25 percent of the purchase price to local governments. Of state sales and use tax receipts (excluding receipts from sales of candy, soft drinks, and certain grooming and hygiene products and from sales of sorbents), 5.55 percent are deposited into the Build Illinois Fund. Then the Metropolitan Pier and Exposition Authority receives a portion of receipts. The remainder is deposited into the state's general revenue funds. Some receipts are then transferred into the Public Transportation and the Downstate Public Transportation funds. The state sales and use tax receipts from certain sales of candy, soft drinks, and select grooming and hygiene products are deposited into the Capital Projects Fund. The dollar totals below are for the general revenue funds only.					
	FY12	FY13	FY14	FY15 Estimate	FY16 Forecast
General Funds Revenue	\$7,226	\$7,354	\$7,676	\$7,950	\$8,204

Sales and use tax revenue is analyzed and forecast by dividing it into two components: motor vehicle sales and all other taxable retail sales.

Motor vehicle sales, which generated 15 percent of state sales and use tax revenue in fiscal year 2014, will have strong growth through fiscal year 2016. Many drivers have been keeping vehicles longer, not only for economic reasons, but also because improved engineering helps cars last longer. The average age of light vehicles in the United States remains near its record high of about 11 years.²³ The need to replace aging vehicles will continue to drive demand. In addition, record-low interest rates have lowered the cost of auto financing, making it a good time to buy or lease. The finance rate on consumer installment loans at commercial banks (48-month loan for a new automobile) has fluctuated between 4 percent and 5 percent for the last few years. These are among the lowest rates of the last forty years, during which time the average rate was nearly double at approximately 9.7 percent. Growth will slow into 2016 as some of the demand for replacement vehicles dissipates and as interest rates increase slightly. Sales and use tax revenue from motor vehicle sales is expected to increase 8.0 percent in fiscal year 2015 and 5.0 percent in fiscal year 2016.

The “all other” category includes, among other goods, sales of appliances, apparel, electronics, building materials, furniture and restaurant meals. Motor fuels are also included and receive special attention in our forecasts because of their tendency to fluctuate in price much more than other taxable goods. Motor fuel prices are expected to decline substantially over the forecast period—down 29 percent in fiscal year 2015 and down another 5 percent in fiscal year 2016—as increased global oil production outpaces demand. Relief at the pump will positively contribute to consumer sentiment and non-fuel consumer spending by leaving more disposable income in consumers’ pockets. The U.S. Energy Information Administration is projecting that U.S. household gasoline expenditures in 2015 will be the lowest in 11 years.²⁴

Looking at the broader economy, the story is very similar to last year. Moderate growth in employment and wages will continue to support growth in taxable retail sales. The Illinois housing market will continue to improve, with forecasts showing both higher prices for existing homes and higher sales volumes over the budget period. Higher prices help improve household balance sheets weakened during the last recession. This positively affects consumer confidence and makes consumers more willing to spend. At the same time, higher sales volumes help increase consumption of all things tied to home purchases, such as building materials, furnishings and appliances.

Taxable sales in the “all other” category are expected to increase 2.8 percent and 2.9 percent in fiscal years 2015 and 2016, respectively.

State sales and use tax revenue is projected to be \$7,950 million in fiscal year 2015, or 3.6 percent over fiscal year 2014. The forecast for fiscal year 2016 is \$8,204 million, or 3.2 percent over fiscal year 2015.

Economic Outlook And Revenue Forecast

Public Utility Taxes

Public Utility Taxes (\$ millions)					
Overview: The Telecommunications Excise Tax is a 7 percent tax on gross charges by businesses for transmitting messages. The Electricity Excise Tax is levied on a user's kilowatt-hours of electricity consumption or purchase price, depending on several factors. The Natural Gas and Natural Gas Use Taxes are levied on the distribution or sale of natural gas for use in Illinois. The rate is the lesser of 2.4 cents per therm or 5 percent of gross revenue from each customer. The revenues forecasted are the general revenue funds receipts for each tax.					
	FY12	FY13	FY14	FY15 Estimate	FY16 Forecast
Telecom- munications	\$460	\$491	\$422	\$444	\$435
Electricity	\$390	\$398	\$402	\$403	\$405
Natural Gas	\$145	\$144	\$188	\$168	\$168
DCEO Utility Tax redirect	\$0	\$0	\$0	\$0	\$175
Total	\$995	\$1,033	\$1,013	\$1,015	\$1,183
Key Assumptions: Telecommunications tax receipts will decline due to declining landline usage and increased use of nontaxable services. Electricity tax receipts will grow very slowly. Natural gas tax receipts will be flat and the weather will be normal in the coming years.					

Telecommunications Excise Tax

The Telecommunications Excise Tax estimate for fiscal year 2015 is \$444 million, \$22 million higher than the \$422 million received in fiscal year 2014. The projected increase in fiscal year 2015 stems from one-time factors affecting fiscal year 2014 - the use of \$35 million in credit memos related to payments made in prior years for telecom charges that were not taxable under Illinois law. Despite this short term increase, the long-term trend for the Telecommunications Excise Tax is still downward.

The fiscal year 2016 forecast for the telecommunications excise tax is \$435 million, a decrease of 2.0 percent from the fiscal year 2015 level. Illinois consumers continue to abandon landlines and switch to cell phones and nontaxable telecommunications services. Reduced spending on landline services will continue to put downward pressure on receipts, and federal restrictions on taxing most wireless data services limit the possibility of future growth. According to the Centers for Disease Control, in 2013 40.8 percent of Illinois adults lived in a household that does not have a landline, an increase from 38.0 percent in 2012.

Electricity Excise Tax

The forecast for fiscal year 2015 is \$403 million, revised down from \$413 million. The downward revision comes as a result of lower than expected growth in fiscal year 2014 as well as poor performance experienced year to date in fiscal year 2015. Receipts through December have come in below expectation, and are 2.2 percent lower than receipts for the same period last year. The fiscal year 2016 forecast represents a slight increase over fiscal year 2015, to \$405 million. Electricity Excise Tax receipts depend largely on the consumption of electricity in Illinois, which is projected to grow slowly in fiscal year 2015 and fiscal year 2016 as household formation remains slow in Illinois and consumers and businesses take advantage of energy efficient technologies.

Natural Gas and Gas Use Taxes

Fiscal year 2015 Natural Gas receipts are coming in 7.0 percent above forecast year to date. Given that we expect 75.0 percent of natural gas receipts to come in during the second half of the fiscal year a revision is unwarranted and the forecast for Natural Gas remains \$168 million. The unusually cold weather experienced in Illinois between January and March of 2014 resulted in very high receipts of \$188 million in fiscal year 2014, performance that we do not expect to carry into fiscal year 2015 or 2016. The forecast for fiscal year 2016 is also \$168 million, which assumes a normal year weather-wise in Illinois and flat growth in natural gas consumption.

DCEO Utility Tax redirect

Beginning in fiscal year 2016, an estimate of \$175 million in tax receipts for various utility taxes and charges will be deposited in the General Revenue Fund. These existing revenue sources have been deposited into other state funds in prior fiscal years for the Department of Commerce and Economic Opportunity (DCEO) to administer various coal and energy programs. The funding for these specific DCEO programs is recommended to be discontinued in the fiscal year 2016 budget.

The following provides the state funds and associated tax sources for deposits of receipts prior to fiscal year 2016:

Economic Outlook And Revenue Forecast

- Supplemental Low-Income Energy Assistance Fund – Energy Assistance Charge per the Energy Assistance Act of 1989;
- Coal Technology Development Assistance Fund – 1/64 of the revenue realized from the Electricity Excise Tax and 50% of the money collected from the Renewable Energy Resources and Coal Development Assistance Charge per the Renewable Energy, Energy Efficiency, and Coal Resources Development Law of 1997;
- Renewable Energy Resources Trust Fund - 50% of the money collected from the Renewable Energy Resources and Coal Development Assistance Charge per the Renewable Energy, Energy Efficiency, and Coal Resources Development Law of 1997; and
- Energy Efficiency Portfolio Standards Fund – the estimated receipts for fiscal year 2016 will be set equal to the actual deposits into this fund in fiscal year 2015.

Cigarette and Other Tobacco Products Taxes

Cigarette and Other Tobacco Products Taxes (\$ millions)					
<p>Overview: The state taxes cigarettes at a rate of \$1.98 per pack, and tobacco products are taxed at a rate of 36% of the wholesale price. Moist snuff is taxed at a rate of 30 cents per ounce.</p> <p>The state deposits receipts from the Cigarette Tax and Cigarette Use Tax into the Healthcare Provider Relief Fund, General Funds, the School Infrastructure Fund and the Long-Term Care Provider Fund according to a formula set by statute.</p> <p>The state deposits receipts from the Other Tobacco Products Tax into the Healthcare Provider Relief Fund and the Long-Term Care Provider Fund.</p>					
	FY12	FY13	FY14	FY15 Estimate	FY16 Forecast
General Funds Revenue	\$354	\$353	\$353	\$355	\$355
Total Cigarette Revenue	\$577	\$813	\$824	\$819	\$803
Other Tobacco Products	\$29	\$43	\$38	\$40	\$42
<p>Key Assumptions: The forecast period for the Cigarette Tax assumes two percent of smokers successfully quitting.</p>					

Revenue from the Cigarette and Other Tobacco Products Taxes is a function of state-level sales of taxable products. Sales of products in Illinois reflect a number of variables. Among these are the size of the smoking population, average individual consumption of cigarette and tobacco products, rates of cessation, public smoking bans, federal

excise taxes and the difference between the tax rate in Illinois and in neighboring states.

Extrapolation of trends in smoking population and product consumption are used to arrive at revenue forecasts. These forecasts account for the impact of substitution of tobacco products, the increasing use of electronic nicotine delivery systems like e – cigarettes and vape pens and the smuggling of contraband cigarettes. For the Cigarette Tax, the estimate for fiscal year 2015 is \$819 million and the forecast for fiscal year 2016 is \$803 million. For the Other Tobacco Products Tax the estimate for fiscal year 2015 is \$40 million and the forecast for fiscal year 2016 is \$42 million.

Estate Tax

Estate Tax (\$ millions)					
<p>Overview: Public Act 97-0636, enacted on December 16, 2011, increased the estate-tax exemption from \$2.0 million to \$3.5 million for people who died in calendar year 2012. The exemption became \$4.0 million effective January 1, 2013.</p> <p>Public Act 97-0732, enacted on June 30, 2012, provided that the payment of the tax after July 1, 2012, be made directly to the State Treasurer instead of to the county treasurer of the county in which the decedent resided. Since July 1, 2012, the State deposits 94% of the tax receipts into the General Revenue Fund, and 6% into the Estate Tax Refund Fund to refund overpayments.</p>					
	FY12	FY13	FY14	FY15 Estimate	FY16 Forecast
General Fund Revenue	\$235	\$293	\$276	\$275	\$275
All Funds	\$235	\$309	\$294	\$293	\$293
<p>Key Assumptions: The forecast assumes that the estate tax will be collected primarily from taxable estates in excess of \$4 million in FY2016 and they are comparable in number and average size to those in FY2015 and FY2014.</p>					

Illinois imposes the estate tax on the transfer of the taxable estate of a deceased person before the distribution to heirs. If an asset is left to a spouse or a federally recognized charity, the tax usually does not apply; only the amount of an estate that passes to persons other than the surviving spouse is taxed.

The starting point in the calculation is the gross estate, which includes not only all the property interests of the decedent but also the value of certain items or property that the decedent jointly owned or transferred during the three years preceding the date of death.

To calculate the taxable estate, the law allows various deductions from the gross estate such as funeral expenses, claims against the estate, and

Economic Outlook And Revenue Forecast

charitable contributions. The exemption applies after these deductions are taken from the gross estate. The current exemption is \$4 million, and the taxable estate in excess of \$4 million is the basis for the calculation of the estate-tax payment.

Forecasts for fiscal year 2015 and fiscal year 2016 are based on three factors: the number of taxable estates worth over \$4 million that do not pass to spouses or charity, the average tax payment by estates and the year of death. When the taxable estate is larger, the estate tax rate and the resulting payments will be higher. The year of death determines the exclusion amount and the date determines the payment due date. Although the estate tax is due nine months after death, in many instances, estates often take more than nine months between a death and the final estate tax payment.

The estate tax revenues for fiscal year 2015 represent mostly deaths that occurred in years that the \$4 million exemption has been in place. Like last year, the first half of fiscal year 2015 saw revenues far in excess of budgeted expectations. Given that the exemption level is now fixed at \$4 million dollars and that year-over-year performance of the source is returning to levels seen before fiscal year 2010, fiscal year 2015 revenues are revised up to \$275 million, exceeding the budgeted level of \$202 million by \$73 million.

Fiscal year 2016 is expected to perform similarly to fiscal year 2015. However, the estate tax can fluctuate irregularly without warning, so no growth assumption is built into the fiscal year 2016 forecast of \$275 million.

Liquor Taxes

Liquor Taxes (\$ millions)					
Overview: Businesses that make or distribute alcoholic beverages within Illinois pay liquor taxes based on the volume and alcohol content of these beverages. Liquor taxes include assessments of 18.5 cents per gallon of beer or cider, 73 cents per gallon of wine, and \$4.50 per gallon of hard liquor. Additional state liquor tax rates apply, but revenue from these additional rates is earmarked for capital projects and is not included in the forecast totals or discussion below.					
	FY12	FY13	FY14	FY15 Estimate	FY16 Forecast
General Revenue	\$164	\$165	\$165	\$167	\$168

Liquor tax is an excise tax levied on the gallons sold rather than on the price of alcohol, so the revenue yield is relatively stable from year to year. Alcohol consumption tends not to change much over the short-term, generally increasing slowly as the population increases.

In fiscal year 2014, liquor tax revenue decreased 0.2 percent from the previous fiscal year. Looking at the revenue composition by type of alcohol in fiscal year 2014, hard liquor generated 55 percent of liquor tax revenue, beer and cider together generated 30 percent, and wine generated 15 percent. Liquor tax revenue for fiscal year 2015 is estimated at \$167 million. The forecast for fiscal year 2016 is \$168 million.

Economic Outlook And Revenue Forecast

Insurance Taxes and Fees

Insurance Taxes and Fees (\$ millions)					
Overview: The Privilege Tax and the Retaliatory Tax are the most significant components of Illinois' insurance taxes. Both foreign and domestic insurance companies are liable for the tax. If another state charges Illinois insurance companies fees in excess of taxes and fees paid to Illinois, then Illinois imposes a retaliatory tax on non-Illinois insurance companies from those states. The General Revenue Fund (GRF) includes a small amount of revenue from fines and penalties.					
	FY12	FY13	FY14	FY15 Estimate	FY16 Forecast
General Revenue Fund	\$316	\$334	\$333	\$325	\$340
Total Revenue	\$417	\$448	\$458	\$424	\$460
Key Assumptions: Privilege and retaliatory tax receipts are expected to be remitted at the historic average.					

Receipts to the General Revenue Fund are composed largely of privilege, retaliatory and surplus line taxes. Various fines, penalties and interest payments are also deposited into GRF. Receipts from the various components of the insurance tax are expected to come in near the historic average.

Corporate Franchise Tax and Fees

Corporate Franchise Taxes and Fees (\$ millions)					
Overview: Illinois collects franchise taxes from corporations in the amount of 0.15 percent of paid-in capital when beginning business in the state, an additional 0.15 percent of any increase in paid-in capital during the year and an annual tax of 0.10 percent of paid-in capital. The state levies fees for filing an annual report, articles of incorporation, amendment, merger, consolidation or dissolution. Two percent of the revenues collected from these sources are deposited into the Corporate Franchise Tax Refund Fund.					
	FY12	FY13	FY14	FY15 Estimate	FY16 Forecast
Corporate Division - General Revenue Fund	\$192	\$205	\$203	\$201	\$201
Key Assumptions: Corporate division revenue is forecast to experience a slight decline in fiscal year 2015 and remain flat in fiscal year 2016.					

Each year a very small decline is experienced in the corporate franchise tax and associated revenue. This trend is being driven by relatively fewer firms registering as C-corporation with the Secretary of State. Fiscal year 2012 receipts were below trend for no discernible reason, however, fiscal year 2013 and fiscal year 2014 receipts returned to the historic trend. Franchise tax revenue and associated corporate division revenue for fiscal years 2015 and 2016 are forecast at \$201 million.

Investment Income

Investment Income (\$ millions)					
Overview: Many state funds invested by the state treasurer earn income on their cash balances from investments, such as repurchase agreements, commercial paper, time deposits and certificates of deposit. This income is deposited into general funds and other specified funds based on each fund's pro-rated share of the total balance of all invested funds, or by specific statutory direction. The general funds receive the largest share of investment income.					
	FY12	FY13	FY14	FY15 Estimate	FY16 Forecast
Revenue	\$21	\$20	\$20	\$17	\$17
Key Assumptions: Investment income started declining in fiscal year 2009 as a result of reductions to short term interest rates taken by the Federal Reserve Bank to spur the national economy. Interest remains flat from fiscal year 2015 to fiscal year 2016.					

Cook County IGT

Cook County Intergovernmental Transfer (IGT) (\$ millions)					
Overview: The state receives a portion of federal Medicaid reimbursements paid to Cook County Hospital through an intergovernmental agreement. The agreement is designed to capture additional federal reimbursement by allowing the state to claim the maximum rates for Medicaid patients at the hospital.					
	FY12	FY13	FY14	FY15 Estimate	FY16 Forecast
Revenue	\$244	\$244	\$244	\$244	\$244
Key Assumptions: The reimbursements the state receives from the intergovernmental agreement will remain the same through fiscal year 2016 as a result of federal rules governing the maximum payments that hospitals can receive.					

Economic Outlook And Revenue Forecast

Other Sources

Other Taxes and Fees (\$ millions)					
Overview: Other general fund sources comprise miscellaneous taxes and fees, proceeds from the sale of assets, and deposits from the Build Illinois escrow account to the state.					
	FY12	FY13	FY14	FY15 Estimate	FY16 Forecast
Vehicle Use Tax	\$29	\$27	\$29	\$29	\$29
Hotel Tax	\$40	\$45	\$37	\$41	\$42
Certificate of Title	\$29	\$28	\$27	\$27	\$27
Owner's license boat gambling	\$73	\$15	\$10	\$10	\$10
Build Illinois Escrow	\$1	\$40	\$51	\$86	\$108
All Other	\$330	\$349	\$470	\$406	\$317
Total General Funds Revenue	\$502	\$504	\$624	\$599	\$533

Hotel Tax

Hotel Tax (\$ millions)					
Overview: Businesses that rent, lease or let hotel rooms to people for living quarters within Illinois pay tax at a rate of 6 percent of 94 percent of gross receipts. According to a formula set by statute, hotel taxes are deposited into the Build Illinois Fund, International Tourism Fund, Local Tourism Fund, Chicago Travel Industry Promotional Fund and Illinois Sports Facility Fund. The remaining receipts are deposited into the General Revenue Fund.					
	FY12	FY13	FY14	FY15 Estimate	FY16 Forecast
Total Revenue	\$208	\$221	\$227	\$240	\$250
General Funds Revenue	\$40	\$45	\$37	\$41	\$42
Key Assumptions: Over the forecast period, the average daily room rate is expected to increase by 4 percent annually.					

Hotel tax receipts are a function of the volume of hotel rooms in the state, the occupancy rate and the average daily room rate. Hotel market research firms PKF-HR and Smith Travel Research forecast five percent annual growth in the national average daily room rate (ADR) for the budget forecast period. However, an anticipated increase in the number of new hotel rooms in downtown Chicago could slow this projected growth. Available information from the Chicago tourism organization Choose Chicago shows potentially 1,300 new hotel rooms will become available in Chicago over the forecast period. If there are no delays or cancelations of projects, these planned new hotels would amount to a 3.6 percent increase in the total number of available rooms. This additional supply could place downward pressure on room rates as additional competition could drive down ADR and

therefore tax revenues. Given that the Chicago downtown market plays a significant role in overall state hotel activity, the forecast incorporates the impact of this on state revenues. Using available industry forecasts and year-to-date tax receipt data, fiscal year 2015 is estimated to see \$240 million in revenue, and fiscal year 2016 is forecasted to see \$250 million in revenue. For the General Revenue Fund, revenues of \$41 million are estimated for fiscal year 2015, and revenues of \$42 million are forecasted for fiscal year 2016.

Lottery

Lottery (\$ millions)					
Overview: The state receives approximately 27.6 percent of total lottery sales. The remaining 72.4 percent goes toward prizes, vendor fees and the lottery budget. The share of lottery revenue transferred to the Common School Fund (CSF) is to be no less than the fiscal year 2009 level (\$625 million), indexed to inflation using CPI-U less energy (Consumer Price Index for urban consumers less energy prices). The only instance where transfers can be below the inflation indexed amount is if lottery revenue available for transfer falls below the inflation indexed level. Any amount in excess of the fiscal year 2009 level indexed to inflation is used to fund capital.					
	FY12	FY13	FY14	FY15 Estimate	FY16 Forecast
Transfer to Common School Fund	\$640	\$656	\$668	\$682	\$696
Key Assumptions: The inflation rate is assumed to be 2 percent for fiscal year 2016 CSF transfers.					

The Illinois Lottery Law mandates a transfer from the Lottery Fund to the Common School Fund of an amount equal to the proceeds transferred in the corresponding month of fiscal year 2009, as adjusted for inflation. The annual forecast inflation rate is two percent. Specialty tickets are expected to generate an additional \$4 million in transfers to charitable causes. Other lottery profits above \$696 million are transferred to the Capital Projects Fund.

Economic Outlook And Revenue Forecast

Riverboat Casino Gaming

Riverboat Casino Gaming (\$ millions)					
Overview: The state imposes a graduated wagering tax on gross gaming revenues at the casinos. There is also a patron admission tax. That rate (for each casino) is based on the previous calendar year admission total. Occupational, owner and supplier license fees are also imposed.					
	FY12	FY13	FY14	FY15 Estimate	FY16 Forecast
Transfer to Education Assistance Fund	\$340	\$345	\$321	\$268	\$273
Key Assumptions: On July 1, 2013 and each July 1 thereafter, \$1,600,000 shall be transferred from the State Gaming Fund to the Chicago State University Education Improvement Fund. Beginning on July 1, 2013, in addition to any amount transferred, \$5,530,000 shall be transferred monthly from the State Gaming Fund to the School Infrastructure Fund.					

The rate of new applications for video gaming establishment licenses has slowed to a trickle. Currently, more than 19,100 video gaming machines operate in these locations. There are only 10,969 electronic gaming devices at all 10 Illinois casinos combined. Through December, wagers at table games are up 0.1 percent while wagers at casino electronic gaming devices are down eight percent.

Casino wagering is expected to experience a small net gain in fiscal year 2016 primarily because the substitution effect from video gaming will slow down and Illinois workers will experience growth in wages. The net effect of these two factors should be a restoration of some modest growth to the industry.

Much of the economic growth will be diverted to cover \$10 million in additional administrative costs for video gaming administration rather than increase transfers to the Education Assistance Fund.

Transfers In

Economic Outlook And Revenue Forecast

Motor Fuel Taxes

Motor Fuel Taxes (\$ millions)

Overview: Illinois collects motor fuel taxes for the privilege of operating a motor vehicle on public highways or a recreational watercraft on waterways in Illinois in the amounts of 19 cents per gallon of gasoline and 21.5 cents per gallon of diesel fuel. Tax receipts are deposited into the Motor Fuel Tax Fund. Tax receipts are then transferred to the State Construction Account Fund, State Boating Act Fund, Grade Crossing Protection Fund, State Road Fund and various local governments. Illinois also collects underground storage tank taxes for underground storage tank cleanup, including a 0.3 cent per gallon of fuel underground storage tank tax and a 0.8 cent per gallon of fuel environmental impact fee. These underground storage tank taxes are deposited into the Underground Storage Tank Fund.

	FY12	FY13	FY14	FY15 Estimate	FY16 Forecast
Revenue	\$1,290	\$1,260	\$1,294	\$1,313	\$1,324

The two main drivers of motor fuel tax revenue are the total miles traveled by motorists and the fuel economy of the vehicles they are driving. The overall average fuel economy of vehicles on the road increases each year as older vehicles are replaced by new, more fuel-efficient ones. This reflects the fact that the federal government, through its Corporate Average Fuel Economy standards, requires greater fuel economy for each new model year of passenger car and light truck. Increasing average fuel economy has a negative impact on motor fuel tax revenue because it results in less fuel consumed per mile traveled.

Total vehicle miles traveled can offset some or all of this negative impact by increasing, or the miles traveled can reinforce the negative impact by decreasing. Total vehicle miles traveled in the United States started to decline around 2007 in response to rising fuel prices and then kept declining as the economy contracted during the last recession. The combination of less driving and more fuel economy led to declining revenue from motor fuel taxes during this period. Recently, however, total miles traveled began to increase as fuel prices decreased and the post-recession recovery gained momentum. The additional volume of miles traveled was enough to offset the negative impact of fuel efficiency gains. Revenue from Illinois' motor fuel taxes increased 2.7 percent in fiscal year 2014. This was the first genuine increase since fiscal year 2007.

The dramatic drop in the price of oil—down nearly 20 percent year over year for the first half of fiscal year 2015—should induce more driving as long as prices remain relatively low, as they are projected to do over the budget period. Current projections

for oil price declines are -30.0 percent and -3.0 percent in fiscal years 2015 and 2016, respectively. The growth in additional miles traveled will exceed expected efficiency gains, leading to small increases in revenue.

The fiscal year 2015 revenue estimate is \$1,313 million, or an increase of 1.5 percent. The forecast for fiscal year 2016 is \$1,324 million, or 0.8 percent above fiscal year 2015.

Real Estate Transfer Tax

Real Estate Transfer Tax (\$ millions)

Overview: The Real Estate Transfer Tax (RETT) is imposed on the privilege of transferring title to real estate or a beneficial interest in a land trust in Illinois. The state rate is 50 cents for each \$500 of value. Collections are deposited as follows: 50 percent into the Illinois Affordable Housing Trust Fund; 35 percent into the Open Space Lands Acquisition and Development Fund; and 15 percent into the National Areas Acquisition Fund.

	FY12	FY13	FY14	FY15 Estimate	FY16 Forecast
Revenue	\$42	\$54	\$57	\$65	\$70

Key Assumptions: Median Sales Price of residential property in Illinois is forecast to increase by 4.6 percent over the forecast period while mortgage interest rates are expected to hover around 4.7 percent.

Receipts from the Real Estate Transfer Tax are driven by the volume and dollar value of real estate transactions in the state. These factors are in turn influenced by the overall Illinois real estate market. Data on mortgage interest rates, median sale price, home equity and foreclosed property are used to approximate the overall market and inform the forecast of this tax source.

Data from the Primary Mortgage Market Survey conducted by Freddie Mac shows the national quarterly average interest rate for the 30 year fixed mortgage dropped roughly half a percent in calendar year 2014. A moderate increase in mortgage interest rates to around 4.7 percent is anticipated by the end of calendar year 2015.²⁵

CoreLogic, a leading real estate market research firm, measures key indicators in the residential real estate market of Illinois. Based on its most recently available research, Illinois experienced a year over year sale price increase of 3.6 percent for

²⁵ Freddie Mac, "December 2014 U.S. Economic & Housing Market Outlook", Retrieved 01-09-2015; http://www.freddiemac.com/finance/pdf/December_2014_public_outlook.pdf

Economic Outlook And Revenue Forecast

November 2014. However, prices still remain 21.4 percent below the 2006 peak when receipts were over \$116 million.²⁶ The market recovery in housing continues to be hampered by homes in negative equity, a situation where borrowers owe more on their mortgage than the market value of their home. Data from CoreLogic shows that in Illinois, the share of mortgaged residential property with negative equity decreased from 17.7 percent in the third quarter of calendar year 2013 to 14.1 percent in third quarter of calendar year 2014. Over this period nationally, the percent of mortgages with negative equity decreased from 13.0 percent to 10.3 percent.²⁷ Illinois continues to lag behind the improvements made nationally in the inventory of foreclosed homes. Research by CoreLogic shows the inventory of foreclosed homes in Illinois dropped from 3.3 percent in October of calendar year 2013 to 2.1 percent in October of calendar year 2014. Over the same period, the national figure dropped from 2.2 percent to 1.6 percent. While the share of foreclosure stock in Illinois decreased more than the national level in the last year, Illinois remains above the national average. The Illinois real estate market continues to recover but at a slower rate than the rest of the nation.

Based on this available data, the current fiscal year 2015 estimate of \$65 million remains unchanged. The forecast for fiscal year 2016 is \$70 million.

CHAPTER 5

Public Retirement Systems

This page intentionally left blank.

Public Retirement Systems

OVERVIEW

Funding the five state retirement systems is one of Illinois government's greatest financial challenges. Governor Rauner is committed to reducing the state's pension debt while establishing and protecting sustainable benefits.

The five state-sponsored retirement systems provide benefits to eligible state employees, public school teachers outside Chicago, public university and community college personnel, judges and members of the General Assembly. Employee and employer contributions and investment income provide for the payment of benefits, administrative costs and the purchase of fund investments.

The following table shows active members, inactive members entitled to benefits and retirees and beneficiaries receiving annuities from each system. A table of current and estimated assets, liabilities and funded ratios is included at the end of this chapter.

Members of the Illinois Retirement Systems as of June 30, 2014		
Pension Fund	Members (including Annuitants)	Annuitants Only
Teachers (TRS)	398,091	109,448
University (SURS)	223,735	59,406
State Employees (SERS)	129,678	66,609
Judges (JRS)	2,070	1,100
General Assembly (GARS)	653	421
Total	754,227	236,984

FUNDING HISTORY

Under the Pension Code, the state is required to make an annual contribution to each retirement system. The state's total pension liability – referred to as the “actuarial accrued liability” – is estimated by the actuary of each retirement system. Those estimates reflect actuarial assumptions of future benefits to be paid to annuitants, future investment returns and other key factors (for example, mortality). The unfunded actuarial accrued liability (or “unfunded liability”) is the difference between the system's actuarial (smoothed) value of assets and the system's actuarial accrued liability. The five state retirement systems historically have been underfunded, resulting in an unfunded actuarial accrued liability.

By 1995, this unfunded liability was almost \$20 billion. To address this issue, the state enacted an annual funding requirement that became effective in fiscal year 1996 and is sometimes referred to as the “50-year funding plan.” This funding plan, which remains in law today, was designed to achieve a 90 percent funded ratio by the end of fiscal year 2045. In each fiscal year beyond fiscal year 2045, the state is required to contribute for each retirement systems the amount necessary to maintain the funded ratio at 90 percent.

The 50-year funding plan consists of two phases: (i) a 15-year “ramp-up period” of state contributions based on an increasing percentage of payroll each year, beginning in fiscal year 1996 and ending in fiscal year 2010, and (ii) a subsequent period of annual contributions equal to the level percent of payroll necessary to cause the funded ratio to equal 90 percent by fiscal year 2045.

While adoption of a statutory funding plan for the retirement systems helped regulate annual funding, the 1995 unfunded liability of \$20 billion nevertheless grew to almost \$76 billion by fiscal year 2010, the end of the ramp-up period. That growth was attributable to, among other factors, the funding structure during the ramp-up period and investment returns below actuarially-assumed rates of return. The unfunded liability growth was further exacerbated by benefit enhancements enacted without commensurate additional funding, and by reductions in contributions, enacted in 2006 and 2007, to levels below those originally contemplated by the 50-year funding plan. In sum, the promised benefits have gotten richer, while the contributions dipped further below the amount required to responsibly fund the promises.

Since 2010, the unfunded liability has continued to grow. As of the end of fiscal year 2014, the market value of unfunded liability was \$105 billion and the actuarial unfunded liability was \$111 billion. The following factors explain this continued growth: changes in actuarial assumptions, including demographic changes and reductions in actuarially-assumed investment rates of return; actual investment returns below the assumed rate of return; and statutory contributions at levels below actuarially-required contribution levels.

CURRENT FUNDED STATUS

The five state retirement systems experienced investment returns greater than the assumed

Public Retirement Systems

investment rate of return in fiscal year 2014. Greater-than-assumed investment returns helped suppress additional growth in the unfunded liabilities. However, in the past year, most systems' boards decided to lower their future investment return assumptions. Actuarial unfunded liability rose \$11 billion in the past year due to this assumption change, the statutory funding formula and other factors. The change in investment return assumptions has substantially driven up the state's fiscal year 2016 payment under current law. The fiscal year 2016 payment reflects an estimated all-funds increase of \$680 million over fiscal year 2015 and within that, a general-funds increase of \$580 million.

Assets of each system are measured in two ways: (1) fair value, which is the market value of all assets at the end of each fiscal year, and (2) actuarial value (or "smoothed" value), which averages investment gains or losses over a five-year period for each fiscal year. Annual contribution levels under the state's funding plan are determined using the actuarial (smoothed) value of assets. The fair value funded ratio for all plans increased from 41.1 percent in fiscal year 2013, to 42.9 percent in fiscal year 2014. The actuarial value funded ratio remained at 39.3 percent for fiscal year 2014.

PUBLIC ACT 98-0559

On December 5, 2013, the state enacted Senate Bill 1, known as Public Act 98-0599, which provides for various benefit and funding changes to four of the state's retirement systems – teachers (TRS), state employees (SERS), state universities (SURS) and General Assembly (GARS). Changes to the judges' system were not made in the legislation.

PA 98-0599, among other things, establishes a new funding plan to reach 100 percent funded in 30 years. It also provides for changes to automatic annual increases (also known as cost of living adjustments or COLAs), retirement ages and employee contributions for the affected retirement systems. PA 98-0599 was to become effective on June 1, 2014.

However, five lawsuits were filed challenging the constitutionality of the Act. These lawsuits were eventually consolidated and heard in the Sangamon Circuit Court. On May 14, 2014 the Act was preliminarily enjoined, blocking implementation of the law on the effective date. On November 21,

2014 the Sangamon Circuit Court ruled that PA 98-0559 was unconstitutional and permanently enjoined its enforcement or implementation. The State appealed directly to the Illinois Supreme Court and oral arguments are expected to be heard in March of 2015. No date has been set for a decision.

GOVERNOR RAUNER'S PENSION REFORM PROPOSAL

Due to the severe underfunding of the five state sponsored pension systems and the deteriorating fiscal health of Illinois, Governor Rauner is proposing an immediate solution to the state's pension problems. His plan includes both funding and benefit reforms.

Under his proposal, on July 1, 2015 members of the four state sponsored pension systems (excluding judges) hired before January 1, 2011, commonly referred to as "tier 1," who have not begun to receive a retirement annuity will have their benefits frozen as if they had terminated service. No changes will be made to the benefits that have already been earned (as well as COLAs to which these employees will be entitled upon retirement). The freeze of benefits will not apply to public safety employees. Retirees also will not be affected.

Those members who had their benefits frozen will earn future benefits for all service after July 1, 2015 under the benefits plan that currently applies to members first hired after 2010 (commonly referred to as "tier 2"). With this reform, going forward, all employees will be treated fairly, with equal benefits.

Benefits of tier 2 include a retirement age of 67, with a reduced annuity being available at age 62, and a COLA of the lesser of 3 percent or one-half of the annual increase in the consumer price index starting at the later of the first anniversary of retirement or age 67. Tier 2 benefits are based on a salary which is an average of salary in the highest eight years of service in the last ten years and a pensionable salary cap that grows annually at the lesser of three percent or one-half of the annual increase in the consumer price index.

Also included in the Governor's proposal is a reduction in the end of career salary "cap" for members of the State Universities' Retirement

Public Retirement Systems

System and the Teachers' Retirement System. The cap, which limits the state's exposure to benefit increases caused by late career pay spikes, will be reduced from the current six percent to the prior year's annual increase in the consumer price index. Any pension costs attributable to salary increases above this cap that factor into a member's final average salary will be paid by the local employer. Employers still will be able to pay any salary increases they desire and can afford.

Additionally, the governor's proposal bases the future effective rate of interest for the money purchase plan in the State Universities' Retirement System and the Teachers' Retirement System on United States Treasury bond rates which reflect changes in the economy.

Beginning with service after July 1, 2015, overtime pay will not be included in compensation which is used to calculate benefits.

Employees in the state pension systems will be offered the option of a pension "buyout," similar to buyouts offered in the private sector, with a new defined-contribution plan. Under the Governor's proposal, an optional partial pension buyout will be offered to tier 1 members who have had their tier 1 pension benefits frozen. In exchange for a reduction to the tier 1 benefit COLA, members will receive a lump sum payment and be enrolled in a defined contribution pension plan (similar to a private 401(k) plan). The lump sum payment will be the starting account balance for the defined contribution plan. Employees and their employers will make contributions to the plan. The defined contribution plan will be an additional retirement plan on top of the new defined benefit plan that the member will be enrolled in for all service after July 1, 2015.

Governor Rauner's proposed fiscal year 2016 budget ends the state's subsidy of health insurance for retired downstate/suburban teachers and retired community college staff. These retirees were not state employees; their retiree insurance should be covered only by retiree premiums and contributions from their employers, and not by the State. In addition, the budget does not include a contribution to Chicago teachers' pension and health insurance fund. These actions save the state over \$125 million in fiscal year 2016. (This \$125 million is not included in the estimate of savings from pension reforms in fiscal year 2016).

The proposal includes a five-year smoothing of contribution variations caused by changes in investment return assumptions as set unilaterally by the individual pension systems. Recent decreases in investment return assumptions account for most of the estimated \$580 million general-funds increase as calculated under current law.

Governor Rauner proposes strengthening the state's pension funding formula by requiring the state to make payments, beginning in fiscal year 2016, based on a plan of attaining a 100 percent funded ratio by fiscal year 2045 instead of the current target of a 90 percent funded ratio.

Savings estimates for the proposal, excluding the partial buyout plan, show a general fund reduction in fiscal year 2016 contributions of \$2.2 billion and total contribution savings of over \$100 billion from fiscal year 2016 through fiscal year 2045. The proposal also is expected to immediately reduce the \$111 billion unfunded liability by \$25 billion and improve the funded ratio.

This proposal should withstand constitutional scrutiny because, unlike P.A. 98-0559, it does not diminish earned benefits. If SB1 is upheld by the courts, and Governor Rauner's proposal is enacted and upheld, both reform plans could take effect in large part simultaneously, boosting savings well above the projections for either plan alone. In the alternative, the General Assembly and Governor may decide to enact a new plan that combines the best reforms in SB1 and this proposal.

Altogether, these benefit reforms and strong funding requirements will ease the pension burden on state taxpayers, allow state resources to be devoted to education and other critical services, and ensure that the benefits offered are sustainable over the long term.

TOTAL, ALL STATE OFFICERS' SALARIES:	\$29,588,400	\$29,588,700	\$29,588,700

State Officers' Salaries – Footnotes

1. Pursuant to the 1990 Report of the Compensation Review Board (Board) and the 1990 Senate Joint Resolution No. 192, all salaries reviewed by the board receive an annual Cost of Living Adjustment (COLA), effective every July 1st. The COLA is based on a federal index for the calendar year preceding the scheduled increase known as the "Employment Cost Index, Wages and Salaries, By Occupation and Industry Groups: State and Local Government Workers: Public Administration", published by the U.S. Department of Labor, Bureau of Labor Statistics. Pursuant to this index, all salaries are scheduled to be increased by 2.0 percent effective July 1, 2015.
The Governor recommends suspension of the COLAs described above for fiscal year 2016.
2. Senate Committees: The 98th General Assembly number of committees increased from 22 to 23.
3. House Committees: The 98th General Assembly number of committees increased from 44 to 47.
4. Pursuant to PA 91-25 and 91-798, the governor is allowed to set the salaries to amounts not to exceed 85 percent of the Governor's salary. The governor's authority to set these salaries was deleted by Public Act 096-0800.
5. Pursuant to Executive Order 2004-6, the Department of Insurance was created. The Division of Insurance within the Department of Financial and Professional Regulation was abolished. All the powers, duties, rights, and responsibilities of the Division of Insurance within the Department of Financial and Professional Regulation were transferred to the Department of Insurance.
6. State Police Merit Board: Board members received \$237 per Diem in fiscal year 2014 and \$237 per Diem in fiscal year 2015. Board members will receive \$242 per Diem in fiscal year 2016, in accordance with the law.
7. Illinois Racing Board: \$300 per Diem to a Maximum of \$12,527 for fiscal year 2014, \$12,527 for fiscal year 2015, and \$12,778 for fiscal year 2016 as prescribed by law.
8. Pursuant to PA 96-555, effective July 1, 2010, the compensation for each Executive Inspector General shall be made from appropriations made to the Comptroller for this purpose.
9. Pursuant to PA 97-464, the Department of Lottery and the Superintendent of the Lottery was created.
10. This position is currently held by a Secretary of State employee which eliminates the need to fund this position. If the position would be filled by an appointment then additional costs may be incurred.

PERFORMANCE MEASURES BY PROGRAM

Program / Measure	Actual			Estimated	Projected
	FY 2012	FY 2013	FY 2014	FY 2015	FY 2016
Adult Protective Services (APS)					
Number of APS abuse reports received ^A	11,919	11,961	15,700	17,000	18,065
Percentage of Abuse, Neglect & Exploitation (ANE) closed cases with no/low risk by the end of the fiscal year	80	81	80	80	80
Benefits Eligibility Assistance and Monitoring (BEAM)					
Benefits Access applications approved	90.4	90.0	91.2	91.0	91.0
Community Care Program					
Community Care Program's (CCP) average monthly cost of care per person (in whole dollars)	807.32	839.36	842.49	865.02	781.60 ^B
Number of initial assessments	45,262	43,630	41,411	42,000	38,700
Number of prescreens	104,388	106,980	111,414	119,500	128,000
Number of seniors receiving a prescreen who become CCP Clients	N/A	N/A	6,420	5,580	5,382 ^B
Number of seniors receiving in-home and community based services through the Community Care Program	76,624	82,791	89,400	84,715 ^C	78,893
Percentage of seniors receiving Community Care Program services after an initial assessment	N/A	N/A	52	52	52
Community Support Services					
Number of seniors receiving Older American Act services ^D	474,190	494,494	475,100	500,000	500,000
Percentage of local resources that support Older American Act services	35.6	34.7	32.7	32.0	32.0
Percentage of seniors in greatest economic need who are served in registered services	32.8	38.4	36.2	35.0	35.0
Percentage of seniors who are minorities served in registered services ^D	29.5	31.2	31.1	30.0	30.0

Department On Aging

Program / Measure	Actual			Estimated	Projected
	FY 2012	FY 2013	FY 2014	FY 2015	FY 2016
Long Term Care Ombudsman Program (LTCOP)					
Consultations pertaining to Long Term Care facilities and residents' rights ^E	13,635	18,407	18,859	22,000	22,000
Percentage of Long Term Care facilities that received quarterly regular presence visits by Long Term Care Ombudsmen	50.2	68.0	85.0	95.0	96.0
Nutrition Services					
Number of home-delivered meals provided	6,701,603	6,021,135	6,025,000	6,047,500	6,100,000
Statewide average meal costs for the home-delivered meals program in dollars	5.51	5.34	5.43	6.34	6.50
Senior Employment Services					
Percentage of Community Service Hours invested through participation in the Senior Employment Program	98.2	95.5	86.1	83.0	83.0
Percentage of seniors enrolled in senior Community Employment Service Program who entered employment	45.9	39.2	34.7	39.0	39.0
Senior Health Assistance Program (SHAP)					
Number of Extra Help applications completed (Low Income Subsidy)	24,128	18,587	11,082	15,000	15,000
Number of Medicare Part D enrollments completed	24,138	24,143	20,715	22,000	22,000
Senior Helpline (SHL)					
Number of Calls Answered by The Toll Free Senior Helpline	59	76	49	63	63

^A Program expansion in FY14.

^B Adjusted due to resource allocation impacts.

^C Average monthly caseload begins decreasing in FY15 with the implementation of the Managed Care initiatives that transition clients from fee-for-service to managed care model.

^D Based on federal fiscal year.

^E Increased caseload due to Nursing Home Reform Act in 2012.

PERFORMANCE MEASURES BY PROGRAM

Program / Measure	Actual			Estimated	Projected
	FY 2012	FY 2013	FY 2014	FY 2015	FY 2016
Administrative Case Review					
Percentage of wards receiving required Administrative Case Reviews ^A	N/A	N/A	97.7	98.4	97.0
Adoption and Guardianship					
Number of average days from adoption goal to adoption finalization ^A	N/A	N/A	527	527	527
Percentage of new adoptions and guardianships ^A	N/A	N/A	14.0	14.8	15.0
Percentage rate of adoptions where the child was adopted within 24 months of entry into care ^A	N/A	N/A	7.9	7.5	7.9
Adoption Preservation Services					
Percentage of client families receiving services that remain intact ^B	N/A	N/A	N/A	99.0	99.0
Behavioral/Mental Health Services					
Percentage of certification/recertification of providers for Medicaid Community Mental Health Services by established due dates ^A	N/A	N/A	100	100	100
Children's Advocacy Centers					
Percentage of parents/caregivers who report via a post-service survey that the CAC facilitated healing for the child ^B	N/A	N/A	N/A	90.0	90.0

Department Of Children And Family Services

Program / Measure	Actual			Estimated	Projected
	FY 2012	FY 2013	FY 2014	FY 2015	FY 2016
Daycare					
Percentage of provider billings that are processed timely within 10 calendar days from receipt of an accurate bill ^A	N/A	N/A	99.9	99.9	99.9
Family Reunification and Substitute Care					
Average number of days from the establishment of a reunification goal to the actual return home ^A	N/A	N/A	507	506	506
Percentage of children who enter foster care that have no more than two placements in the first 12 months ^A	N/A	N/A	85.9	85.9	86.0
Percentage of reunification rate where the child was returned home within 12 months ^A	N/A	N/A	47.6	48.0	48.0
Health Care Network Services					
Percentage of wards 3 years and older who are current with Well Child Exam requirements ^A	N/A	N/A	82.2	83.1	88.5
Percentage of wards under 3 years of age who are current with Well Child Exam requirements ^A	N/A	N/A	89.7	90.4	91.0
Percentage of wards who are current with state immunization requirements ^A	N/A	N/A	91.0	89.6	90.8
Institution and Group Home Services					
Percentage of wards placed in Institution and Group Home care ^A	N/A	N/A	7.9	8.0	8.0
Intact Family Services					
Percentage of Intact Family Service cases not re-opened within 12 months of case closure ^B	N/A	N/A	N/A	93.9	93.3
Investigative Services					
Percentage of all child abuse/neglect reports initiated within 24 hours ^A	N/A	N/A	99.4	99.5	99.5
Percentage of children who do not experience subsequent abuse or neglect within 6 months of a prior indicated report ^A	N/A	N/A	92.3	92.3	92.3
Percentage of investigations completed within 60 days ^A	N/A	N/A	93.5	95.8	94.8
Licensing Enforcement					
Percentage of agency and institutional license renewals completed in a timely manner ^A	N/A	N/A	92.1	86.9	90.0
Monitoring Unit					
Percentage of monthly agency reviews that are held timely ^B	N/A	N/A	N/A	98.7	98.7
Older Ward Transition Services					
Percentage of Independent Living/Life Skills assessments that are completed timely ^C	N/A	N/A	N/A	N/A	86.0
Prevention Services					
Percentage of clients who are not indicated subjects of additional reports of abuse or neglect during the service period ^A	N/A	N/A	95.6	95.6	95.6
State Central Registry					
Percentage of State Central Registry Hotline calls that were answered the first time or had a message taken ^A	N/A	N/A	96.0	94.6	94.0

PERFORMANCE MEASURES BY PROGRAM

Program / Measure	Actual			Estimated	Projected
	FY 2012	FY 2013	FY 2014	FY 2015	FY 2016
Abandoned Mined Land Reclamation					
Acres in active reclamation ^A	N/A	147	230.5	141	150
Agricultural Land Conservation					
Number of acres enrolled in the Conservation Reserve Enhancement Program ^A	N/A	83,229	84,208	93,207	94,000
Aquatic Nuisance Management					
Tons of Asian carp harvested	N/A	N/A	284.53	300	400
Blasting and Explosives Safety					
Blasting and explosive inspections ^A	N/A	1,417	1,366	1,450	1,500
Life threatening and fatal accidents ^A	N/A	0	0	0	0
Conservation Police and Wildlife Enforcement Operations					
Average number of conservation police officers	135.5	132	131.5	139	104 ^B
Average number of enforcement related contacts by officer per day ^A	N/A	1.25	1.2	1.25	1.25
Number of enforcement related activities ^A	N/A	42,638	52,390	45,100	33,825 ^B
Environmental Contaminant Litigation					
Hours spent on preparation of legal actions ^A	N/A	747	1,570.5	1,433	1,507.5
Fishery Management and Recreational Opportunities					
Fisheries management beneficiaries	697,399	729,822	708,133	713,534	716,000
Forestry Management					
Number of acres enrolled in the Forestry Development Act Program ^A	N/A	608,230	595,338	632,803	620,791
Lake Michigan Coast Management					
Acres in active environmental and/or recreational management ^A	N/A	85.8	1,141	912.9	2,118
Mining Regulation					
Coal production of Illinois mines in tons	48,469,495	52,057,530	52,000,000	56,000,000	58,000,000
Number of counties producing coal	14	14	14	14	14

Department Of Natural Resources

Program / Measure	Actual			Estimated	Projected
	FY 2012	FY 2013	FY 2014	FY 2015	FY 2016
Mining Safety					
Number of mine safety inspections ^A	N/A	18,302	24,846	19,000	16,000
Oil and Gas Regulation					
Number of traditional wells	37,228	26,375	30,642	32,000	34,000
Oil and Gas Safety					
Number of oil and gas field inspections	17,687	15,507	24,717	26,000	26,000
Real Estate Procurement and Management					
Concessionaires leases at state parks ^A	N/A	72	64	72	72
Number of acres acquired ^A	N/A	1,115	1,027.1	3,000	3,000
Recreational Grants					
Number of active grants ^A	N/A	839	331	380	300
Rivers, Lakes and Streams Regulation					
Number of citizens protected by water management ^A	N/A	2,081,017	2,159,273	2,241,491	5,653,809
State Museums Operations					
Number of visitors to Illinois State Museum locations ^A	N/A	398,820	345,533	347,000	390,000
State Parks System Management					
Visitors to state parks ^A	N/A	40,058,032	40,500,000	40,600,000	40,700,000
State Water Supply Planning					
Number of citizens served by water supply plans during droughts	N/A	10,668,269	11,844,049	11,800,250	11,800,250
Water Related Emergency Response					
Number of citizens served by emergency responses ^A	N/A	12,830,632	308,322	294,341	294,731
Waterway Planning and Infrastructure Management					
Miles of recreational water improved ^A	N/A	61.5	88.5	255.6	255.6
Number of citizens served by projects ^A	N/A	4,529,497	5,319,892	5,481,959	5,481,959
Wildlife Conservation					
Number of wildlife watchers ^A	N/A	3,000,000	3,000,000	3,000,000	3,400,000
Wildlife Management and Recreational Opportunities					
Number of days afield hunting and trapping ^A	N/A	2,956,534	3,050,004	2,532,266	3,709,052
State managed acres hunted and/or trapped ^A	N/A	395,134	396,428	400,885	399,410

^A New program-based measure for FY13

^B Adjusted due to resource allocation impacts

APPROPRIATIONS BY FUND CATEGORY / MAJOR OBJECT

Appropriations Requiring General Assembly Action (\$ thousands)	FY 2014		FY 2015		FY 2016
	Enacted Appropriation	Actual Expenditure	Enacted Appropriation	Estimated Expenditure	Recommended Appropriation
GENERAL FUNDS					
Designated Purposes					
Operational Expenses	44,624.3	44,588.6	44,149.2	42,854.4	38,080.4
Water Development Program	969.6	893.7	969.6	929.6	969.6
Total Designated Purposes	45,593.9	45,482.2	45,118.8	43,784.0	39,050.0
TOTAL GENERAL FUNDS	45,593.9	45,482.2	45,118.8	43,784.0	39,050.0
OTHER STATE FUNDS					
Total Personal Services and Fringe Benefits	73,720.2	60,638.4	67,599.2	55,255.2	53,770.6

PERFORMANCE MEASURES BY PROGRAM

Program / Measure	Actual			Estimated	Projected
	FY 2012	FY 2013	FY 2014	FY 2015	FY 2016
Administer State and Local Tax Laws					
Average number of days to issue an individual income tax refund	22.1	21.0	21.9	21.0	20.7
Percentage of dollars deposited on the same day as receipt	96.1	95.1	95.7	96.0	96.2
Percentage of tax returns filed electronically	60.4	66.7	74.4	76.6	79.0
Percentage of taxpayer assistance calls answered	68.9	67.7	79.2	89.0	90.0
Revenue generated and credits and refund liabilities reduced through compliance activities (i.e., enforced return review and billing, audit, delinquent collections and criminal fraud investigations) (\$ millions)	1,507.6	1,596	1,672.1	1,715	1,735
Illinois Housing Development Authority					
Number of affordable rental housing units created	2,900	1,450	2,429	2,346	2,077
Number of homes financed	1,298	2,107	3,382	11,866 ⁴	3,800
Number of permanent supportive housing units developed	525	281	117	304	298
Liquor Control Regulation					
Liquor inspection compliance rate (percentage of liquor licenses inspected with no violations)	62.3	63.3	64.0	67.0	67.8
Revenue generated from liquor licensing and enforcement (\$ thousands)	6,582.1	7,280.8	7,468.8	7,735	8,000
Tobacco retailers' compliance rate (the federal government requires a minimum 80% compliance rate in order to receive \$28 million U.S. governments Substance Abuse Prevention and Treatment block grant)	84.5	88.6	84.0	88.0	88.0
Property Tax Oversight and Allocations to Local Governments					
Average number of days until completion of real property sales ratio summary after receiving final abstract from local government assessors.	53	60	55	60	60
Number of months the department allocated money to local governments by 25th of the following month as established by statute (\$8.1 billion allocated on an annual basis)	12	12	12	12	12

⁴ Increase in FY15 is due to IHDA's down payment assistance program for first time homebuyers. This program will only operate in FY15.

PERFORMANCE MEASURES BY PROGRAM

Program / Measure	Actual			Estimated	Projected
	FY 2012	FY 2013	FY 2014	FY 2015	FY 2016
Airport Improvement Program					
Percentage of runway pavements rated as "good" or better	80	68	68	80	70
Bridge Construction - State System					
Percentage of Illinois bridges in acceptable maintenance condition	92	92	92	93	91
CREATE					
Percentage of CREATE projects completed out of the number programmed for current year	80	100	100	90	100 ^A
High Speed Rail					
Percentage of High Speed Rail upgrade complete	16	24	37	63	78
Highway Construction - State System					
Percentage of state construction dollars accomplished	80	85	85	85	82
Highway Maintenance					
Roadway Condition Ratings (percent acceptable statewide)	85	82	85	85	72
Improve Rail Infrastructure					
Percentage of commercial freight tonnage by rail ^B	15	N/A	N/A	17	17
Local Highway Program					
Percentage of local program dollars accomplished	85	91	85	85	82
Maintain Traffic Records (Crash Data)					
Percentage of local crash reports transmitted to IDOT electronically	26	30	34	60	68 ^C
MFT Distribution to Local Entities					
Percentage of local agencies receiving accurate shares of funding	100	100	100	100	100
Operation of Executive Air Fleet					
Shuttle passengers carried	6,161	5,772	4,680	5,800	3,700
Operation of Utility Air Fleet					
Unique landing facilities visited	230	225	150	225	125
Promote Motorcyclist Safety					
Total number of motorcycle riders trained through state program	19,560	18,267	20,000 ^D	20,000	20,000
Promote/Enforce Commercial Carrier Safety					
Total number of large truck crash related fatalities	126 ^E	143	116	110	105
Promote/Enforce Highway Safety					
Safety belt usage rate	94	94	94	95	95
South Suburban Airport					
Land acquisition effort (acres acquired versus initial need of 5,823 acres)	2,699	2,972	4,131	4,731 ^F	5,231 ^F
Support Passenger Rail					
Overall Amtrak ridership	1,824,113	1,821,117	1,974,782	2,000,000	2,000,000
Support/Enhance Downstate Public Transit					
Bus ridership (millions)	41	42	44	43	46
Support/Enhance NE IL Public Transit					
Bus and light rail ridership (millions)	712	659	700 ^G	705	710

^A Englewood Flyover substantial completion achieved in first quarter; was only project scheduled for completion in first quarter; FY15 projection revised upward, with four projects scheduled for completion in summer 2015--these may not technically be done by 6/30/15, so we're also forecasting 100% completion in FY16.

^B This measure is only tracked on a five year cycle.

^C The City of Chicago is currently developing an electronic reporting system. Once they come on-line (projected for second quarter of FY16, the percentage should increase to close to 65-70%).

^D Estimated, statistics are compiled on the calendar year and will be available in the near future

^E This is a provisional number for FY14; final data will be available when DTS finishes coding a statistical year.

^F This is an approximate estimate.

^G Estimated, statistics are annual and will be available in the near future

PERFORMANCE MEASURES BY PROGRAM

Program / Measure	Actual			Estimated	Projected
	FY 2012	FY 2013	FY 2014	FY 2015	FY 2016
Benefits Assistance					
Federal dollars returned to Illinois resulting from claims filed with the USDVA	33,530,118	43,852,569	43,912,779	31,928,514	32,000,000
Number of applications submitted for state and federal benefits	91,912	93,316	40,105	36,457	40,000
Total number of veterans served	145,365	181,572	141,554	131,622	135,000
Bonus Payments					
Number of bonus claims	1,807	1,254	1,179	950	950
Cartage and Erection of Headstones					
Number of cartage and erection of headstones	3,031	3,401	3,162	3,410	4,250
Military and Family Relief Program					
Number of IMFRF survivor's compensation	6	4	0	1	1
Outreach Services					
Average number of veterans served substantively per VSO	51.93	191.17	38.36	57.29	57.00
Outreach events attended by Veteran Service Officers (VSOs)	244	298	211	244	244
POW/MIA Scholarships					
Number of POW/MIA scholarships	560	271	267	215	215
Prince Home					
Number of applicants admitted to residential program	6	21	15	18	18
Number of discharges due to graduation	4	10	2	2	2
Number of veterans impacted with supplemental support services (advocacy & after-care follow up)	N/A	735	446	263	263
Specially Adaptive Housing					
Number of specially adapted housing exemptions	8	5	12	10	10
State Approving Agency for GI Bill Education Benefits					
Number of educational institutions examined for compliance	67	115	147	122	125
Number of requests for approval of new facilities	204	151	111	137	140
Number of schools served substantively via email/phone	3,149	6,818	6,581	8,071	8,000
Number of technical assistance visits provided to assist schools with the approval process and the GI Bill	65 ^A	99	105	108	110
State Education Claims (for students ages 10-18)					
Number of state education claims (for students ages 10-18)	147	221	178	218	220
Troops to Teachers					
Number of outreach events held to educate veterans on Troops to Teachers (TTT)	43	52	28	42	40
Number of veterans enrolled in Troops to Teachers	79	176	263	292	325
Number of veterans served substantively at TTT events	N/A	572	235	232	235
Veterans 2 Entrepreneurs					
Number of stakeholder/vendor participants	N/A	49	32	59	59
Number of veteran attendees	N/A	155	170	179	180
Veterans Care					
Number of active participants in Veterans Care	193	182	160	143	133
Veterans Cash Grant					
Dollars awarded to post-traumatic stress disorder treatment and research	208,442	180,000	208,300	231,250	200,000
Dollars awarded to veterans disability benefits	319,783	501,600	115,000	200,000	200,000
Dollars awarded to veterans homelessness	404,658	187,810	220,582	254,500	225,000
Dollars awarded to veterans long-term care	172,000	72,901	81,000	70,000	75,000
Number of grants recipients	27	17	28	27	27
Veterans Grants and Specialty Services					
Number of claims received and processed for state grants and benefits	6,012	5,173	4,818	5,675	5,675
Total special services	94,140	261,731	285,911	204,909	205,000

PERFORMANCE MEASURES BY PROGRAM

Program / Measure	Actual			Estimated	Projected
	FY 2012	FY 2013	FY 2014	FY 2015	FY 2016
Disaster Assistance					
Dollars disbursed to businesses to help recover from disasters	N/A	N/A	6,407,500	12,000,000	0 ^A
Dollars disbursed to individuals to help recover from disasters	48,064	5,877	104,621,964	1,500,000	0 ^A
Dollars disbursed to local governments to help recover from disasters	N/A	N/A	12,357,940	5,500,000	0 ^A
Disaster Coordination					
Percentage of needs met	N/A	N/A	100	100	100
Environmental Monitoring					
Percentage of environmental assessment of ionizing radiation	N/A	N/A	93	100	100
Escort, Incident Response and Preventative Radiological Nuclear Detection					
Percentage of safe transport of spent nuclear fuel, highway route controlled quantities of radioactive material and transuranic waste	N/A	N/A	100	100	100
Hazardous Materials					
Percentage of counties with chemical emergency plans	N/A	N/A	99	99	99
Homeland Security Preparedness					
Number of homeland security grant dollars expended (\$ thousands)	42,211.1	117,782.5	96,021.2	97,861.3	92,925
Low Level Radioactive Waste(LLRW) , Decommissioning and Site Cleanup					
Percentage of LLRW generators in compliance	N/A	N/A	100	100	100
Mitigation					
Percentage of counties with approved mitigation plans	61	67	63	86	86
Nuclear Evaluation, Monitoring and Response					
Percentage of FEMA evaluated objectives met	N/A	N/A	95	100	100
Percentage of radiological task force participating in exercises	N/A	N/A	100	100	100
Nuclear Facility Inspection					
Number of nuclear power plant inspections conducted	293	286	286	308	308
Radiological Emergency Preparedness					
Number of emergency responders prepared to respond to radiological emergency	N/A	N/A	3,293	3,500	3,500

Illinois Emergency Management Agency

Program / Measure	Actual			Estimated	Projected
	FY 2012	FY 2013	FY 2014	FY 2015	FY 2016
Radon					
Number of radon home mitigations	N/A	N/A	12,159	11,663	11,663
Regulation and Licensing of Radioactive Materials and X-Ray Equipment					
Percentage of safe use of X-ray machines	N/A	N/A	96	98	98

⁴ Cannot project, based upon number and extent of disasters.

Percentage of Title I students proficient in reading on ISAT and PSAE	44.4	45.4	43.6	44.0	44.0
College and Career Readiness					
Percentage of 21st Century Community Learning Centers (CCLC) students who showed an increase in math and reading grades	32.8	35.0	N/A	35.0	35.0
Percentage of Career and Technical Education (CTE) concentrators who completed secondary education	94.0	95.6	95.3	95.5	95.7
Early Childhood Development					
Percentage of EC teachers who received ratings of 4.75 or higher on ECERS-R Interaction (child-interaction rating scale)	83.8	87.6	88.1	88.3	88.5
Percentage of programs with an ECERS-R average score of 4.5 with no classroom below a 4.0.	46.6	57.3	59.1	60.0	61.0
Effective Teachers and Leaders					
Number of districts that provide approved induction and mentoring programs for new teachers	551	551	N/A	551	551
English Language Learning					
Percentage of ELs making at least 0.5 level progress in English Language Learning	63.7	66.7	65.7	66.0	67.0
Percentage of students who attained English Language proficiency	19.0	22.0	21.0	22.0	23.0
General State Aid					
Drop out rate for Illinois students (percentage)	2.4	2.4	2.2	2.1	2.0
Graduation rate for Illinois students (percentage)	82.3	82.2	86.0	87.0	88.0
Percentage of districts in deficit spending	48.0	66.7	61.8	60.0	58.0
School Transformation and Accountability					
Number of teachers who committed serious acts of misconduct that were eliminated from the classroom and field through suspension or revocation of license	35	39	107	107	107
Special Education					
Elementary and Secondary students served	4,207	4,435	4,505	4,700	4,900

State Board Of Education

Program / Measure	Actual			Estimated	Projected
	FY 2012	FY 2013	FY 2014	FY 2015	FY 2016
Percentage of students who earned high school credit (ages 13-21)	84.0	88.6	91.0	91.5	92.0
Statewide District Support Services					
Number of students helped by the revolving technology loan for school districts to improve their technology infrastructure ⁴	16,180	6,860	22,853	12,577	15,000
Student Assessment					
Percentage of eligible students tested in ISAT math	99.8	99.8	99.3	99.5	99.7
Percentage of eligible students tested in ISAT reading	99.7	99.8	99.1	99.5	99.7
Percentage of eligible students tested in PSAT math	98.8	99.0	99.0	99.5	99.7
Percentage of eligible students tested in PSAT reading	98.8	99.0	99.0	99.5	99.7

⁴ These numbers vary depending on the size of the districts that apply for the loan.

PERFORMANCE MEASURES BY PROGRAM

Program / Measure	Actual			Estimated	Projected
	FY 2012	FY 2013	FY 2014	FY 2015	FY 2016
Adult Education Instruction					
Adult Education Completions	30,101	28,313	27,229	30,709 ^A	31,103 ^B
Education and Student Services					
Annual completions	64,246	69,036	69,812	70,510	71,215
Number of high school equivalency certificates ^C	14,735	22,675 ^D	2,634 ^E	3,000	3,000

^A Completions are dependent on overall populations. FY 15 estimated completions are based on overall enrollments remaining level.

^B Completions are dependent on overall populations. FY 16 estimated completions are based on overall enrollments remaining level.

^C Data based on calendar year, not fiscal year

^D In 2013, Illinois saw a surge in number of test takers prior to the implementation of a new test in 2014.

^E In 2014, testing is down substantially both statewide and across the country. This decline is due in large part of a new test that took effect in 2014 that is substantially more rigorous and has a higher cost of testing.

CHAPTER 7

Debt Management

This page intentionally left blank.

Debt Management

The governor, through the Governor's Office of Management and Budget (GOMB), is responsible for the issuance of General Obligation (GO) and Build Illinois (BI) bonds. These long-term debt obligations, coupled with pay-as-you-go resources, are used to fund a wide range of capital projects and activities in the capital budget.

GOMB is charged with the management of the resulting indebtedness over the long term, including after the funds have been used to support projects or grants.

The state's debt management goals are to:

- maintain debt affordability standards and limit capital borrowing and funding to the current available revenue structure and capital needs;
- borrow at the lowest possible cost of funds within the constraints of the GO and BI bond acts;
- monitor the state's outstanding indebtedness for possible refunding (refinancing) opportunities that will lower the cost of such debt;
- maintain ongoing relationships with rating agencies and investors, to optimize ratings and interest rates in light of the state's financial condition;
- foster the growth of minority-owned, female-owned and regional firms through participation objectives, which afford these firms opportunities to work on the state's debt-related activities.

ILLINOIS JOBS NOW!

Illinois Jobs Now! is an expansive \$31 billion capital program, which focuses on putting money directly into the Illinois economy, with the aim of stimulating the economy by creating jobs for the citizens of Illinois. Currently, *Illinois Jobs Now!* is in its sixth year, and to date, \$11.4 billion in bonds have been issued under the program, including funding for schools, roads, transit, economic development, environment and energy projects. Funding for *Illinois Jobs Now!* is provided by a combination of state debt, pay-as-you-go cash resources, and federal and local matching funds. The debt service on the bonds issued is primarily supported by: (1) motor vehicle title fees; (2) license plate fees; (3) revenues from sales taxes on

candy, sweet tea, coffee, grooming and hygiene products; (4) wine and spirits taxes; (5) license fees and taxes on video gaming terminals; (6) monies deposited into the Road Fund; and (7) lottery improvements, backed by the state's general obligation in the case of GO bonds and sales taxes in the case of BI bonds.

STATE-SUPPORTED INDEBTEDNESS

State Debt Profile – Capital Bonds

Figure 12-1 below reflects an issuance of approximately \$250 million in fiscal year 2015 for General Obligation bonds, none of which have been issued, and \$1.05 billion in fiscal year 2016. Figure 12-2 reflects an estimated issuance of \$200 million Build Illinois bonds in fiscal year 2016.

Debt Management

State Debt Comparison

Illinois, one of the largest states both in terms of population and overall economy, is ranked 9th nationally in net tax-supported debt as a percentage of gross state domestic product, according to the most recent Moody's 2014 State Debt Medians Report, published in May of 2014. Illinois ranked 7th and 9th, respectively, in net tax-supported debt per capita and as a percentage of personal income.

Municipal Bond Ratings

The state's outstanding indebtedness is rated by credit rating agencies that assign credit ratings to issuers of certain types of debt obligations. The ratings are based on each agency's rating methodology. The credit rating agencies review the state's current and projected financial condition, economic growth, levels of indebtedness and other factors which affect the rating assigned to the state. The Build Illinois credit is considered "AAA" by Standard & Poor's and "AA+" by Fitch due to the state's pledge of a strong revenue stream and high debt service coverage. The state has not sought a rating from Moody's on Build Illinois bonds since December 2009. Moody's rating, as shown below, is based on its rating criteria and applies to Build Illinois bonds issued on or before December 2009. The state's current underlying long-term credit ratings are reported in Table 12-1.

Table 12-1
Long Term Underlying Ratings

	General Obligation Bonds	Build Illinois Bonds
Standard & Poor's	"A-" Negative	"AAA" Stable
Moody's Investor Service	"A3" Negative	"A3" Negative*
Fitch Ratings	"A-" Negative	"AA+" Stable

* The State doesn't formally request Moody's to rate the Build Illinois Bonds

Minority-Owned and Woman-Owned Business Participation

Illinois is dedicated to inclusion of Minority-Owned Business Enterprises (MBE) and Woman-Owned Business Enterprises (WBE) in its capital market financing. As Table 12-2 illustrates, the state has exceeded its goal of 19 percent MBE/WBE participation in the fiscal year in which the negotiated sale method was utilized.

Table 12-2

General Obligation Bonding Program

Program Overview. The General Obligation Bond program is the primary vehicle for capital market financing for the state. It is governed by the General Obligation Bond Act, 30 ILCS 330 et seq. (GO Bond Act). General Obligation Bonds are secured by general tax revenues and guaranteed by the full faith and credit of the state. Proceeds are used for capital facilities, transportation, school construction, anti-pollution projects, economic development, coal development and other purposes. Figure 12-3 presents bond sales between fiscal years 2011 and 2014 and estimated for fiscal years 2015 and 2016.

Debt Management

Figure 12-3
GO Bond Sales for Capital Purposes
(\$ millions)

*The \$1.3 billion Series of June 2013 were sold in FY 2013, but didn't close until FY 2014 and are reflected here in the FY 2014

Build America Bonds. The American Reinvestment and Recovery Act temporarily created a new alternative to traditional tax-exempt financings for capital projects. Although the Build America Bonds program ended in 2011, these taxable bonds still provide a 35 percent interest subsidy from the federal government. (It should be noted that federal sequestration has reduced this amount by approximately 7.3 percent.) The state authorized and issued a total of \$3.2 billion GO Build America Bonds during fiscal years 2010 and 2011 as they provided a significantly lower cost of capital. For example, the \$1 billion Build America Bonds Series 2010 came at a net cost of 4.05 percent. If the state had issued traditional tax-exempt bonds instead, the total cost would have been approximately 50 basis points higher.

Capital Purposes. The GO Bond Act currently authorizes the state to issue GO Bonds for the purposes and in the amounts set forth in the following table.

General Obligation Bonding Categories	
\$8,900,463,443	Capital Development - Construction funds for higher education, corrections, conservation, child care facilities, mental and public health facilities, local governments, the Open Land Trust program and other state capital purposes
\$8,498,429,000	Transportation - Roads and bridge projects
\$5,562,170,000	Public Transportation - Air and rail
\$4,216,000,000	School Construction - Grants to school districts for school improvement projects
\$659,315,000	Anti-pollution - Construction of municipal sewage treatment plants, solid waste disposal facilities, deposits into the Water Revolving Fund and U.S. Environmental Protection Fund, and funding claims under the Leaking Underground Storage Tanks Program
\$713,200,000	Coal and Energy Development - Research, development and demonstration of coal and alternate energy sources and financial assistance for new power generating initiatives
\$250,000,000	Medicaid Enhancement Funding - Special purpose funding of Medicaid services due to the enhanced federal participation
\$17,562,348,300	GO Pension Bonds - For the funding or reimbursing a portion of the state's contributions to state retirement systems
\$46,361,925,743	Aggregate GO Bond Authorization

Pension Obligation Bonds. GO-supported Pension Obligation Bonds (POBs) were issued in 2003 as a contribution to the pension systems and funded a portion of the state's pre-existing unfunded pension liability. Debt service payments on the POBs are supported by partial reductions in the state's pension contributions that are otherwise payable.

Figure 12-4A
GO Debt Service for Pension Bonds - Series 2003

During the 2009 spring session, the General Assembly approved the issuance of \$3.466 billion in Pension Obligation Notes. These notes, repaid in five annual installments, funded the majority of the required contributions to the state's five pension funds for fiscal year 2010. The notes were issued on January 15, 2010 and fully retired in January 2015. Fiscal year 2011 pension contributions were also completed in part through bond financing. In January 2011 the General Assembly approved the issuance of \$3.7 billion in Pension Obligation Notes, and the sale was executed in February 2011. Debt service on both 2010 and 2011 Pension Obligation Notes is shown in Figure 12-4B.

Security of the Bonds. GO Bonds are direct, general obligations of the state and by law, the full faith and credit of the state is pledged for the payment of interest and principal due on these bonds. The GO Bond Act provides that the sections of the GO Bond Act containing such a pledge shall not be repealed until all GO Bonds issued under the GO Bond Act have been paid in full.

Debt Management

Continuing Appropriation. If, for any reason, there are insufficient funds in the General Revenue Fund, the Capital Projects Fund or the Road Fund, to make transfers to the General Obligation Bond Retirement and Interest Fund (GOBRI), as required by the GO Bond Act, or the General Assembly fails to make appropriations sufficient to pay the principal and interest on the outstanding GO Bonds, the GO Bond Act constitutes an irrevocable and continuing appropriation of all amounts necessary for that purpose and the irrevocable and continuing authority for, and direction to, the treasurer and the comptroller to make the necessary transfers, as directed by the governor, out of, and disbursements from, the revenues and funds of the state.

Debt Service Obligation. GO Bonds are primarily supported by revenue realized in the state's General Revenue Fund. The primary revenue sources that repay the GO Bonds are sales taxes, income taxes and motor fuel taxes. In addition, bonds issued for certain capital investments are supported by the following budgetary resources:

- Roads and Bridges – GO Bonds issued for road construction projects are primarily supported by motor fuel taxes received by the Road Fund.
- School Construction - GO Bonds issued for school construction purposes are repaid, in part, from cigarette and telecommunications taxes received by the School Infrastructure Fund.

- *Illinois Jobs Now!* – GO Bonds issued for *Illinois Jobs Now!* are, in part, supported by revenue realized in the state's Capital Projects Fund.

Figure 12-5 below displays GO Capital Bond debt service for all bonds issued and expected to be issued by June 30, 2015, and debt service for anticipated future issuances of Capital Bonds for the continuation of *Illinois Jobs Now!* in fiscal years 2016-2020.

Refunding Bonds. The GO Bond Act also authorizes the issuance of General Obligation Refunding Bonds in an amount up to \$4,839,025,000 outstanding. Refunding bonds are issued to refund or advance refund the GO Bonds that are currently outstanding, in order to take advantage of favorable market conditions and reduce the state's debt service. In fiscal year 2012, a refunding issue for General Obligation bonds was issued in the amount of \$1.7 billion. Total outstanding refunding issues as of January 1, 2015 are \$2.9 billion.

Interest Rate Exchange Agreements. The use of derivative instruments, such as interest rate exchange agreements, allows the state to limit its exposure to interest rate fluctuations on variable rate bonds. An interest rate exchange consists of an agreement between two parties (known as counterparties), in which one stream of future interest payments is exchanged for another, with one stream being fixed and the other often linked to the London Interbank Offered Rate (LIBOR) or Securities Industry and Financial Markets Association (SIFMA) rate. In October 2003, the state entered into fixed interest rate exchanges

Debt Management

with five separate counterparties (as shown below) in connection with the issuance of \$600 million of variable rate GO Bonds. This issuance remains the State's only derivative linked issuance.

This issue is currently in a weekly re-pricing mode. While in such mode it is required to be supported by a "credit enhancement/liquidity facility." This issue is currently supported by a Direct Pay Letter of Credit with a syndicate of banks led by J. P. Morgan Chase. This Direct Pay Letter of Credit, unless otherwise renewed, expires in November 2016

*Deutsche Bank AG provides credit support

Short Term Debt. Pursuant to the Short Term Borrowing Act (30 ILCS 340), the state is authorized, under the direction of the governor, comptroller and treasurer, to issue short term certificates or notes in an amount not to exceed (a) 5 percent of the state's appropriations for that fiscal year, if significant timing variations occur between disbursement and receipt of budgeted funds within a fiscal year and the debt is paid within that fiscal year; or (b) 15 percent of the state's appropriations for that fiscal year for up to 12 months, if there is a failure in revenues. There is no short term debt issuance planned for fiscal year 2016. Table 12-4 shows a 5 year history of the state's short term borrowings. No short term debt has been issued since July 2010.

Table 12-4
SHORT TERM CERTIFICATES ISSUED
(\$ Millions)

Date Issued	Amount Issued	Final Maturity
July 2010	\$1,300	June 2011

December 2008	1,400	June 2009
April 2008*	1,200	June 2008
September 2007*	1,200	November 2007

*Hospital Assessment Conduit Financings (issued to provide liquidity to the State's Hospital Provider Fund to make supplemental payments to certain hospitals pursuant to the federally-approved Medicaid State Plan).

Build Illinois Bonding Program

Program Overview. The Build Illinois Bond Act (BI Bond Act), 30 ILCS 425 et. seq., established the Build Illinois Sales Tax Revenue Bonding program in 1985. The Build Illinois Sales Tax Revenue Bonding program complements the state's efforts in economic development by funding infrastructure, educational and vocational facilities, and environmental protection projects, and by providing incentives for business location and expansion in Illinois. Figure 12-6 displays bond sales between fiscal years 2011 and 2016.

Debt Management

Capital and Grant Purposes. The BI Bond Act authorizes the state to issue Build Illinois Sales Tax Revenue Bonds (BI Bonds) for the purposes and in the amounts listed below:

Build Illinois Bonding Categories	
\$3,222,800,000	Infrastructure – Construction, reconstruction, modernization and extension of the state's infrastructure
\$1,944,058,100	Education – Educational, scientific, technical and vocational programs and facilities, and the expansion of health and human services
\$230,150,900	Environmental – Protection, restoration and conservation of the state's environmental benefits
\$849,000,000	Economic Development – Incentives for the location and expansion of businesses in Illinois resulting in increased economic benefits
\$6,246,009,000	Aggregate BI Bond Authorization

Security of the Bonds. BI Bonds are limited obligations of the state payable solely from a senior lien on (a) 3.8 percent of the state's Sales Tax revenues (BI Tax Act Amount) and (b) all additional state Sales Tax revenues to the extent that the BI Tax Act amount, together with the other revenues of the state, are insufficient in any month to provide the amounts required by the BI Bond Act to be transferred to the Build Illinois Bond Retirement and Interest Fund (BIBRI Fund). Additionally, Senior Obligation Build Illinois Bonds are secured by a Debt Service Reserve Fund equal to 50 percent of the Maximum Annual Debt Service as defined in the Indenture for the bonds. Junior Obligation Build Illinois Bonds (of which there are two series) are not secured by this Fund. As of January 1, 2015 there are \$2.1 billion in outstanding Senior Obligation bonds and \$875 million in outstanding Junior Obligation bonds.

Debt Service Obligation. The state has pledged that the governor shall include in each annual state budget, and the General Assembly shall annually appropriate for each fiscal year, the required bond transfer from the BIBRI Fund, in an amount estimated to equal the greater of (i) the annual debt service requirement for such fiscal year as certified by the Trustee or (ii) the BI Tax Act Amount for the fiscal year.

The Required Bond Transfer is pursuant to the BI Bond Act and the Master Trust Indenture. The BI Bond Act further provides that, in the event that such an appropriation is not made, the BI Bond Act constitutes the irrevocable and continuing authority and provides direction to the treasurer and comptroller to make the necessary transfers and deposits, as directed by the governor, and to make the payments of principal and interest as required by the BI Bond Act to support outstanding BI Bonds.

Refunding Bonds. BI Refunding Bonds may be issued for the purpose of refunding or advance refunding any BI Bonds previously issued under the BI Bond Act. The BI Bond Act authorizes unlimited issuance of refunding bonds.

OTHER STATE-SUPPORTED INDEBTEDNESS

State-Supported Revenue Bonds. Revenue bonds are either those bonds for which the state earmarks a specific revenue source for debt service or bonds under which the state is committed to retire debt issued by certain state authorities or Illinois municipalities pursuant to law. The state's commitment is based upon various Illinois statutes and upon contractual arrangements with the issuing authorities. The table below identifies the bonding program's name, issuing authority or agency and total revenue bonds outstanding for each respective program. See the appendix following this chapter for a complete debt service schedule.

Table 12-6
Other Revenue Bonds Outstanding
(As of June 30, 2014)

Bonding Program	Issuing Authority/Agency	Bonds Outstanding
Civic Center Bonds	Metropolitan Exposition and Auditorium Authorities	\$ 51,975,732
Dedicated State Sales Tax Revenue Bonds	Metropolitan Pier and Exposition Authority	\$ -
McCormick Place Expansion Project Bonds	Metropolitan Pier and Exposition Authority	\$ 2,498,861,798
ISFA Bonds	Illinois Sports Facilities Authority	\$ 427,143,962
Certificates of Participation	Central Management Services	\$ 11,395,000
Total		\$ 2,989,376,492.0

Certificates of Participation. The state has incurred certain long-term obligations in the form of certificates of participation to finance renovations and buildings that are leased to state agencies. The total amount outstanding is displayed in Table 12-6 above. No additional debt obligations of this type have been incurred since 1996, and the authorization subsequently ended with Public Act (PA) 93-0839.

STATE-RELATED INDEBTEDNESS

Moral Obligation Pledges. Seven state bond authorities are currently permitted to issue moral obligation bonds, with the governor's approval. The state's moral obligation pledge has been used by these regional authorities to issue bonds that are enhanced by the governor's pledge to request the General Assembly to support the debt service

Debt Management

requirement of the enhanced bonds, if the borrower defaults. The following table shows the number and outstanding amount of all bond issues currently bearing the state's moral obligation pledge.

Table 12-7
Total Moral Obligation Bonded Debt
As of January 1, 2015
(\$ in Millions)

Issuing Authority	Bond Series	Principal at 1/1/2015
Southwestern Illinois Development Authority	3	\$ 23.8
Upper Illinois River Valley Development Authority	1	\$ 15.3
Illinois Finance Authority	2	\$ 36.3
Illinois Housing Development Authority	3	\$ 0.1
Total	9	\$ 75.5

State law requires each authority to certify amounts withdrawn from bond reserve funds to pay principal and interest on moral obligation bonds. The amounts, so certified, are recommended for annual appropriation in the governor's executive discretion.

Although not bonded debt, College Illinois, the state's Prepaid Tuition Program, is operated by the Illinois Student Assistance Commission ("ISAC"). College Illinois is supported by a moral obligation commitment of the state. It has most recently reported an underfunded liability of \$323 million.

The moral obligation provides that the governor will recommend an appropriation. But the General Assembly is not statutorily required to make an appropriation for an authority's certified amount, nor must the governor sign any such appropriation bill if passed by the General Assembly.

Moral Obligation Bonds in Default. Currently there is one moral obligation-enhanced project that is in default and receives financial support from the state. The regional development authority Southwestern Illinois Development Authority (SWIDA) has certified that in fiscal year 2016 there will not be sufficient resources to pay the amounts due on bonds issued for LaCled Steel issued 1990 backed by the moral obligation pledge.

Table 12-8 shows the principal remaining at the end of calendar year 2014, as well as the appropriation request necessary to fund debt service anticipated in fiscal year 2016.

1990	Southwestern Illinois Development Authority	Children Ctr for Behavioral Dev	0.0	0.0
Total			\$1,349.0	\$ 7,785.0

Agricultural Loan Guarantees. The Illinois Finance Authority (IFA) administers loan guarantee programs for lenders to qualifying farmers and agribusiness-purpose borrowers. The guarantees are backed by reserve funds held by IFA and a standby continuing appropriation from the General Revenue Fund. Annual continuation of a loan guarantee requires lenders to perform borrower and collateral monitoring pursuant to IFA guaranty agreement policy.

In the event of a default, up to 85 percent of an outstanding loan balance may be paid to a secured lender, with the first 15 percent of losses from subsequent collateral recovery to be incurred by the lender. Table 12-9 below summarizes the current loan guarantee programs IFA administers.

Table 12-9
Outstanding Agricultural Loan Guarantees
As of December 31, 2014

Farmer and Agri-Business	\$ 225.0	\$ 17.3	\$ 9.3	20	\$ 7.8
Total	\$ 385.0	\$ 33.0	\$ 18.2	\$ 75.0	\$ 17.9

Railsplitter Tobacco Settlement Authority.

In December 2010, the Railsplitter Tobacco Settlement Authority (Railsplitter) issued revenue bonds in the amount of \$1.50 billion, now outstanding in the amount of \$1.31 billion. After funding Railsplitter's various business purposes, including the funding of a debt service reserve fund, the state received \$1.35 billion in exchange for selling to Railsplitter its rights to the payments under the Master Settlement Agreement (MSA) between various states, including Illinois, and various cigarette manufacturers (the Participating Manufacturers or PMs).

The state used these funds to pay outstanding fiscal year 2010 obligations, with payments made in December, 2010 at the end of the extended lapse period for that fiscal year. The MSA calls for the PMs to make annual payments which are allocated among the various participating states. In recent years, Illinois has received between \$275 and \$300 million per year from the MSA. These funds have been used to fund a variety of health-

Debt Management

related and other programs of the state. Railsplitter purchased the state's rights to 100 percent of the MSA payments but, by the terms of the purchase, may keep only the amount of funds required each year for debt service, costs of operations and enforcement of the MSA by the State Attorney General. Any excess amounts (Excess MSA Payments) must be transferred to the state. The funds required by Railsplitter for these purposes are expected to average approximately \$150 million per year.

The revenue bonds issued by Railsplitter are secured only by the MSA payments and the state is not obligated in any way to pay principal and interest on these bonds. However, as a result of the Railsplitter bond financing, other revenues have been needed to fund those portions of the health-related and other programs previously funded by the MSA payments now retained by Railsplitter. These revenues have included amounts in the General Revenue Fund. In addition, Railsplitter has a priority claim on all MSA payments to be received by the State. If those payments decline in future years, the state's share of any Excess MSA Payments will be correspondingly reduced.

Illinois Department of Employment Security Unemployment Insurance Bonds. In July 2012, the Illinois Department of Employment Security (IDES) issued three series of revenue bonds totaling \$1.47 billion, now outstanding in the amount of \$936 million. In accordance with the Illinois Unemployment Insurance Trust Fund Financing Act, these bonds are paid by Fund Building Receipts (FBR) collected by IDES. The proceeds of this bond sale repaid federal advances in the Illinois Unemployment Insurance Trust Fund and interest incurred on these advances.

Starting in 2009, IDES began running deficits in the Illinois Unemployment Insurance Trust Fund. The federal government provided loans to states to fund their unemployment insurance programs. It was determined to be beneficial to repay federal advances by issuing bonds, in lieu of paying the federal interest rate which was then approximately 2.94 percent, annually.

The three series, A (non-callable), B (callable June 15, 2014) and C (super sinkers/callable June 15, 2013), were structured to have flexible repayment options, so that IDES could repay the bonds as

quickly as possible. These bonds have a priority lien on and pledge of all Fund Building Receipts (FBR) collected from Illinois employers. Over the past 10 years, IDES has collected an average of \$321 million a year in FBR.

These revenue bonds issued by IDES are secured only by FBR, and the state is not obligated in any way to pay principal and interest on these bonds.

Debt Management

Demographic Information

ILLINOIS DEMOGRAPHICS

With a modest gain in population from 2012 to 2013, Illinois is home to 12.8 million people. Illinois is the fifth most populous state in the country. Richly diverse in its geography, Illinois contains more than 56,000 square miles. The state is nearly 400 miles long from Rockford in the north to Cairo in the south. The state is 281 miles wide, and is the 24th largest state in the nation. The geographic center of the Illinois is a small village in Logan County called Chestnut. The mean height above sea level in Illinois is 600 feet. This low level of topography along with its location midway between America's two major mountain ranges, the Rockies and the Appalachians, causes Illinois to be the site for the confluence of the nation's three largest river systems; the Mississippi, the Missouri and the Ohio. These rivers and their tributaries, along with the Illinois River provide Illinois with much of its rich Drummer silty clay loam soil,

which is so vital to the state's thriving agricultural production. The rivers also serve as a vital transportation conduit, linking Illinois with markets around the country and around the world. The state is composed of distinct regions, each with their own unique demographic, geologic, and topographic characteristics. The Northern Stateline Region bordering Wisconsin, is unique in the "Prairie State" for its rolling hills and cooler climate. The Southern Region, known as "Little Egypt" for its dry sandy soil not normally found in the American Midwest, overlooks the confluence of the Mississippi and Ohio rivers. Two regions encompass the largest metropolitan areas of Illinois. The Northeast Region covers the Chicago metropolitan area and the Southwest Region is part of the St. Louis metro area. Other regions in the state represent areas that share similarities in employment, commuting patterns and other important social and economic characteristics.

Population Estimates by Region

REGIONS	2001	2006	2011	2012	2013	2001 - 2013 % Change

Income, Age, and Household Diversity

Nearly three-quarters of the state's population reside in the Chicago-Naperville-Joliet Metropolitan Statistical Area (MSA). The six next largest MSAs in Illinois account for only 13 percent of the state's population. Between 2000 and 2010, all but two of Illinois' 11 metro areas increased in population, contributing to the state's overall population growth of 3.2 percent. Over the same period, Illinoisans were growing older, as the average age

of the Illinois population increased. The 55 to 64-year-olds were the fastest growing age group. Conversely, during the same period there was a drop in the number of people in Illinois ages 25 to 44. This age group decreased by more than 294,000, a drop of 7.7 percent. The number of married couples decreased slightly as a share of overall households, while "non-family households" (people living alone and householders sharing the home with non-relatives) continued to increase their share of total households.

Demographic Information

Illinois Income by Economic Development Regions

Per capita personal income--which includes [wages and salaries](#), transfer payments, dividends, interest, and rental income -- is used as the broadest indicator of the magnitude of improvement in an economy. Rising income levels allow individuals to provide for their families, buy homes, and improve the quality of their lives. In 2013, Illinois had an average per capita personal income (PCPI) of \$46,980. This PCPI ranked 16th in the United States and was 105 percent of the national average, \$44,765. The 2013 PCPI reflected an increase of 2.1 percent from 2012. The 2012-2013 national change was 1.3 percent.

Though household incomes in Illinois have shown a nearly steady increase every year across all regions, certain economic development regions have accrued the greatest gains. The 2012 - 2013 per capital personal income growth rate was highest in two Illinois regions: the West Central region (an 8.6 percent increase) and the Southeast region (a 7.0 percent increase). Two regions experienced annual gains that lagged the state average growth of 2.1 percent: North East (a 1.3 percent increase) and North Central (a 1.0 percent increase).

Per Capita Personal Income by Economic Development Region

REGIONS	1991	2001	2012	2013	2012-2013 (% Change)

Demographic Information

HEALTH STATISTICS

The Illinois infant mortality rate decreased from 6.8 deaths per 1,000 live births recorded in 2010 to 6.6 in 2011. Nationally, during the period 2010-2011, the infant mortality rate decreased from 6.2 infant deaths per 1,000 live births to 6.1 per 1,000 births.

From 2010 to 2011, the infant mortality rate for African-American infants remained unchanged at 13.6, more than twice the rate for infants born to Caucasian mothers. Among Caucasian infants, the infant mortality rate dropped to 5.2 from 5.3.

The infant mortality rate in Chicago for 2011 was 8.2, an increase of 10.8 percent from the 2010 rate of 7.4. The infant mortality rate for African-American infants in Chicago was 14.4 in 2011, up from 11.8 in 2010, while the infant mortality rate for Caucasian infants remained unchanged at 5.4.

The downstate (all geographic areas outside the city of Chicago) infant mortality rate decreased from 6.5 in 2010 to 6.0 in 2011. The downstate rate in 2011 for African-American infants was 12.9, a decrease from 15.3 in 2010, while the rate for Caucasian infants decreased from 5.3 in 2010 to 5.2 in 2011.

In 2011, 1,062 infants (342 in Chicago and 720 downstate) died before their first birthday, compared to 1,116 infants (318 in Chicago and 798 downstate) in 2010. This represents a 4.8 percent decrease. Seventy-one percent of infant deaths occurred within the first 27 days from birth.

The total number of births in 2011 was 161,234, a 2.3 percent decrease from the 164,998 recorded in 2010.

Demographic Information

LEADING CAUSES OF DEATH

Heart disease remains the leading cause of death in Illinois, accounting for nearly 25 percent of all deaths in Illinois in 2011 or a rate of 191.2 deaths per 100,000 people, which mirrors the national rate. Deaths as a result of heart diseases decreased one percentage point from 2010 to 2011, while deaths from malignant neoplasms (cancer), over the same period, decreased only

slightly as well. This indicates heart diseases remain a significant public health issue.

Deaths from malignant neoplasms, the second leading cause of death, are slightly lower at 24 percent. The rate for malignant neoplasms is 185.3 deaths per 100,000 people.

Leading Causes of Death, Illinois vs. U.S. Residents

Cause of Death	Illinois			U.S.	
	Number	Rate		Number	Rate
Diseases of heart	24,607	191.2		596,339	191.4
Malignant neoplasms	23,852	185.3		575,313	184.6
Chronic lower respiratory diseases	5,369	41.7		143,382	46.0
Cerebrovascular diseases	5,324	41.4		128,931	41.4
Accidents	3,510	27.3		122,777	39.4
Alzheimer's disease	2,896	22.5		84,691	27.2
Diabetes mellitus	2,658	20.7		73,282	23.5
Influenza and pneumonia	2,394	18.6		53,667	17.2
Nephritis, nephrotic syndrome and nephrosis	2,361	18.3		45,731	14.7
Septicemia	1,828	14.2		35,539	11.4
Chronic liver disease and cirrhosis	1,121	8.7		33,539	10.8
Intentional self-harm (suicide)	1,041	8.1		38,285	12.3
All other causes	24,330	n/a		581,397	n/a
All Causes	101,291	787.1		2,512,873	806.5

Demographic Information

Although human immunodeficiency virus (HIV) disease is not a leading cause of death, it is still considered a major public health problem for some demographic groups. Despite substantial improvements in the prevention of HIV in Illinois, racial and ethnic minorities represent the majority of new HIV infections in Illinois. The rate of HIV among blacks is eight times that of whites, and three times that of Latinos. The disease is most prevalent among 20-29 year olds.

Overall diagnoses have decreased since the early 2000s – 2,618 individuals were diagnosed with HIV disease in 2000, compared to 1,214 in 2013.

However, incidence rates increased slightly between 2011 and 2013, from 1,702 to 1,814 new reported cases. In 2013, there were 14 new cases of HIV disease for every 100,000 people in Illinois.

With increased knowledge and advances in treatment that allow individuals with HIV to live longer, higher quality lives, the number of people living with HIV continues to increase. As of 2013, over 37,000 people in Illinois were living with HIV. Between 2009 and 2013, a total of 2,479 people died of HIV disease, 80 percent of those having reached stage 3 (AIDS).

Incidence of HIV Disease
by Sex, Age, and Race

Illinois 2013

CHAPTER 9

Glossary

This page intentionally left blank.

Glossary

ALPLM - Abraham Lincoln Presidential Library and Museum

Abusive Tax Shelters - Any plan or arrangement devised to avoid paying federal and state income tax, including but not limited to, "listed transactions" as defined by the Internal Revenue Service.

Accrual Method - Recognizing when transactions occur, not when money is exchanged. In other words, income is counted when the sale occurs, but expenses are not counted until the goods or services are received.

Activity Measure - Information or data used to quantify the delivery of state services. For instance, the number of people served or the number of cases closed.

Ad Valorem Tax - A tax assessment levied on the actual or estimated value of an item or service, rather than its usage.

All Funds - Every fund appropriated to, or spent by, an agency.

American Recovery and Reinvestment Act (ARRA) - The federal government's \$787 billion plan to jump-start the U.S. economy and create jobs.

Annualize - To provide full-year funding for the next fiscal year when a program is started or a person is hired part way through the current fiscal year.

Appropriation - Spending authority given to a specific agency from a specific fund for a specific amount, purpose and time period.

Assessment - A levy imposed for a specific purpose.

Attrition - Natural reduction in caseload or staff. For example, attrition in staff through retirement or resignation.

Authorization - An act of the legislature that establishes or continues a program or agency

and sets forth the guidelines to which it must adhere.

Available Fund Balance - The total amount of money in a fund at a particular point in time, typically at the beginning of a month or year.

Balanced Budget - A balanced budget occurs when total receipts equal total outlays for a fiscal year.

Balance Sheet - Presentation of the financial condition at a specific point in time including assets, liabilities and fund balance.

Basis of Accounting - The method of accounting used to track and report state revenues and expenditures. For example: cash-basis or accrual.

Benchmark - A measurement that allows comparison to other similar organizations. This can be used to track performance over time.

BIBRI - Build Illinois Bond Retirement and Interest Fund

Bond - A debt security that grants the holder specific and binding authority to receive a return of principal and periodic interest payments up to and including the instrument's maturity. The state uses bonds to finance long-term capital projects.

Bond Fund - A fund that receives proceeds from the sale of bonds to be used for capital projects.

Bond Rating - An assessment of the credit risk with respect to a specific bond issue.

Bond Retirement and Interest Fund - A fund used to repay principal and interest on bonds or other debt obligations, typically spent pursuant to a continuing and irrevocable appropriation.

Budgetary Balance - Available cash balance on June 30, minus lapse period spending for the fiscal year just ended.

Glossary

Budget Authority - Authority provided, by law, to incur financial obligations that will result in outlays.

Budget Deficit - An excess of expenditures over revenues in a fiscal year.

Build Illinois - A state economic development and public infrastructure program begun in 1986 and primarily funded by dedicated state sales tax revenue bonds.

Budget Resolution - The annual framework that sets targets for total budget authority, total outlays, total revenues, and the deficit, as well as discretionary and mandatory allocations within the spending targets.

Budgeting for Results (BFR) - Process of budgeting where an annual budget is based on how effectively programs provide results that citizens value, rather than being based on the money allocated in the previous fiscal year.

Cap - Legal limit on annual discretionary spending.

Capital - Buildings, structures, equipment and land. Acquisition, development, construction and improvement of capital is typically funded through bond funds.

Capital Budget - A capital budget is a spending blueprint that identifies capital projects that invest in assets with a long useful life for the state.

Capital Expenditures - Includes expenditures from all aspects of the capital budget: financial and physical planning, land acquisition, architecture and engineering, construction and durable equipment purchases, and grants and loans to other entities for capital purposes.

Case Management - Monitoring and oversight of the delivery of services, which may include coordination of all services to a client.

Cash Basis - A major accounting method that recognizes revenues and expenses at the time physical cash is actually received or paid out.

Caseload - The number of clients being served at a point in time, sometimes used in the context of clients per staff.

Cash Flow - The amount of cash available during a period of time, calculated by subtracting spending from the sum of the receipts and the beginning balance.

Causal Factors - Something that contributes to an outcome happening (or prevents it from happening). It should be based on evidence (research, experience, or sound logic). It does not need to be something that government is responsible for or has control over. The causal factors are presented visually as a "cause and effect map" showing their connection to the priority.

Census - Population measure, typically of clients in a facility or program.

Certificate of Participation - Similar to bonds or other debt instruments; a security issued by the state or a third party giving the holder a share of the stream of annual appropriated lease payments made by the state.

Chief Results Officers (CROs) - High-level agency liaisons to BFR with responsibility for implementing the principles of BFR, and overseeing performance and change management within their agency.

Client - A person or family receiving services.

Commodities - Consumable items used in connection with current agency operations. Examples are: household, medical or office supplies; food for those in institutions; coal, bottled natural gas; and equipment costing less than \$100.

Common School Fund - One of four funds that compose the state general funds. It is used to fund elementary and secondary education. When revenues from the lottery, bingo, public utilities, cigarette and sales taxes and investment income, among others, are insufficient to make monthly general state aid payments, the Common School Fund receives

Glossary

automatic transfers from the General Revenue Fund.

Consent Decree - An agreement between both parties in a lawsuit that binds them and determines their rights and obligations. While made under sanction of the court, it does not bind the court, and it is not a judicial determination.

Continuing Appropriation - Statutory authority that allows the comptroller and treasurer to spend funds in the event the legislature fails to appropriate necessary funds or appropriates an insufficient amount for a specified purpose.

Continuing Resolution - Provides for the ongoing operation of the government in the absence of enacted appropriations, usually at the same spending rate as the prior year.

Contractual Services - Services provided by a non-state employee or vendor including utilities; medical services for those in institutions; professional, technical or artistic consulting; and property and equipment rental.

Debt Service - Payment of principal, interest and other obligations associated with the retirement of debt.

Debt Held by the Public - The cumulative amount of money the state has borrowed from the public and not repaid.

Debt Limit - The maximum amount of state debt that may legally be outstanding at any time. It includes both the debt held by the public and the debt held by government accounts. When the debt limit is reached, the government cannot borrow more money until the legislature has enacted a law to increase the limit.

Dedicated Funds - Revenues assessed and collected for a specific state program.

Deficit - See Budget Deficit

Depreciation - The diminution of the value of capital assets over time.

Discretionary Spending - Spending that the legislature controls through annual appropriations.

Divisions - Organizational units within agencies for programmatic or administrative purposes.

Education Assistance Fund - One of four funds that compose the state general funds. It is used to fund elementary, secondary and higher education. It receives 7.3 percent of the state income tax net of refunds, as well as wagering taxes paid to the state by riverboat casinos.

Electronic Data Processing (EDP) - Computer or other data processing equipment and related services including supplies, services and personnel.

Employee Retirement Contributions Paid by State (Pension Pick-Up) - Employee's required contribution to the State Employees' Retirement System, which an agency has chosen or contracted to make on behalf of the employee.

Entitlement - Program benefits that must be provided in a timely fashion to those who meet eligibility criteria and that may not be taken away without due process.

Equipment - Non-consumable items used in connection with current agency operations, such as office furniture, vehicles, machinery, and scientific or other major instruments and apparatus.

Executive Branch - The branch of government charged with carrying out and effectuating the law through the day-to-day operations and activities of state government. The governor, as chief executive officer of the state, is responsible for the operation and administration of state agencies.

Executive Order - A decree or mandate issued by the governor for the purpose of interpreting or implementing a provision of the law.

Expenditures - State spending. Agencies submit payment vouchers to the comptroller's

Glossary

office, which prepares a state check (warrant) and maintains accounting records.

Federal Aid - Funding provided by the federal government.

Fiscal Note - A statement attached to a bill giving the estimated amount of increase or decrease in revenue or expenditures, and the present and future fiscal implications of a bill.

Fiscal Year - Illinois state government's fiscal year is July 1 through June 30. This is the period during which obligations are incurred, encumbrances are made and appropriations are expended. The federal government's fiscal year is October 1 through September 30.

FPL - Federal Poverty Level

Full Faith and Credit - A pledge or promise to repay general obligation debt.

Full-Time Equivalent (FTE) - A calculated measure of full-time employment for comparison purposes. Full-time employees work 37.5 hours per week for 52 weeks per year.

Fund - An account established to hold money for specific programs, activities or objectives.

Fund Balance - The amount of cash available in a fund as of a given date.

GASB - Governmental Accounting Standards Board

General Funds - Refers to the following group of four funds, inclusively: the General Revenue Fund, the Education Assistance Fund, the Common School Fund and the General Revenue-Common School Special Account Fund.

General Obligation Bonds - Bonds issued for capital purposes as direct legal obligations secured by general tax revenues and guaranteed by the full faith and credit of the state.

General Revenue-Common School Special Account Fund - Used for accounting purposes to receive 25 percent of state sales tax and

subsequently transfer these moneys to the Common School Fund.

General Revenue Fund - The largest of four funds that compose the state general funds. It receives the majority of undedicated tax revenues, mostly income and sales taxes, to operate and administer state programs.

General State Aid (GSA) - An unrestricted, formula-driven grant that comprises the largest portion of state assistance to local school districts. The amount of funds a district receives depends on its financial need, which is measured by its average daily attendance, its equalized assessed valuation of property, its local tax measured by its statutory tax rate and its concentration of low-income families within the district.

GFOA - Government Finance Officers Association

GOMB - The Governor's Office of Management and Budget; serves the governor's financial, management and budgeting needs by providing accurate, timely and objective information.

Grant - An award or contribution to be used either for a specific or a general purpose, typically with no repayment provision.

Group Insurance - Life and health insurance program for all state employees, retirees and their dependents.

Headcount - The number of employees at a specified period of time, typically either the actual number of staff working or a calculated full-time equivalent.

Highway Fund - A fund that receives special dedicated revenues related to transportation. For example, the motor fuel tax and federal highway trust funds are to be used to support the construction and maintenance of transportation facilities and activities.

Hiring Lag - The savings in personal services and benefits associated with the time period

Glossary

between an employee leaving the job and a replacement being hired.

I-CLEAR - Integrated Citizens and Law Enforcement Analysis and Reporting System.

Illinois FIRST - A \$12 billion, multi-year public works initiative begun in fiscal year 2000. Half of the money is provided from bond proceeds, with the remainder covered by a combination of local, state and federal resources.

Illinois Jobs Now! (IJN)- The state's most recent large-scale capital initiative was signed into law in 2009. This statewide capital construction effort is now in its sixth year and consists of a wide range of projects that generate jobs and enhance state services.

Income Tax Surcharge - Originally a temporary increase of 0.5 percent in the state personal income tax and 0.8 percent in the corporate income tax established in July 1989 to fund education, local governments and property tax relief. Subsequently, in July 1991, half of the surcharge was made permanent and dedicated to education. The remaining half was made permanent in July 1993.

Indicator - Key measure or index that provide the best evidence to citizens that a statewide outcome is being achieved.

Infant Mortality - Measure of infant deaths during the first year of life per 1,000 live births.

Infrastructure - The foundation or framework of a system or organization; it is indispensable to supporting the purposes and operations of a wide range of public and private sector entities and activities. The physical infrastructure of the State of Illinois is the framework of facilities including prisons, universities, mental health centers and state parks; and the transportation network encompassing highways, bridges, airports, public transit rail, freight rail and passenger systems.

Inputs - The time, money, personnel and resources that are necessary in order to allow a program to function to its full potential.

IT - Information technology

Judicial Branch - Charged with interpreting and applying laws.

Lapse - The portion of an appropriation that is not spent during the authorized period, typically the fiscal year.

Lapse Period - The two-month period following the fiscal year (July 1 to August 31) when agencies can liquidate liabilities incurred before the end of that fiscal year (June 30).

Lapse Period Spending - Spending that occurs during the lapse period from the previous year's appropriation.

Legislative Branch - Charged with enacting, amending and repealing the law, including appropriations.

Legislative Transfer - Reallocation of appropriation amounts among line items by the general assembly during the fiscal year. Distinguished from a 2 percent transfer, which may be accomplished by the executive branch without participation of the legislative branch.

Line Item - Specific purpose of an appropriation.

Liquidate - To settle or pay a debt, or to convert assets into cash.

Local Government Distributive Fund - Receives a specified percentage each year of the income tax proceeds to the general funds, via a transfer, for distribution to units of local government based on population. Funds may be used for any purpose.

Lump Sum - Appropriation line for a general program purpose without specific line items identified.

Maintenance Budget - The budget amount sufficient to fully fund a state agency's core mission and programs for a given fiscal year.

Managed Care - The process of coordinating and controlling all services provided to a client to assure efficiently and effectiveness.

Mandate - A law or regulation that generally should be followed, whether or not funding is

Glossary

provided. The State Mandates Act permits certain regulations and laws to be ignored if funding is not provided.

Mandatory Spending - Controlled by permanent law rather than annual appropriations.

Match - Contribution to a program that is required to receive a program grant, may be either money (hard match) or services (soft match).

Medicaid - Public assistance financed jointly by the state and federal governments to provide medical care for individuals who meet certain eligibility criteria.

Modified Accrual Basis - The basis of accounting under which revenues should be recognized during the accounting period in which they become available and measurable. Expenditures should be recognized during the accounting period in which the fund liability is incurred, if measurable, except for unmatured interest on general long-term debt, which should be recognized when due.

Moral Obligation - A duty that is not binding or enforceable by law. Typically, debt service on bonds issued by others that the state agrees to consider funding if the issuer is unable to pay. There is no legal guarantee the state will make such payments.

MD - Metropolitan District

MSAs - Metropolitan Statistical Areas

N/A - Not available or not applicable.

Obligation - Binding agreement that result in immediate or future outlays.

Other Funds - All state and federal funds except the four general funds.

Other Operations - Administrative, non-grant expenses of state agencies, except salaries and payments for fringe benefits. For example, contractual services, travel, printing and telecommunications.

Outcomes - Reliable and valid translation of activity measures and output measures into a framework that allows observers to see if a program or policy initiative has met its desired result. Answers questions such as: are the citizens of this state healthier than last year; and are the citizens of this state safer than last year?

Outlays - Payments to liquidate obligations, largely measured on a cash basis.

Outputs - The results of program activity; products and services delivered to a program's clients.

Pay-As-You-Go - Requirements that new mandatory spending proposals or tax reductions must be offset by cuts in other mandatory spending or by tax increases.

Peer Group - A relevant sample of similar agencies or organizations. Peer group can be defined by size, geography, complexity, function, etc.

Pension - Money paid under given conditions to a person following retirement or to surviving dependents.

Pension Liability - Pension liabilities arise due to an underfunding of the pension trust. When the underfunding exceeds the accumulated benefit obligation, a liability must be recognized.

Per Diem - By the day. A set amount of money paid for each day.

Performance Management - The process of ensuring that strategic and program goals are met by the state in general and agencies in particular.

Performance Measure - Information or data used to determine the quality and outcomes of state services. For instance, the number of people who receive jobs following job counseling and employment services or the number of people who remain off drugs following treatment services.

Glossary

Personal Services - Salary payments to employees.

Phase-In - Staged expenditure pattern, such as initiating a program, hiring employees or opening an institution over time (see Annualize).

Pilot Program - Tentative model for future full scale development, typically a program operated in a limited area or targeted to a limited population to analyze its effectiveness before expanding its scope.

Position Title - Name and description of a job.

Printing - Contractual services, materials and supplies used to produce and print information.

Program - A separately identifiable and managerially discrete function within an organization designed to meet a statutory requirement or a defined need; a set of activities undertaken to realize one common purpose with an identifiable end result or outcome.

Program Budgeting - A method of budgeting that emphasizes the program, rather than the traditional line item as the core unit in budget development. This process provides detailed costs for each program and activity in the budget.

Proxy Indicator - Indirect measure or sign that approximates or represents a phenomenon in the absence of a direct measure or sign. Number of female members of a chamber of commerce, for example, is a proxy indicator of the percentage of female business owners or executives.

Reappropriation - An unspent appropriation that continues into the next fiscal year.

Recommended - Governor's budget proposal presented to the general assembly for its approval.

Receipts - Sometimes called revenues, the collection of money from taxes, fees and similar government powers to compel payment.

Refunding Bonds - Bonds issued to refinance other outstanding bonds, which generally were originally issued at higher interest rates.

Refunds - Return of funds to the rightful owner, typically return of overpaid taxes or fees.

Repair and Maintenance - Upkeep, restoration and improvement of equipment and facilities in connection with current agency operations.

Reserve - Portion of appropriation intentionally set aside and not spent, either to increase lapse or as a contingency for increased liabilities in other line items.

Resources - All assets available for use by agencies, whether appropriated or not.

Result Area - Major organizational categories of state government, including education, human services, public safety, environment and business regulations, economic development and infrastructure, and government services.

Retirement - Line item for employer's share of contributions to the state retirement system.

Revenues - Receipts from taxes, fees, assessments, grants and other payments used to fund programs.

Revolving Fund - Receives intergovernmental payments charged for providing central operational services such as computer, purchasing, state garage and telecommunications.

Road Fund - Receives motor fuel tax and other transportation-related revenues to operate the Department of Transportation, Illinois State Police and the Secretary of State's office, and to build and maintain roads, bridges and other transportation facilities.

Shared Services Program - A multi-year program to reorganize state resources into high-performance, technology-based Shared Services Centers in order to more efficiently and effectively fulfill common service needs.

Glossary

SEOC - State Emergency Operations Center

Social Security - Employer's share of contributions to the Federal Insurance Contributions Act (FICA) tax.

Special State Funds - All state funds except the general funds, bond-financed funds, debt service funds, federal trust funds and state trust funds.

State Agency - Government organization created by statute to administer and implement particular legislation.

Statute - A law enacted by the General Assembly and approved by the governor.

Structural Deficit - When the collective expenses of state obligations increase at a rate faster than the revenues received during an extended period covering more than one fiscal year.

Substitute Care - A program to place children away from their families in foster homes or residential facilities.

Superfund - The federal environmental program established to address certain hazardous waste sites.

Supplemental Appropriation - Additional spending authority given by the General Assembly during the fiscal year, following passage of the initial budget.

Surplus - Amount by which receipts exceed outlays in a fiscal year.

Target - A quantifiable metric to which an organization aspires. Incorporates elements of both performance and time to enable ranking of performance.

Transfer - Reallocation of resources, typically movement of money from one fund to another or shift of appropriation authority among line items.

Trust Fund - Receives revenues assessed and collected for a specific state program.

Two Percent Transfer - Reallocation of appropriation amounts by the governor during the fiscal year, limited to two percent of an agency's appropriation, by fund, for specific operations lines. This is different from a legislative transfer, which requires approval by the legislative branch.

Unified Budgeting - Process of budgeting for long-term health care where services are jointly managed by the departments of Human Services, Health and Family Services and Aging, to assure tax dollars are spent most efficiently and effectively to meet long-term care needs of older adults and people with disabilities who qualify for state assistance.

Unobligated Balance - Funding that has been approved or is available, but not yet obligated for any particular purpose.

Voids - Checks (warrants) that are not cashed.

Voucher - Document submitted to the comptroller requesting payment.

Warrant - Check issued by the comptroller to a third party who cashes it with the treasurer.

Zero-based Budgeting - A method of budgeting that assumes no base spending from the prior year. Expenditures are considered anew each year, and added or subtracted from the current year budget request based on contribution to positive performance.

Zero Coupon Bonds - Bonds without interest coupons for semi-annual payment. Interest accrues over the life of the bond and is paid at maturity along with the principal.

This page intentionally left blank.

ILLINOIS

STATE BUDGET FISCAL YEAR 2016

BRUCE RAUNER • GOVERNOR
